# When Babies owe their lives to Carnation

## It must be Good

TIME and again a grateful, enthusiastic mother writes us how Carnation has saved her baby's life. Do you know that famous specialists recommend it as ideal for the tiniest baby? They urge its use because rigid sanitary supervision makes it so pure, uniform and safe—because it is easier to digest than raw, boiled or pasteurized milk. Carnation is heat-treated and that forms very fine, soft curds in the baby's stomach, almost exactly like mother's milk.

### Super-Smooth for Cooking

Carnation is the safeguarded milk from selected, inspected herds of "contented cows". Homogenized butter-fat in Carnation makes it super-smooth. That works magic in cooking—makes foods smoother, richer, tastier. Carnation improves cream soups, sauces, cocoa, custards, candy. Splendid when creaming coffee and for use with coffee, fruits and cereals. And economical because double-rich.
