## DAILY EDITION

Saturday, May 6, 1922.

## European Commercial Situation Improved.

Trade and industrial conditions in several European countries, particularly Great Britain, are, in the opinion of experts, steadily improving, though somewhat slowly. No big revival has materialized, but there has been a continuous betterment of conditions, a seemingly healthy growth, that has satisfied traders more than any sudden "revival" which might have been built on shifting sands and would have collapsed leaving matters worse than before. One outstanding indication of affairs is that money is easier and more is being loaned indicating confidence in the trade situation generally.

While the governments of Europe undoubtedly continue to have their very serious difficulties of a political nature, there are signs of improvement in business which is much less dependent upon the activities of governments than might appear to be the case. The recovery of trade is taking place very slowly and unevenly, but to realize that it is recovering it is only necessary to recall conditions of one year ago.

## Countries Becoming More Productive.

A year ago there was much political and industrial unrest, troops in large numbers were on active service, the coal industry had closed down and dependent lines were necessarily affected. Prices were high, unemployment was much greater than at present and the psychological factors disturbed.

It seemed then as though Great Britain had lost her foreign coal market, but today it is obvious that this has been recovered to a great extent.

The Manchester Chamber of Commerce says that hopes of a moderate revival of trade with India have been realized and that inquiries from India and China have been numerous. Egypt also has placed a fair number of orders. South America continues quiet.

India, for many years the great market for British cotton goods, has become herself a manufacturer of such goods.

China has become more or less a manufacturing country absorbing, say, 100,000 bales of American cotton last year. South America, notably Argentina and Brazil, have begun to manufacture textiles and generally all countries give signs of interest in domestic manufacture. While this shifting of production from one place to another creates certain difficulties, on the other hand, far from indicating depression it suggests the reverse condition.

## General Indications Most Encouraging.

As for trade between Great Britain and the United States exports from the city of London are suggestive. For the three months ended March 31, 1922, declared exports from London to the United States aggregated £7,870,399 plus merchandise valued at \$1,272,589 which was invoiced in American currency only, as against exports for the same period in 1921 amounting to £2,011,675.

If we remember how prices have dropped since a year ago we shall at once see that not only has there been an increase in values but a still greater increase in quantities. The large single items of these exports which show increase are: Leather, precious metals, gums, linens, scrap metal, aluminium, linseed oil, and copper concentrate.

One hesitates to pick out these cheerful symptoms for purposes of optimistic discussion because it is always very dangerous to prophesy and yet he would have to be a very pessimistic individual indeed who would fail to recognize the prevailing indications as most encouraging.

## WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—thenervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this?

As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

## HARRY SCOVIL OF STEWART MARRIED

Miss Evelyn Swan, of Oak Bay, Victoria, is Bride—Will Live in Stewart

Harry Scovil, of Stewart, was married in Victoria last Saturday to Miss Daisy Evelyn Swan, of Oak Bay. The ceremony took place in St. Mary's Church, Oak Bay, Rev. T. H. Andrews officiating. Mr. Scovil is road foreman for the provincial government at Stewart and is generally well known in the north. He and his bride will be coming north soon to take up their residence in the Portland Canal town.

At the Board of Trade meeting last night a letter was read from the Adjutant of the Scots Guards Band, which is to tour Canada this spring, to the effect that the band would be unable to visit Prince Rupert during its visit to this coast.

## FIRST SAWMILL IN FAR NORTH

Is Being Shipped From Edmonton To Herschel Island

EDMONTON, May 6.—The first sawmill for the Arctic coast reached Edmonton this week from the east, being consigned to the Royal Canadian Mounted Police, and purchased from the Empire Engineering company here. It will be sent to its destination at Herschel Island at the mouth of the Mackenzie by steamer from Waterways and will be used by the guardians of the north for manufacturing lumber for the various post buildings of the Mounted Police along the Arctic coast.

The equipment which consists of a heavy portable sawmill and an 18 horse-power Brantford engine, is erected in such a manner that no doubt exists but that it will reach its destination without mishap, and doubtless this fall the Eskimos will hear the scream of a circular saw for the first time in their lives.

The engine which accompanies the mill is of the two-cycle variety, is minus carburetor or ignition, and can be run either on fish oil or on the crude oil from the Fort Norman wells.

## TALE OF CANADIAN BACKWOODS FEATURE WESTHOLME THEATRE

Miss Anita Stewart Appears in Her Strongest Dramatic Role Yet

"Playthings of Destiny," the first national attraction which headed the bill at the Westholme theatre last night and will be repeated tonight, has been hailed by critics as being the strongest dramatic production in which Miss Anita Stewart has ever appeared. It was adopted from the novel, "The Tornado," by Anthony Paul Kelly.

The story is of Julie Laneau, a Canadian backwoods school teacher, who is led to believe that Geoffrey Arnold, with whom she is intensely in love, had a wife living at the time he married her. She flees from his cabin in the midst of a blizzard, and nearly freezes to death before she is found by Herbert Randolph. They are snowbound in his cabin for six weeks, during which time Randolph learns to love her and proposes marriage.

Julia is aware that in the near future she is to have another life to care for, and, after frankly telling Herbert she does not love him, accepts his offer of marriage. Herbert rises rapidly in the world and is in line for appointment as Governor General of Jamaica, when the Earl of Stanhope arrives on the island to select the man for the post.

The Earl is Geoffrey, who has come into the title through the death of a relative. Julie discovers that she still loves Geoffrey, but, beyond betraying the fact that she knows him, keeps the secret of her love until Geoffrey and she are facing death together. Then comes the clearing away of the misunderstandings and the climax which is as strong in emotional dramatics as any scene yet placed on the screen.

## VISCOUNTESS RHONDDA STARTS DIVORCE SUIT

LONDON, May 6.—Viscountess Rhondda's undefended petition for the restoration of conjugal rights against her husband Sir Humphrey Mackworth, was granted yesterday. Such a petition is a usual preliminary to divorce action.

Viscountess Rhondda, daughter of the late Viscount Rhondda, is one of England's most noted business women and since her father's death she has sometimes been referred to as "the coal queen of Great Britain." Early in March she was granted a petition to sit in the House of Lords, being the first woman to achieve this distinction.

Hon. Dr. J. H. King, federal minister of public works, entertained at a delightful dinner in the Parliamentary Restaurant at Ottawa last week. The guests were British Columbia parliamentarians and visitors, among them being Hon. T. D. Pattullo, B. C. minister of lands, and Fred Stork, M.P. for Skeena.

## MACDONALD'S BRIER

The Tobacco with a heart

PACKAGES 15¢

1/2 lb. TIN 85¢

## The Man in the Moon SAYS:-

A COLD in the hand is worth two in the head.

TO make a pound of butter go a long way—put it on the floor and slide on it.

EL ROPO is the suggested name for a new brand of cigars. Probably named correctly at that.

SHAKESPEARE up to date. There is a tide in the affairs of man, which at the flood leads on to bankruptcy.

HE who laughs loudest doesn't always get the point of the joke.

WE doubt whether a radio-phonograph will ever be as interesting as a party line.

ON May First, in days gone by, We danced around a pole, But now we grab the telephone, And yell "Send up more coal."

## Ten Years Ago in Prince Rupert

May 6, 1912.

Mr. and Mrs. James McKay came down from Hazelton yesterday. They were formerly residents of Prince Rupert. Mr. McKay was connected with Foley, Welch & Stewart here.

D. A. Rankin, contractor, was among the arrivals by train yesterday. Mr. Rankin is enroute to his work at the other end of G. T. P. construction near Fort George.

On Saturday Miss L. Hoyt became the bride of Mr. Austin M. Brown. Rev. Father Bugez performed the ceremony in the presence of only a few intimate friends. Geo. D. Tite was best man and Mrs. Mullen, bridesmaid. Mr. Brown is a pioneer in Prince Rupert and conducts a harness and saddlery business on Third Avenue. Mrs. Brown is a sister of Miss Edith Hoyt, formerly on the staff of the Daily News.

Mayor J. H. Johnson, of Prince George, has invited the Vancouver Board of Trade to visit the Upped Fraser town this summer.

NEW ENGLAND FISH Company

Ketchikan, Alaska Branch

## FIRE OR THIEVES

May rob you of your valuables if kept at home.

A SAFETY DEPOSIT BOX will give you every protection. Annual rental \$5 and upwards.

THE ROYAL BANK OF CANADA

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—tire quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like DUNLOP, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."
