MANITOBA TELEPHONE SHOWS GOOD SURPLUS

Adverse Balance of Last Year is Being Wiped Out. WINNIPEG, July 5.—After taking care of all expenses, the Manitoba government telephone system shows the largest monthly surplus balance in its history. Commissioner John E. Lowry submitted to Hon. Robert Jacob, minister of telephones, his report for May, showing a surplus, after deducting all operating expenses of \$5,508.72 for the month. The figures for the corresponding month last year represented a deficit of \$71,205.49. For the six months, ending May 31, 1922, the deficit of the system was approximately \$14,000, compared with the adverse balance of \$369,117.92 of a year ago. In addition to this an increase in the number of rural stations is shown for the first time in many months while toll revenue also increased by approximately \$3,000. Discussing the report, which he regards as much more favorable than was considered possible a year ago, Mr. Lowry said he was confident, despite the heavy loss suffered by the system in the recent storm, that the deficit would be wiped out this year.

POLITICIANS BUSY AT BOTH COAST CITIES

Competition Over Leadership in Order to Create Dominion Vacancy. VICTORIA, July 5.—While politicians wrangle and jangle and haggle over trivialities, the businessmen of Victoria and Vancouver are in sharp rivalry over the possibility of getting a Government supporter representing them at Ottawa. At present Hon. S. F. Tolmie is the member for Victoria and three Conservatives represent the Vancouver districts, one of whom is H. H. Stevens. Both of these men were ministers in the late defunct Ottawa Government. Both are looked upon as capable men worthy of being chosen leaders. The rebellion against the Bower leadership is accentuated by the desire to bring about the transfer of both Stevens and Tolmie to the provincial arena so that a successor may be chosen of an different shade of politics, one who would be in closer touch with the powers at Ottawa. Failed to Impress. Both Stevens and Tolmie have failed to impress the Ottawa Government while in the north. Stark has been having it all his own way and McBride of Cariboo has also swung in with the Liberals. Vancouver will make an effort to hoist Stevens into the provincial leadership knowing that a Conservative successor cannot now be elected and that in his place will be chosen a man or woman, possibly Mary Ellen Smith, who will have some influence with Mackenzie King. Similarly the businessmen of Victoria admire Dr. Tolmie but they would much prefer a representative who would be in closer touch with the administration and who might help in getting the local unused ocean docks busy. Not a Plum. The provincial leadership is not looked on as a plum but it might prove a Godsend as a place to which to remove an unwanted politician.

Six million Soviet rubles are calculated to be worth one pound, or 36 pounds of rye, in receiving the subscriptions and the loan is put out at 95 repayable at par in December and January next. The loan was authorized by the All Russian Central Executive committee as the first of its measures, after the close of the Genoa conference, to relieve the financial situation. The Canadian National steamer Prince John, Captain Neddin, which is to make a special trip to Vancouver this week to take the overflow of passengers from the Prince George tomorrow night, has been delayed by fog on her trip north and will not arrive in port until 5 o'clock (Standard Time) Friday morning, sailing south at 8 a.m. (Standard) for Vancouver via Ocean Falls instead of midnight tomorrow evening as originally scheduled.

TORONTO, July 5.—Poolrooms in Canada are the greatest schools for young criminals in existence. Chief of Police Dickson of the San Francisco police department told the international convention of chiefs of police in session here, in discussing the crime evil and its cure. Neglect by parents, laziness and idleness combined with an uncontrollable desire for pleasure and luxury is another factor in creating criminals, Chief Dickson stated. Special recommendations for action by the association as urged by Chief Dickson were: An international or universal law prohibiting the purchasing or possessing or carrying of weapons without a permit from the chief of police, record-keeping by dealers of all firearms sold and control over the importation of all firearms. Some means of counter-acting the use of automobiles by criminals in the pursuit of crime. Legislation regulating poolrooms and dance halls. Substantial fine combined with long term of imprisonment for the drug peddler. For the drug addict, confinement long enough to effect a cure.
