I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills — the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Out., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers of Edmaston, Bates & Co., Ltd., Toronto.

NORMA TALMADGE "THE PASSION FLOWER"

Famous Actress to Be Seen Here Tonight in Spanish Role.

Norma Talmadge, who has been called the best dressed actress on the screen, will be seen in some novel and charming Spanish costumes in her latest Associated First National starring vehicle, "The Passion Flower," which is at the Westholme Theatre tonight.

Miss Talmadge who for the past year has been the fashion editor of Photoplay Magazine, has just signed another year's contract to continue in that capacity. The Talmadge sisters have also signed a contract with Lucien Lelong, famous Paris couturiers, under which Lelong agrees to furnish them with twelve models a year. These gowns will be the last word in ultra chic advance styles, and will be introduced in America exclusively by the Talmadges.

"It makes me especially happy to have been able to secure "The Passion Flower," because I have always wanted to play a Spanish role, and this is the first opportunity," says Miss Talmadge.

"I have had to throw myself into the primitive emotions of the Latin race. In my entire picture career, I have never put myself so whole-heartedly into any part as I have into the mind and soul of "Acacia," and I do hope the public will like this story as much as I, myself, do. To some extent this will be a costume play, and I have been frequently told by exhibitors that the public does not want costume plays. However, I think the pedestal is swinging, and the public does want costume plays—that is one of the chief reasons for the success of "Passion." Anyway, I can't help feeling as Benavent does when he says, 'I do not make my plays for the public, I make the public for my plays.' That is the way I feel about "The Passion Flower." I made it because I loved it, and I feel there will be a public that will like the costume drama."

FINED FIFTY DOLLARS DRUNK AND DISORDERLY

CONFIDENCE IN PREMIER

Oliver Only Man to Lead the Liberal Party in Province Says Caucus Chairman.

FORGET PARTY POLITICS

Following the Liberal caucus at Victoria the chairman, Dr. K. C. McDonald, issued a statement to the press as follows:

"This conference has been of the greatest benefit to the Liberal party, and I think it will prove to mean a great deal to British Columbia as a whole," said Dr. McDonald, chairman of the caucus, in the statement he issued on the work of the caucus as it came to an end.

"The entire political situation has been discussed including, I think, everything of general importance to the Province.

"It has been decided to hold a general convention of the Liberal party within two or three months, at a place yet to be chosen. The date and place will be settled by the Provincial executive.

"The caucus has unreservedly reaffirmed its good opinion of Premier Oliver and feels that he is the one man to head the Liberal Government in British Columbia.

"There had been reports that an effort was being made by certain factions to oust the Premier from leadership, but there really has not been any such movement.

"We feel that the party will be stronger than ever as the result of this conference and the appointment of Hon. Dr. King to the Federal portfolio of Public Works.

"Surely this is a time when party politics might well be forgotten, if the best interests of British Columbia and Western Canada are to be served, with a friendly Government at Ottawa and a minister of Public Works who has made such a splendid reputation here and who may be expected to do his utmost for British Columbia, we should face much better times."

PROHIBITION IS SUCCESS

So Says United States Prohibition Commissioner Hayes After Two Years Dry.

WASHINGTON, Jan. 30.—Facts and figures, together with "an even dozen unquestionable points in proof that the eighteenth amendment is being enforced" were made public by Prohibition Commissioner Haynes in a statement on the second anniversary of the national prohibition act.

The 12 points cited as "so outstanding that no attempt can be made in denial," follow:

Twelve Points of Proof.

Disappearance of the open sale.

Abatement of the open drinking in public dining rooms.

Passing of the treating evil, which was recognized as the greatest contributing agency of the development of a liquor appetite.

Closing of whisky cure and similar institutions.

Increased savings accounts, Record-breaking Christmas business.

Decreased drunkenness.

Prohibitory prices of "banded" liquor for beverage use.

Dangerous character of illicit whisky.

Sureptitiousness of present day drinking.

Wail of howling minority who would go to the length of undermining the Constitution to nullify an amendment which their action demonstrates is in actual effect.

Changed attitudes of former hostile statesmen, political leaders and the press.

Predictions Lose Out.

Mr. Haynes declared that the prohibition amendment was being enforced to an even greater extent than had been anticipated and predictions of opponents had not been borne out by actualities.

"The chief cause of non-enforcement," he said, "was the appointment of wet officials and smuggling. This is being corrected by the appointment of officials who are in sympathy with the law and by serving notice on our neighboring coun-

tries that their flags are being used to protect smugglers."

He declared enforcement would henceforth be a much easier undertaking for various reasons, including the attitude of the public, curtailment of sources of supply, closer cooperation of all enforcement agencies and "the poisonous, death dealing character of virtually all illicit liquor now on the market."

"We feel that the party will be stronger than ever as the result of this conference and the appointment of Hon. Dr. King to the Federal portfolio of Public Works.

"Surely this is a time when party politics might well be forgotten, if the best interests of British Columbia and Western Canada are to be served, with a friendly Government at Ottawa and a minister of Public Works who has made such a splendid reputation here and who may be expected to do his utmost for British Columbia, we should face much better times."

Swear Off! Army Grows.

Mr. Haynes estimated that 17,500,000 drinkers have quit liquor.

"From various sources it is estimated," he said, "there were 20,000,000 drinkers in the United States before the country went dry. Of this number there are 1,500,000 who drink occasionally now, and another 1,000,000 of old drinkers who imbibe whenever they can get it. If there are 2,500,000 drinkers now—more doubtful—then 17,500,000 former drinkers have quit—wonderful record."

"Only 15 per cent of former drinkers are drinking now and these are of liquor formerly consumed, while the entire drink bill of the nation has decreased \$2,000,000,000 a year."

A POINTED QUESTION.

It was at a college dance. The young man had just been introduced to her, and after a brief and awkward silence he ventured: "You are from the West, I understand."

"Yes, from Indiana," she replied. "Hoosier girl."

He started and flushed deeply. "Why-or-really," he stammered. "I don't know—that is, haven't quite decided yet."
