# Britain Cuts Down Her Expense Bill COMMITTEE RECOMMENDS SPEND LESS ON ARMY AND NAVY

## Cutting Down Expenses Government in Great Britain Reductions Recommended

LONDON, Feb. 11.—Reduction in the personnel and estimates for the maintenance of the army and navy and air force in Britain is recommended in a report of the committee on national economy headed by Sir Eric Geddes. This is the committee which was asked to show parliament and the people how £100,000,000 could be clipped from the national expenses.

While the committee has not been wholly successful, it has been able to suggest how there might be reductions in the expenses of the nation amounting to £75,000,000 spread over the various departments of the administration.

Taxes are high in Britain and the drop in prices is making the people restless under the burden. There is a general demand for economy of expenditures but this economy is tending to accentuate the bad times. Men dismissed from the public service join the army of unemployed and reduced salaries means less money to spend. Every economy tends to decrease the amount of money spent.

## CONSERVATIVES ORGANIZING IN GREAT BRITAIN

LONDON, Feb. 11.—The Unionist members of parliament who signed the pledge to stand as independent Conservatives and not as supporters of the coalition government in the event of another election are organizing a group and discussing the future policy. The group numbers about fifty.

The action of the Conservative coalitionists followed the election of Lloyd George as president of the Liberals at a convention of Liberals held here. While the coalition government is still carrying on and will continue to do so for a short time, there may be a break any day and both sides are preparing for the next big political fight, which may come this year or possibly may be delayed until next.

## IRISH REPORTS CONFICTING

Correspondent of London Times  
at Dublin Says Kidnapping  
Is Deplored.

LONDON, Feb. 11.—Conflicting reports are coming out of Ireland concerning the attitude of the southern provisional government toward the recent kidnapping of prominent Ulstermen. "The whole machinery of the provisional government is being employed to secure the release of the men," according to the correspondent of the Times of Dublin, who says the raids are deplored by every member of that government.

Against this is a report from another source, ostensibly friendly to the provisional government, implying the belief that the Collins administration had forehand knowledge of the raids and could immediately secure the release of the prisoners by giving a direct order.

## RAILWAY IS CLEAR AGAIN

Slide at Kwinitsa Opened at Mid-night Last Night—Engine Off Track Made Further Delay.

The snow slide on the Canadian National Railway at Kwinitsa was cleared out last night at 12 o'clock and the trains are all moving again. No. 3 westbound, due here on Thursday evening, is expected in between 3 and 3:30 this afternoon and No. 4, which was held up at the scene of the slide for two days, is again proceeding eastward. The train which was to have gone east this morning is posted to pull out at 9 o'clock tomorrow morning.

The clearing of the snowslide at Kwinitsa did not end the troubles of the railway, for the engine of the snowplow from Pacific went off the track between Salvus and Kwinitsa and occasioned an additional twelve hours blocking of the line. Following the righting of this the trains were enabled to move.

The fifty men from the city relief work and the equipment which was sent out to clear the Kwinitsa trouble returned here early this morning. Superintendent N. B. Walton, District Engineer Featherstonhaugh, Superintendent J. P. Kirkpatrick of Smithers and Roadmaster R. A. Harlowe were all at the scene of the tie-up and superintended operations. There was no damage to equipment and no one was hurt as a result of the blockade.

## CORKLE BOXES JOHN MORGAN

Six-round Go at Anyox Results  
in a Draw—It Was a  
Real Fight.

ANYOX, Feb. 11.—Anyox sports were treated to a feast of boxing on Friday night under the auspices of the Community League in Recreation Hall, with Floy Hatt as chairman. The main bout was between G. N. Corkle of Anyox mine, formerly of Prince Rupert, and John Morgan of Ladysmith. It was a real fight from the first sound of the gong in each round. The men mixed well and there were few clinches. The breaks were clean.

Corkle missed heavy rights to the jaw, landing body blows. Morgan led the left well, playing the jaw in each round.

The match was a humdinger, ending in a draw. At the close of the six rounds each of the boxers was as fresh as at the beginning. Ed Wall was referee.

## LONG CHASE HAS ENDING

After Ten Thousand Mile Pursuit  
Mounted Policeman Locates  
Fugitive in Mexico.

PRINCE RUPERT BELIEVED  
REFERRED TO IN MISTAKE

SAN FRANCISCO, Feb. 11.—Sergeant M. M. Stephens of the Royal Canadian Mounted Police arrived here yesterday with Chow Chimooske, who was taken in custody at Mexico City after a chase lasting five and one-half months and covering 10,000 miles. Chimooske is charged with a double murder at Prince Rupert, B. C. He was taken north today by another Canadian officer.

The fifty men from the city relief work and the equipment which was sent out to clear the Kwinitsa trouble returned here early this morning. Superintendent N. B. Walton, District Engineer Featherstonhaugh, Superintendent J. P. Kirkpatrick of Smithers and Roadmaster R. A. Harlowe were all at the scene of the tie-up and superintended operations. There was no damage to equipment and no one was hurt as a result of the blockade.

The chase for the fugitive led across Canada, through the Atlantic Coast states from Maine to Florida, and thence from New Orleans to Mexico. The old adage that the Royal Canadian Mounted Police always get their man appears to have been borne out in this case.

The above case seems more or less of a mystery to all the police here, Royal Canadian, provincial and city. None of them know of a crime as described having been committed here, nor do they know of Chow Chimooske. The Mounted Police have no record of the officer, Sergeant M. M. Stephens, nor have they a record of the crime. It is thought by Inspector Acland that Prince Albert may be the place referred to and that it was mistaken in the despatch for Prince Rupert.
