Smart Action
Of School Board.

The School Board is to be congratulated on its prompt action in dealing with the reports of the experts in regard to the Booth School. There was only one thing to do and that was to have the building put in first class shape immediately. The School Board was ably backed by the City Council which also realizes its responsibilities in this regard. The only thing to do is to make the best of the situation and so far as possible redeem the past. The children of the city have already suffered sufficiently in an educational way without interfering with the work of next term. Under the present proposal the building should be ready for occupation by the time the fall term opens.

Manitoba Election
Campaign Under Way.

The election campaign in Manitoba is now well under way. The Legislature has been dissolved and the new members will be elected on July 18. Apparently Premier Norris is still at the head of the government and will remain there until the people have decided if he is to be given a majority of supporters or if the United Farmers are to take control of affairs.

Premier Norris came into power under unusual circumstances. It was in 1915 that the administration of Sir Rodmond Roblin, Conservative, fell, largely as a result of frauds in connection with the erection of an eight million dollar parliament buildings. Members of the retiring government were prosecuted for their share in the scandal and after many years the government secured judgment against the contractors for two million dollars, a sum which they are now trying to collect.

The Liberal government during its term of office was responsible for the passing of measures providing loans for farmers, pensions for mothers, and the establishment of provincial savings banks. Some of the legislation is experimental, but it is claimed by supporters of the government that it is working well.

The farmers of the province have been organizing and farmer candidates are being put in the field in almost every rural constituency. Three-cornered contests will be common and in some of the cities where labor is asserting itself there may be four candidates. Owing to the newness of the farmer party, there is no recognized farmer leader at the present time. If the farmers are returned with a majority of members in the Legislature, it will be their duty to choose a leader who will be premier of the province.

Premier Norris was a Unionist during the war period, but all bitterness caused by the split at that time seems to have passed away and the party is united again. The Conservatives are not expected to make much of a showing but their leader, Major F. G. Taylor of Portage la Prairie, is putting on a bold front and is still to be reckoned with. F. J. Dixon leads the laborites from the capital city.

Ordinarily a provincial election has not much interest outside its own particular province but the tendency toward group government on the prairies and the entry of the farmers under their own organization as a political entity makes this election of interest to the whole country.

Polytechnic Scheme
Worthy Of Study.

At last night's council meeting a report was received from John Pinder Moss, who organized the Anyox polytechnic institute, in which he places before them an elaborate scheme for the organization of a similar institute for the whole of the Prince Rupert district as far east as Burns Lake and taking in all the important points. The scheme is worthy of careful study as one of the needs of this place is a technical night school.

"FRUIT-A-TIVES"
SAVED HER LIFEThis Fruit Medicine Always
Gives Relief

917 Doros St., MONTREAL

I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good. I read something about "Fruit-a-tives" being good for all Stomach Troubles and Disorders of Digestion, so I tried them.

After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives".

Next the Prince Rupert HotelTen Years Ago
in Prince Rupert

June 27, 1912.

Miss Olive Frost, of Malden, Essex, England, became the bride of Charles Vernon Evertt, one of Prince Rupert's best known and most popular young "old timers" at a pretty wedding solemnized yesterday afternoon in St. Andrew's Church by Rt. Rev. F. H. Du Vernet, Bishop of Caledonia. Miss Violet Mortimer was a charming little bridesmaid. G. S. Fitzmaurice was groomsman and E. H. Mortimer gave the bride away.

The Harrison liner Director arrived here yesterday afternoon from England with 1,000 tons of pipe for the city. She was piloted in from Dixon's Entrance by Captain E. McGoskie.

The local Tyee Masonic Lodge, which has been operating under a dispensation, has been granted its charter. D. H. Morrison is in Vancouver representing this city at a lodge meeting where an effort is being made to form a provincial grand chapter.

RUDE INTERRUPTION
TO BOSTON WEDDINGPolicemen Burst in on Party
With News Groom Already
Married

OTTAWA, June 27.—Word has just been received in Ottawa of the rude interruption of a wedding ceremony in Boston, Mass., in which one of the chief participants was to have been Lieut. Leonard J. Rowland, and the other a society girl whom he had courted for five years despite the fact that he was already a married man.

His wife lives in Renfrew and last week end reported to the Ottawa police that she had received a letter from a friend in Manchester, Conn., that her husband was contemplating marriage with another woman in the States. Mrs. Rowland said she and her husband had been separated for two years. They were married in Ottawa in September, 1915.

The Boston despatch states that the chief of police rushed through the crowded guests and intruded on the bridal march by waving a letter from the Ottawa wife of the bridegroom. The wedding was stopped.

The address of Lieut. Rowland was given as Montreal. He is said to be an ex-service man and the girl is described as the belle of the town.

Rowland is well known in Ottawa as he was for six years in the employ of the Dunlop Tire and Rubber Goods Co., which firm he left about 18 months ago to go back to Boston. He was American born and it is stated the separation from his wife was on account of differences in religion.

The newspaper with the circulation is the real advertising medium.

REPAIRING OF
BOOTH SCHOOLRecommendations of Architects
Which Have Been Endorsed.

The following is the list of suggestions set forward and signed by Architects Whittaker and Jeffers for the remedying of the structural defects in the Booth Memorial School which were adopted by the School Board last night and for which the city council has undertaken to provide the money for their early execution:

1—Brickwork to be taken down from top of fire walls to underside of Architrave at least and rebuilt in cement mortar.

2—Brickwork around Auditorium walls above roof to be similarly pulled down and rebuilt.

3—Auditorium walls to corridors to be strengthened by addition of piers to its full height.

4—Take down shafting and supports from Manual Training Room walls and fix in another position on suitable supports.

5—Steel windows and glazing to be made watertight.

6—Fire escapes to be erected independent of walls.

7—Cornices to be altered so that they can be properly flashed and counterflashed and nailin suitably capped and left watertight.

8—Architrave to be treated in a similar manner.

9—Properly flashed under hell east course to asphalt slate shingles.

10—Ceiling joists and rafters to be suitably braced.

11—Slab over coal chute and corridors to be properly strengthened.

12—Auditorium and class room and Manual Training Room floors to be properly strengthened.

13—Floors and bases to cloak rooms to be taken up and replaced with wood.

14—Repair plaster where necessary.

15—Protect end of joists, rafters, etc., where exposed during alterations.

16—Clean out sub-basement and provide for draining same and including areas around building.

17—Doors and frames from class rooms to corridors to be altered.

Waterproofing

1—Rake out all joints well, point with cement mortar and waterproof with colorless waterproofing compound including cast stone ornament, or

2—Rake out all joints well, apply waterproof pebble dash stucco with cement gun to brick-work exclusive of quoins columns, pilasters and new brick-work above Architrave.

Heating and Ventilation.

1—Twin up boilers.

2—Put shut off valves on main branch and return lines.

3—Install additional radiators in cloak rooms and lavatories.

4—Put returns from vents through vacuum pump.

5—Reduce size of fresh air inlet.

6—Take down vento stacks and re-erect with additional radiators.

7—Raise air ducts from off the ground, cover with asbestos paper and provide same with regulation dampers.

8—Regulate volume of air supply by Anemometer.

9—Alter any piping that is trapped.

Suggestions for Later Improvements.

1—Make staircases in concrete more particularly side entrances.

2—Put rail down centre of main staircase.

3—Give concrete floors to basement and toilets a treatment of liquid floor hardener to prevent dust.

4—Change boilers to return tubular boilers.

MATRICULATION AND
ENTRANCE EXAMS. IN
PROGRESS THIS WEEK

Matriculation and Entrance examination are in progress at the King Edward High School this week. The pupils writing on the former are trying the tests set by the University of B.C. while the Entrance examinations are set by the Department of Education of the provincial government.

The entrance examination is in charge of H. C. Fraser, inspec-
