

Sunlight Soap

Purity and quality is the keynote of Sunlight Soap. Unlike many bulky bars it has no useless fillers which are harmful to your clothes. So pure and sweet is the coconut oil used that it could be made into food. Coconut and palm oils—the two wonderful cleansers blended in Sunlight—make this great soap the most efficient and economical soap you ever used. It is all pure soap.

PALATIAL YACHT SPENT WEEK-END IN THIS PORT

Sueja, With Capt. Griffiths, of Seattle, Aboard on Way to Anyox

The Seattle gasoline yacht, Sueja, belonging to Captain Griffiths, head of the Coastwise Shipping Co., who is on board the vessel on his way to Anyox, spent the week-end in port on her way north. On Saturday afternoon, the craft took on oil at the Imperial Oil dock and yesterday spent the day at the Marine Depot, Digby Island, where Capt. Griffiths visited with Capt. E. T. Saunders, marine superintendent. Last night was spent at the G.T.P. ocean dock and the little ship resumed her voyage north today. The Sueja is one of the finest yachts that has ever been seen in this port.

The Coastwise Shipping Co. takes care of shipments to and from Seattle, Stewart and Anyox for the Premier Gold Mining Co. and the Granby Consolidated Mining & Power Co. Captain Griffiths is on a combined business and pleasure trip.

BIG LIGHTHOUSE TENDER ESTEVAN IS COMING NORTH

Newington, Also South Now, Will be Back in About a Fortnight — Birnie Being Repaired

The lighthouse tender Newington, Captain Bilton, which has been in the south for some time, is expected back to her headquarters at Digby Island in about a fortnight's time.

The Estevan, Captain Barnes, is also coming north and will be here in about a month to undertake some of the heavier lighthouse work in northern waters. The Birnie, Capt. Ormiston, is at present out of commission while repairs are being made.

JUNIOR BILLIARDS

St. Andrew's Winners Over Beavers by 869 to 827.

St. Andrew's were victors over the Beavers in the junior billiard tournament which was completed on Saturday night, by 12 points. The individual scores were as follows:

A. Arthur, 150; St. Andrew's, 128; T. Halverson, 150; W. Lambie, 141; P. McGowan, 150; W. Duncan, 150; E. Hudson, 109.

B. Jack, 150; T. Davidson, 149; W. Hamilton, 150; G. Hill, 134; W. Mitchell, 150; S. Hunter, 135.

W. Laing, of Victoria, is registered at the Prince Rupert Hotel. A. W. Carter, of Oceanic, is in the city on business.

FIGHTING BLINDNESS

Babies' Sore Eyes Cause is Lessening But Wood Alcohol Still Takes Toll.

NEW YORK, May 27.—The combined forces of medicine, legislation, the press, and other educational agencies are at last getting the upper hand in the age-long fight against the principal cause of blindness in childhood—babies' sore eyes according to the seventh annual report of the National Committee for the Prevention of Blindness, made public yesterday at the general office of the committee in the Russell Sage Foundation Building.

But this information is counteracted by the statement in the report that there is no abatement in the wave of blindness resulting from wood alcohol poisoning which started soon after the enactment of the Volstead law. The report says that new legislation for the prevention of blindness has been passed in seven states: Connecticut, Idaho, Iowa, New Mexico, Missouri, Oklahoma and Texas.

Babies' Sore Eyes. Discussing ophthalmia neonatorum, more commonly known as "babies' sore eyes" or "O.N.," among doctors, Edward M. Van Cleave, managing director of the National Committee for the Prevention of Blindness, said:

"When we turn to a study of the situation as respects this disease, which destroys at birth the vision of thousands of babies, we find new evidence of the effectiveness of a constant educational propaganda on the subject. For more than 15 years public attention has been drawn to this cause of needless blindness. Statistics gathered during the last year show a smaller percentage of these cases among newly admitted pupils in special schools for the blind throughout America than in any previous year."

Whereas two years ago 3.2 percent of new admissions to these special schools for the blind were cases of pupils blind from "O.N.," the 1922 report of the committee shows that in the last year this percentage dropped to 1.35 percent, a reduction of almost 50 percent.

Alcohol Poisoning. Under the head of "Methanol," the new technical name for wood alcohol, the report says: "Day by day the toll of wood alcohol poisoning is taken. The wave seems to recede, only to gain new impetus. Warnings sent broadcast over the United States have undoubtedly prevented many from experiencing the tragedy of blindness, but there are still those who succumb to the temptation either through ignorance or through wilfulness. The change of name to methanol has eradicated the suggestion of

Debt, grinding debt, whose iron face the widow and the orphan fear and hate; debt, which consumes so much time, which so cripples and disheartens, is a teacher whose lessons cannot be forgotten.

It is incumbent on all right-thinking people to do more than avoid debt. It is necessary to accumulate a competence for one's dependent years. If, with a definite earning power you find it hard to live within your income, how could your wife support the home in the event of your death deprived of your earning power? "Your salary stops with your pulse."

A Manufacturers Life policy provides for all these contingencies. Systematic saving will keep you out of debt, and build a competence for the sunset of life. Should you not live to old age, your life insurance will create an estate for your dependents.

Write, giving us your age at nearest birthday, and we will submit a proposition to you which will not place you under any obligation.

R. E. HARRAP,

Supervisor for Northern British Columbia, Prince Rupert.

EDUCATION IN RUSSIA

V. M. C. A. Man Back From Moscow Reports on Situation

LONDON, May 29.—The Soviet government is really trying to further education in Russia, because of the lack of supplies and above all the lack of food, "the brains of Russia are dying at present," says E. T. Colton, of Montreal, N.J., who has just returned from Moscow, where he was the Young Men's Christian Association representative on the staff of the American Relief Administration. Mr. Colton's work was confined to investigating conditions among professors and students with a view to affording them A.R.A. relief. This was subsequently given.

"There are more bona fide students in Russia now than there were before the war," Mr. Colton said. "There are many more women students than men even in the mining schools. They are short of all supplies from textbooks to laboratory instruments. Moreover the professors, most of whom were on the verge of starvation, had no energy left to do research or creative work. Consequently Russian education is not what it was."

Feeding Program

It was Mr. Colton who drew up the feeding program for from 7,500 to 10,000 Russian students which the A. R. A. initiated in Moscow, Petrograd and Kazan. It is confined to the two higher classes of university students, a great number of whom are married men and women, because they abandoned their studies in 1914 to go into war or war work in some form.

"We chose these," Mr. Colton explained, "because they will get most into the productive life of Russia. We couldn't possibly feed all, with our resources."

One curious thing about the Russian universities is that most of their now function at night, for a great percentage of the students work during the day in order to earn some money.

Famine Deaths

"There have been many famine deaths among professors and students," Mr. Colton declared. "There will probably be many more, because there can be no question but that as a class they are suffering greatly. For the professors to do creative work under present conditions is out of the question. The miracle is that they can work at all, and unless help comes to them quickly, the best brains of Russia will die for lack of food."

C. H. Orme and E. C. Gibbons returned to the city last night after spending a few days at Lakelse.

IMPROVEMENT PAPER TRADE

Noted Both in United States and Canada by Wall Street Journal

NEW YORK, May 29.—(By Canadian Press)—Improvement in the paper trade appears more advanced than in many other lines of industry, declares the Wall Street Journal. Mills both in Canada and the United States are now operating at better than 80 per cent, the paper reports as a result of a survey of the industry. Newsprint mills particularly are running at high percentage. Canadian newsprint mills are estimated to be running at 90 per cent of normal.

"If the present consumption of newsprint continues it is expected that within a few months the mills may again be operating at capacity," the Wall Street Journal says. "United States consumption is now running about 7 per cent in excess of 1920, the heaviest year on record. Several Canadian mills, notably Laurentide, Waynamack, Spanish River Pulp and Abitibi are said to be at capacity. International Paper Company, the largest United States producer, is operating slightly less than 70 per cent but is rapidly increasing output."

The general opinion in the paper trade circle is that the threatened strike of paper makers will not materialize, says the paper, which adds that a strike should benefit the International Paper Co. and Great Northern Paper Company, the two largest United States concerns, with a combined capacity tonnage of 500,000 tons of print paper. The former operates on a non-union basis, the latter has already come to an agreement with employees.

Ten Years Ago in Prince Rupert

May 29, 1912.

Mr. and Mrs. Martin O'Reilly returned this morning on the Prince George from the south.

In the K. of P. Hall last night the Odd Fellows elected senior officers as follows: A. H. Allison, N. G.; Neil McNeil, V.G.; W. G. Barrie, recording secretary; A. R. Phillips, financial secretary; and C. G. Thorne, treasurer. W. G. Barrie was appointed delegate for the district to attend the Grand Lodge Convention at Victoria on June 12.

Chief W. H. Vickers returned today from the south.

Mrs. P. I. Palmer will leave on Monday with her family for her summer home, near Vancouver.

A Complete Banking Service

Small traders and great industrial corporations—workmen with modest savings accounts and farmers with their banking business—find in the Bank of Montreal the banking service they require extended to them with courteous attention.

The facilities of this Bank are equally at the service of every class in the community.

BANK OF MONTREAL

ESTABLISHED MORE THAN 100 YEARS

H. ST. G. LEE, Manager, - Prince Rupert Branch.

TWO SPANIARDS LEFT CITY LAST NIGHT ON WAY SOUTH AMERICA

Miguel Lopez and Lucas Lopez, two Spaniards, who have been employed by the Canadian Fish and Cold Storage Company for some time, left on the Prince Rupert last night en route to Buenos Aires, Argentina where they will engage in the cattle business.

Arriving in San Francisco on June they will leave for Valparaiso on the Pacific Steamship Co.'s mail packet boat the "St. Ana. From Valparaiso they will take the train via the Trans-Andes railroad to Buenos Aires and will arrive at their destination about the end of July. They may also visit in Spain, sailing from the Argentine port.
