No better shoe made at the price and every pair fully guaranteed. All shapes and sizes. "The Store of Shoe Satisfaction."

Family Shoe Store Phone 357. P.O. Box 1668.

FIRE LIMITS FOR THE CITY

Matter Discussed at Length Without Decision Being Reached.

The report from the building commission on the question of fire limits being established in the city and the consideration of a by-law to amend the existing building by-law was discussed jointly and in committee at the council meeting last night.

Alderman McLeod said it had been suggested to establish a first class fire limit from Sixth Street to McBride, another suggestion was from the east side of Seventh Street to Third Street.

Ald. Silversides did not agree with the placing of any further restrictions on building in the city in view of the fact that things were very quiet from a business standpoint, and emphasized the point that the value of a building was judged by the revenue derived therefrom.

Ald. Montgomery concurred with Ald. Silversides in his views and said that the class of buildings going up to-day were of a first class nature. It was no use to kid ourselves at the present time. We were just a fishing village, and could not afford to place any further restrictions.

Ald. McLeod inquired if we were going to stay in the shack stage for all time. "If you put up a permanent building you can get more rent for it and you have less insurance to pay. The man who puts up a permanent building is ahead of the game," he said.

Ald. Theo. Collart disagreed with Ald. Montgomery in his statement that we were only a fishing village and said that we had to put up a fight for something better. If the city stopped men from erecting shacks they would have to make room for someone who would put up a good building.

Burdensome Taxes Ald. Montgomery favored the course of facing facts. He said that the city had enough property on its hands now, and that people were leaving other towns and cities because of the burdensome taxation.

Ald. Kelly believed that the time was opportune to divide up the city into sections, maintaining that we had good streets and should have good buildings upon them.

City solicitor Hooper volunteered the information that the cost of living here was 15 per cent higher than in other cities in the south, which was in a measure due to the fact that the insurance rate was from 7 to 8 per cent higher here.

Ald. McLeod said that a special public meeting had been held for all those who seemed inter-

BRINGING UP FATHER

By George McManus

ested in the matter. Several contractors had then stated that the present by-law was not half drastic enough, and had pointed out the advantages of brick buildings.

Ald. Silversides did not consider that the meeting referred to was representative.

Referred Back Ald. McLeod reminded the council that it had always been their policy to advocate permanent roads, sewers, etc., and now that we had permanent roads were they going to allow shacks to be built upon them?

Alderman Kerr moved that the matter of this report be referred back asking the building commission to make definite recommendations as to the class of buildings to be erected in the fire districts as designated. This motion was seconded by Ald. Kelly, and carried.

WATER MAINS ARE DISCUSSED

Relative Merits of Cast Iron and Steel Before Council

A report from the Board of Works on the construction of water mains on Fourth and Fifth Avenues was brought up at the council meeting last night. The Board of Works recommended that the existing temporary water main on that portion of Fourth and Fifth Avenues being regraded be replaced with permanent 8 inch steel pipe.

City Engineer Whittaker stated that in this city in the past east iron pipes had always been used while the cities to the south were using steel pipe. It was felt that the cost of cast iron pipe was prohibitive as it was made in Seattle and the

freight alone was very high. It was thought that steel pipe should be used in the residential part of the city.

Life of Each Alderman Kelly asked what the difference was between steel and cast iron pipe, and the respective life of the pipe in question. Engineer Whittaker stated that the difference in price between cast iron and steel was \$1.00 per foot. Also that steel pipe would last something like 25 years and cast iron pipe up to 30 years. Ald. Kelly strongly objected to the use of steel pipe.

His experience showed that it was unsuitable for the climatic conditions prevailing in the city and that he had known it to rot through in 12 years. Unless the city could afford to put in cast iron pipe it would be better in his opinion, to put in wooden pipe. Alderman Collart asked the city engineer the price of steel, cast iron and wooden pipe.

Mr. Whittaker replied that cast iron pipe cost \$270.00, steel pipe \$178.00, and wooden pipe about \$67.00 per 100 feet.

While Ald. Kelly maintained that steel pipe was unsuitable city engineer Whittaker favored its use and said it was both cheaper and easier to handle.

Referred Back Alderman Perry moved that the report as submitted be referred back to the Board of Works for further action in the securing of more detail as to the merits and demerits of cast iron and steel pipe and to the Finance committee for recommendations as to ways and means of effecting the necessary water main repairs.

This motion was seconded by Ald. Kelly and carried. C. C. Perry, Indian Agent, returned to the city last night from a departmental business trip to Metlakatla.

REBEKAH LODGE WERE ENTERTAINERS

Whist Drive and Dance Held Last Night is Great Success

The first whist drive and dance of the season held by the Rebekah Lodge in the Metropole Hall last night was a brilliant success. A large gathering being present. The whist drive comprised nineteen tables which were capably managed by H. Darggett. The first prize was won by Mrs. B. Chambers while the consolation prize was carried off by Miss Elizabeth Ross. Tom Priest was successful in winning the gentlemen's first prize, the consolation prize going to F. M. Crosby.

At the termination of the whist drive delightful refreshments were served and dancing was much enjoyed to the melodious strains of Arthur's orchestra until the early hours.

Mrs. T. Priest was in charge of the entire arrangements while Mrs. Ireland, Mrs. Dalgarno, Mrs. S. V. Cox, Miss Alice Monceur, Miss Bessie Arthur, and Mrs. Bodie formed the committee.

Harry Love and Sid Cox took charge of the door duties.
