DAILY EDITION

Saturday, July 8, 1922.

Welcome To Visiting Ministers.

Prince Rupert people are always ready to welcome public men of any shade of political opinion. Today they are welcoming some of the members of the Oliver cabinet and especially the minister of public works who has charge of the chief spending department of the Government.

We would like to draw the attention of the ministers to the fact that they are unable to drive over any provincial roads because there is none leading out of Prince Rupert. For years we have paid the automobile tax and continue to do so, yet Victoria has given us nothing in return.

What a road to the mouth of the Skeena River. Our people are paying cars, yet they have no road on which to drive except such roads as we build ourselves inside the city limits. We must have that road and have it soon.

Prince Rupert is a Liberal constituency and is well represented by the minister of lands. It has done its duty by the Oliver Government and it expects the Oliver Government to do its duty here and build that road.

Victoria's Dream Has Come True.

For half a century Victoria has dreamed of a fast ferry service between that city and the mainland that would make them really part of the American continent. Plans have been laid at various times for such a ferry. Port Angeles was often spoken of as a possible port with which to connect the island by train with the mainland.

Now the growth of the auto business has made a ferry possible, aided by the attraction of the Government liquor store. The Victoria Chamber of Commerce took advantage of the movement and by spending a little money has secured a good service with the mainland in addition to the regular ferry steamers to Vancouver, Seattle and Port Angeles.

The inauguration of the ferry was the work of one man, the secretary of the chamber of commerce. Without his efforts nothing would have been done. It is a live wire. The new business is worth a great deal to Victoria and is an example of what well directed energy may do for a city.

Confusion In China Still Continues.

Confusion continues in China. Dr. Sun Yat Sen is apparently not down and out, as is sometimes alleged, and the Canton party may yet reassert itself and bring back better conditions in the country.

It is difficult to understand the Chinese situation. The Chinese of the south swear by their leader, who undoubtedly seems to be actuated by the highest ideals, too high, perhaps, for the present condition of the country. Dr. Sun is a patriot and a democrat but he has tried to graft American democracy on the Chinese when they were not ready for it.

The Peking Governments have all been monarchial in their ideals. In the name of democracy they have been extremely autocratic and possibly their method may be more successful than the other at the present time.

It will be interesting to watch developments. Will China rise to the occasion and develop along republican lines or will she revert to a monarchy? Is China really awakening or is she simply enjoying a nightmare? Eventually we believe she will come out all right and will develop into one of the great nations of the world unless militaristic Japan interferes with the plans.

A Charming Woman is Healthy

Good looks mean good Health Take

Health gives the only true and lasting beauty to the complexion. Perfect digestion and assimilation of food are necessary to ensure perfect health. For relieving ailments of the digestive powers—such as biliousness, constipation, sick headaches, flatulence—Beecham's Pills have proven their worth to countless thousands of women for many years past.

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES" And Has Been Well Ever Since

MADAM SLOAT

PERM JUNCTION, N.B., Jan. 22nd, 1920

"For many years, I was a great sufferer from Indigestion, Constipation and Rheumatism. My Stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple. I was treated by two different doctors but their medicine did me no good.

Then I tried "Fruit-a-tives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly."

Mrs. CLARA SLOAT, 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

SUITCASES TRUNKS CLUB BAGS

Large Stock on hand. Prices very low. J. F. MAGUIRE Next the Prince Rupert Hotel

The Man in the Moon SAYS--

NOW that fishing has become popular as a sport among Prince Rupert people there should be some good fiction writers developed.

BY their shirts ye shall know them, as the football player remarked.

WE may be stiff And we may be lame But we certainly played A devil of a game.

IS it any wonder that knights are scorned in Canada when a plain son of the soil can beat a knight in baseball.

SOME people are never enjoying themselves except when they are unhappy. It's like a novice playing poker for amusement.

SINCE it costs about as much to keep a baby as it does a motorboat, the popular opinion is that the baby must go.

ONE way to recover your health is to forget the cures.

VERY few people are so patriotic that they will voluntarily remedy a mistake in the tax account if they find they have been under charged.

ONE of the things that won't get you anywhere is trying to think what it would have been like if the sun had shined that rainy day.

WOMEN are coming on fast. They can now smoke and swear, but very few have yet learned to chew.

HNKS says they can chew the rag fast enough.

THE best cure for the efficiency expert is to set him up in business for himself.

THE solitary man when he goes motorboating sometimes takes a dry battery along for company. He says there is an undercurrent of sympathy between them.

A fairly good substitute for gasoline is the stuff some of us sometimes get in the tanks in our motorboats.

ELECTIONS IN MANITOBA ON LIQUOR REFERENDUM

Campaign There is in Full Swing With Three Parties in Field

LIQUOR REFERENDUM

WINNIPEG, Man., July 8.—(By Canadian Press).—A referendum on the question of government control and sale of intoxicating liquors for beverage purposes is almost certain to be held in Manitoba in the summer of 1923. Pledge to such action is contained in the official platforms of the Liberal and Conservative parties and of the Progressives in Winnipeg, who are allied with the United Farmers of Manitoba. The Farmers' policy calls for complete prohibition of traffic in liquors "excepting for sacramental, medicinal, scientific and mechanical purposes," but they are pledged to the principle of "direct legislation" as well and a Farmer government might be expected to grant a referendum on receipt of petitions bearing fifty or sixty thousand signatures such as were presented, unsuccessfully, to the last legislature.

Lengthy Program From a hundred platforms every day throughout the province are the candidates and their supporters contending with pride and vigour with alarm. The Liberals claim a record of unprecedented achievement and ask for an opportunity to complete their work. Conservatives condemn what they call the flagrant extravagance of the Norris government and pledge themselves to economy and curtailment of expenditures. The United Farmers, in their first campaign as an organization, present a lengthy program covering moral reform, education, finance and general administration.

Reviewing their record of seven years in control of the administration the Liberals call attention especially to enactment of rural credits and long term farm mortgage loans; of provincial savings office to many measures designed to develop the agricultural industry in particular and the general welfare of the province. The government platform declares that the Liberal administration should be charged with responsibility for completing the settlement of the natural resources question, and that crown lands should be disposed of only to those who will undertake to develop them productively. It is declared that there should be "a more equitable distribution of the burden of taxation" and "a drastic curtailment of provincial expenditures." The position is taken that the present is an opportune time for co-operation between the provincial and federal governments with a view to an aggressive immigration policy designed to place settlers on the land. The principle of the preferential ballot in single-member constituencies is endorsed, and the early completion of the Hudson Bay railway is advocated.

Conservatives Busy The platform of the Conservative party advocates reorganization of the civil service and all government utilities and services with a view to cutting expenses, and adopts the general principle that "the cost of civil government must be kept within the income of the province. It is proposed that taxation should be so co-ordinated and adjusted as equitably to distribute the burden, and a conference with federal and municipal authorities to allocate the "fields of taxation" is suggested. The platform urges the return of the natural resources to the province; promises development of agriculture and its services in the interests of industrial efficiency and harmony should a Conservative government be returned; urges economic, civil and political equality for the sexes; and sets out that "a thorough knowledge of the English language shall be an essential in elementary education in every school."

Farmers on Job The United Farmers are working on the basis of a platform which was adopted at their annual convention last January. It advocates direct legislation, proportional representation for

grouped constituencies and the preferential ballot in single-member seats; equality of the sexes; simplification of legal procedure; compulsory attendance at school to the age of sixteen or completion of eighth grade work; encouragement of common standards and inter-provincial certificates for teachers; a provincial hospital system; opposition to all forms of "commercialized gambling"; a systematic survey of farming conditions; extension of rural credits and farm loan systems; transfers of the natural resources; public ownership of provincial utilities; insistence on early completion of the Hudson Bay railway; a general conference on taxation and a land settlement scheme.

Ten Years Ago in Prince Rupert

Hon. Dr. Chang Kang Jen, Consul of China, will address the local Canadian Club next week on "The Awakening of China Trade Prospects."

Alterations to the Knox Hotel involving the expenditure of \$16,000 are being made. Hot and cold water is being provided for every room in the house.

The winners of the gold prizes at the week-end at the Empress Theatre were: First, \$10, Harry F. McLeod; second, \$25, Miss Brodie Dunn; third, \$15, Richard Halverson; fourth, \$10, Chris Rainy; fifth, \$5, Alex Gye. Aid. John Dybhavn was in charge of the drawings.

PUBLIC NOTICE

Complaints have been received that persons visiting the Metlakatla Indian village, in the absence of the natives at the canneries, have broken fences, entered gardens, carried away flower plants, fruit, etc. Warning is hereby given that prosecutions will follow any further depredations of this nature and the full rigor of the law will be applied in such cases.
