

MAGIC BAKING POWDER

THE WHITEST, LIGHTEST

CANADA'S PERFECT BAKING POWDER

CANADIAN MADE

CONTAINS NO ALUM

We recommend the use of Magic Baking Powder because we know that its ingredients are of the highest quality. It is guaranteed to be the best and purest baking powder possible to produce.

DAIRY MATTERS WERE DISCUSSED

Health Committee's Recommendations Are Referred to the Provincial Government.

COUNCIL CONFERS WITH DAIRYMEN

The city council last night conferred with H. McKay and H. Hibbard, dairymen, and Dr. J. P. Cade, medical health inspector, in regard to the amendment to milk and dairy requirements recently brought forward by the Health Committee. The proposals of the committee were that the percentage of butter fat required be raised from 3 to 3.2; that the dairy stable on Eleventh Street be condemned; and that the advice of Dr. Sparrow, provincial government veterinarian be secured in regard to the proposal to disallow the keeping of dairy cattle within the city limits. The result of the deliberations was the unanimous passing of a resolution referring the whole matter to the provincial government department of health. The proposals had all emanated from informal reports made by Dr. Sparrow, on his recent visit here, which the city council felt should have the official endorsement of the department of health before department action was taken.

A letter signed by Dr. Sparrow and delivered to H. Hibbard was submitted at the conference in which the former authorized the continued use of the Eleventh Street dairy providing the floor was replaced and the walls whitewashed. In speaking on this subject, Dr. Cade stated his opinion that no alterations could be made to this building which would bring it up to date. He was of the opinion that a building with wooden floors and walls, once it had had tuberculosis in it, would continue to harbor the germs. To make the building in question suitable it would have to be entirely rebuilt. In matters of this kind they should start at the source instead of trying to cure existing defects.

Entitled to Good Milk. Regarding the percentage of butter fat, Dr. Cade said that the standard here was about the lowest in the province. The people here were entitled to just as good milk as anywhere else.

As far as the keeping of dairy cattle within the city limits was concerned, the doctor said that dairy cattle might be successfully kept within the city limits. However, something should be done here. It was serious when 26 out of 166 head of cattle in the city had been condemned.

In answer to a question by Ald. Kelly, Dr. Cade said that tuberculosis tests of milk could not be properly carried out here because there were not the instruments. Inspection of the cattle was the work of a veterinary inspector and not of a physician. Answering a question by City Solicitor Hooper, Dr. Cade expressed the opinion that tuberculosis was undoubtedly conveyed from milk to humans.

Dairymen Speak. Mr. Hibbard of the Standard Dairy replying to Ald. Montgomery's question, said he was prepared to have standard premises

National Land Settlement Plan

THE Western Canada Colonization Association, in close co-operation with the Federal and Imperial Governments and the Canadian railways, has worked out a well-matured land settlement policy, which is to be put into effect forthwith—a policy which carries the backing and co-ordinates the colonization activities of these Governments and railways, and of other immigration agencies.

The plan is the joint product of the best available sources of information on the subject. It represents more than a year of continuous investigation, to which the foremost colonization experts of Canada, Great Britain, and the United States have contributed the knowledge born of experience.

In successive conferences at Ottawa, leading up to the present announcement, the Prime Minister, Honorable W. L. Mackenzie King, the Minister of Immigration, Honorable Charles Stewart, and the Immigration Committee of the Cabinet, including Senator Dandurand, Senator Bustock and Honorable T. A. Low, have all participated. As Minister of the Interior and of Immigration, Mr. Stewart has, of course, taken a leading part in the laying down of the principles underlying the colonization policy, now given to the public.

The negotiations with the Imperial Government, the Dominion Government, the Canadian Railways, and other organizations, have been carried to success under the leadership of Mr. M. A. Brown, Vice President, and Mr. F. D. L. Smith, Director and Secretary-Treasurer of the Western Canada Colonization Association.

The full amount of working capital originally contemplated by the Colonization Association, viz., \$1,500,000, has been over-subscribed.

It is estimated that the working out of the plan will involve the expenditure by the Canada Colonization Association alone of \$30,000,000 to \$40,000,000, within the next five or ten years. The major portion of this fund will be available from commissions earned on the sale of privately-owned lands.

It is calculated that a minimum of ten million acres of vacant land will be settled within the next five to ten years.

The activities of the Colonization Association are to extend beyond the three prairie provinces originally included, so as to embrace every province of the Dominion.

The organization will function under a Board of Directors thoroughly national in character.

Land in the Western Provinces is to be sold on a 32-year payment basis, and in the Eastern Provinces on terms which will be governed by local conditions and other considerations.

Canadian land agents, all over the country, will be employed in showing lands to prospective settlers and in closing or assisting to close sales.

By the time the snow flies several hundred American land agents will be engaged in drumming up settlers for the Western Provinces.

The Canadian immigration machinery in the British Isles, and other European countries, will be greatly expanded and gingered up, so as to obtain a largely-increased share of British and other European agriculturists suitable for settlement in this country.

The Canada Colonization Association, the Canadian Government, and the British Government will jointly finance a national welfare organization, embracing local community clubs, to care for incoming settlers.

Sir John Willison has been appointed President of the Association.

Mr. Howard Everett, for many years President of the Luse Land and Development Company, which has colonized over a million acres in Western Canada, is to be the Western General Manager.

Dr. George C. Creelman, for seventeen years President of the Ontario Agricultural College at Guelph, and later Agent General for Ontario in London, is to have supervision over all operations in the Eastern Provinces.

PLAN OF CO-ORDINATION

Canada Colonization Association	Imperial Government	Dominion Government	Provincial Governments	Canadian Railways
Subscribers Directors Officers	Overseas Settlement Board	Minister and Department of Immigration	Minister and Department of Agriculture	Presidents and Departments of Colonization
List and inspect land in approved districts. Sell land on 32-year payment plan. Assist Government in organizing and settling settlers. Care for settlers on route. Direct settlers in the purchase of land. Establish community welfare clubs to help settlers from outset. Direct movement of farm laborers to Canada where they can become prosperous farmers. Promote extensive movement of British boys to Canadian farms. Encourage the migration of British women to Canada for employment on farms and in domestic service.	Financially assist the Canada Colonization Association. (a) In caring for British settlers on route to Canada. (b) In guiding and directing them in the purchase of fertile, well-situated land. (c) In befriending them through local community clubs until they become firmly established. (d) In such other ways as may be agreed upon between the Overseas Settlement Board and the Canada Colonization Association. (e) In preserving the manpower of the Empire for the Empire, and thus increasing the trade and prestige of the British Commonwealth.	Maintain and extend its agencies in Great Britain, the United States, and other countries, to promote an increasing flow of selected settlers to Canadian farms. Carry on an effective advertising campaign for agricultural settlers in Great Britain, the United States and approved countries. Utilize its agencies to post prospective settlers to 32-year purchase plan and welfare work of the Canada Colonization Association. Use the British and foreign press and governmental literature in giving wide-spread publicity to the Canada Colonization Association and its benevolent activities. Financially assist the Canada Colonization Association to carry on its welfare work throughout the Dominion.	Assist in selecting districts for settlement. Extend expert agricultural advice to settlers, especially during the initial period of their tenure. Aid settlers by scientific soil surveys, thus determining adaptability of particular lands to various crops. Utilize their Agents-General in Great Britain in helping to select the right kind of settlers for the various provinces. Furnish the Canada Colonization Association with literature describing the agricultural attractions of respective provinces.	Co-ordinate their immigration activities with those of the Canada Colonization Association. Provide special transportation rates for settlers. Reduce freight charges on settlers' effects. Establish special rates for colonization agents. Participate in the management of the Canada Colonization Association by appointing representatives to the Board of Directors.

Owners of unoccupied land in the Western Provinces are requested to communicate immediately with the Association at the Bank of Hamilton Building, Winnipeg

THE CANADA COLONIZATION ASSOCIATION

SHADY BUSINESS BY CITY COUNCIL

Process of Civic Statelessness Was Not Deterred by Pail of Darkness

The civic ship of state, with Acting Mayor Kerr at the helm, was piloted through the darkness occasioned by the breaking down of the municipal light system last night by means of one dirty old lantern discovered somewhere in the depths of the City Hall by the city solicitor and the brilliant rays of moonlight which came shining through the southeast windows. In this manner was the bulk of the business transacted at last night's council meeting. The lantern was placed beside City Clerk Woods who, recorded the council and read communications and reports, the Acting Mayor and aldermen sat in the semi-darkness which did not seem to dampen their loquacious habits while press men sought points of vantage in the council chamber to scribble down their notes by flashlight.

The lights failed just as the council commenced to deal with the Health Committee's reports in regard to dairy matters in the city. Several matters following such as the fire chief's reports for July and August, report of the building commission regarding fire limits and amendments to the building bylaw and further consideration in committee of the whole of the bylaw to amend the building bylaw, were deferred for a week when there would be more light on the subject but business requiring immediate attention was given.

The council adjourned at 10:15 after having sat in the darkness in solemn session for about one hour and a half.

Prosperous advertising means render continuous advertising.

BOARD OF TRADE REPORT TO CITY

Publicity So Far This Year Has Cost \$756; Estimate For Balance of Year, \$300

A report from the secretary of the board of trade regarding publicity expenses and general financial matters affecting the board was received by the city council last night and laid on the table for a week, copies of the report in the meantime to be perused by the aldermen.

The report made shows that so far this year the sum of \$756 had been expended by the board for publicity purposes and it was estimated that \$300 further would be used before the end of the year for the same purpose.

The annual report for the year 1931 also submitted showed that the total disbursements of the board had been \$2,173.35 including a surplus of \$370.11.

The report was called for by the city some weeks ago following the request of the board for a grant.

TERRACE WEATHER

Indian Summer For Two Weeks During September; No Bad Winds in Month

TERRACE, B.C., Oct. 3.—Fine "Indian" summer weather prevailed from the 8th until the 21st, the rest of the month being cool and cloudy with frequent showers; heavy downpours on the 23rd and 28th.

Maximum temperatures ranged between 74 and 85. Minimum temperatures between 56 and 64.

There were no violent winds, neither any wind from a northerly point; what breezes came were limited to points between S.E. and S.W.

ACCIDENT ON THE C.P.R.

THE WORLD'S GREAT HERBAL REMEDY!

Zam-Buk, the greatest antiseptic healer known to science, has distinct and positive advantages over all old-style ointments. Zam-Buk is a compact and highly refined balm composed exclusively of vegetable oils and herbarial extracts of unique medicinal power. It kills and excludes poisonous germs, whether in the outer or inner tissues. It alleviates smarting pain and fiery irritation almost instantly. It always ensures swift, clean healing with new healthy skin. As a first-aid for cuts, burns, scalds, etc., and for soothing-out painful diseases like eczema, salt rheum, ulcers, ringworm, abscesses, poisoned wounds and piles, Zam-Buk is used daily in millions of homes. 50¢ box, all drugists and dealers.

Loco-Fireman's Dreadful SCALDS

ROBERTSON ST., FORT WILLIAM.

"WHEN the water gauge of my locomotive burst, the left of my face was scalded terribly. Fortunately I make a practice of always carrying a box of Zam-Buk in my pocket, and when I had got over the first shock of the accident I had the balm freely applied to the injuries.

"Though I was suffering fearful agony at the time, Zam-Buk soon eased the pain and took out all fire and smarting, and enabled me to complete my journey.

"Upon reaching home I obtained another box of Zam-Buk and continued the treatment. In a few days all the new skin was growing in a wonderful way. I don't know anything else to touch Zam-Buk for dealing with cuts, burns, scalds and other small injuries."

(Signed) GEO. H. DUFFUS, (Fireman C.P.R.).

THE LAST WORD IN HEALING

WAR VETERANS ASK REFUND OF MONEYS PAID FOR RELIEF

A letter from the Great War Veterans' Association asking the endorsement of the city of relief disbursements made last winter amounting to \$118.15 was received by the council last night and laid over for a week for investigation. It was accompanied by a letter from Attorney General Manson to Capt. Ian MacKenzie stating the willingness of the provincial government to bear its share of a refund to the association providing the account was accepted by the municipality.

Members of the council expressed their willingness to co-operate with the association in obtaining the refund but wished to investigate the account first as, in accepting it, the city would probably be called upon to bear its share of the refund.

The Man in the Moon SAYS:

It is to be hoped the weather man will continue in a good humor for some time to come.

WAY down in the U. S. they had a "swap social" where those who attended brought something they didn't want. Several of the older females took their husbands.

TO a chauffeur, life is just one bumpy road after another.

THAT Doug, who made a scene in the Victoria church on Sunday seems to have got himself talked about.

THERE was much holding of hands when the lights went out last night.

CONFLICTING emotions resulted from the sudden and continued darkness last evening. Those who had work to do who were in the midst of recreations that were adversely affected cursed the utilities department, but those who found in it the opportunity to a closer association, showered blessings on the head of the light dimmer.

"WHERE were you when the light went out last night. 'In heaven,' was the reply.

Persistent advertising is absolutely necessary to success.
