BRINGING UP FATHER

Canadian National Railway New Ocean Dock at This Port Will be Finished by End This Month

The contract for the building of the superstructure on the new Canadian National Railways ocean dock here, the biggest single dock of its kind on the Canadian Pacific coast, will be entirely finished by the Simmons Construction Company of Winnipeg by April 1. The work is now being rapidly pushed to completion and there only remains to be done the placing of sashes and doors, the putting on of the roofing and the finishing of painting and glazing. In fact, the glazing work is already about three-quarters finished and the painting has commenced. The

has been in charge throughout the contract, and M. J. McNeill was foreman carpenter.

The contract of the Simmons Company includes all the superstructure work. After they are finished the fire protection system and the iron work, such as travelling cranes and elevators, will have to be put in. The Canadian National Railways will also repair the west end of the old wharf and join it up with the new dock. However, this work will not require a great length of time.

Million Feet Lumber.

In the 850 by 450 foot super-

structure one million feet of lumber and 27,000 square feet of glass will have been used. The most of the lumber, including the heavy carrying timbers, has been of fir. Spruce has been used for the sidings and hemlock for the light dimension woodwork inside.

The enormous size of the building, which is by far the biggest one in the city, can best be realized by visiting the place and standing inside it. From the door to the highest peak of the roof is 32 feet. It has a practically flat roof with a $\frac{1}{4}$ -inch pitch per foot. In the centre of the roof an 8-foot cupola top runs from end to end of the building. This cupola is 50 feet wide and runs to a peak in the centre, with the same pitch as the main roof. The building being 450 feet wide, there is 50 feet of flat roof on either side of the cupola.

Doors and Windows.

On the track side of the building are continuous doors down the entire length and at the water side and at the ends are 9-foot double doors every 40 feet. Above the doors on either side are continuous windows 8 feet in height. On the sides of the cupola are also continuous windows 5 feet in height.

On each side of the building are eaves which are drained by 80 cast iron pipes in four rows of 20 each. The water, running from the roof through these pipes, is carried through the floor into the harbor beneath.

The contract for the supplying of felt composition roofing has been let to the Pacific Roofing Co. of Vancouver and the work of putting it on will be started immediately.

The painting has just commenced. The exterior will be yellow with brown trimmings and the entire interior will be white-washed.

Tracks Already Built.

The railway company already has its tracks in and there remains to be done by them the setting up of the two elevators on the water side and the travelling crane, as well as the installation of the sprinkling system and repairs to the old wharf connecting with the new.

In the interior of the dock the offices are hung overhead.

The cost of labor on the building has been \$38,000. J. A. Simmons, brother of J. H. Simmons and superintendent of works for the Simmons Construction Co.,

power to sanction or disapprove of proposed bouts or, if they wish, to also promote bouts and to appoint a reputable matchmaker.

It is stated that clubs are being formed with the intention of putting on boxing exhibitions, and the public is bound to be stung and the game brought into dispute if they were allowed to go on indiscriminately.

In regard to the request it is added that at the present time the city has the power to appoint a boxing commission, and the by-law under which such appointment can be made is still active.

When authority to appoint a commission was first given persons were selected to fill the office. But the commissioner never functioned, and during the last two years no appointments have been made.

GROTT WINS OVER BARBERS BILLIARDS

Intermediate League Fixture Played This Week Results in Score of 857 to 706.

The Grotto Intermediate billiard team defeated the Barbers in this week's fixture by a total of 857 to 706.

The individual scores were as follows:

O. K. Nelson (Barbers), 64; D. Howe (Grotto), 150; R. Barnes, 123; A. Creep, 150; J. Keece, 146; B. Russell, 150; W. Spencer, 150; W. Bourne, 144.

W. Burken, 150; G. Stone, 143; B. Morley, 73; J. McLean, 150.

The standing of the clubs to date:

| PL. | PIS. | AV. | |
|----------------|------|------|-----|
| Elks | 1 | 1728 | 866 |
| Grotto | 2 | 1685 | 843 |
| Sons of Canada | 1 | 1570 | 785 |
| Barbers | 2 | 1471 | 736 |

BOXING COMMISSION ASKED IN EDMONTON TO REGULATE GAME

EDMONTON, Mar. 10.—That an active boxing commission be appointed for the city is the suggestion made to the city council by Louis (Kid) Sealer.

He makes the request, as he sets out, "in the interests of the boxing game," and so that the public may be protected from fake bouts and matches.

His proposal is that a commission of five be appointed by council and that they be given full

power to sanction or disapprove of proposed bouts or, if they wish, to also promote bouts and to appoint a reputable matchmaker.

It is stated that clubs are being formed with the intention of putting on boxing exhibitions, and the public is bound to be stung and the game brought into dispute if they were allowed to go on indiscriminately.

In regard to the request it is added that at the present time the city has the power to appoint a boxing commission, and the by-law under which such appointment can be made is still active.

When the liver becomes slow, sluggish and torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow, among which are sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

MILBURN'S LAXA-LIVER PILLS

quickly remove the secretion, clear away the effete and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice Melhu, Napane, Ont., writes:—"I was very badly run down for over four months. I tried several remedies, but got no relief. One day my husband brought me home a small jar of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials and I am a different person today."

In the interior of the dock the offices are hung overhead.

The cost of labor on the building has been \$38,000. J. A. Simmons, brother of J. H. Simmons and superintendent of works for the Simmons Construction Co.,
