ALLIED NATIONS UNITE AGAINST TURKEY

ISMET PASHA GIVEN UNTIL FIVE THIS AFTERNOON FOR REPLY TO ALLIES

Final Terms Are Given to Turks by Allied Representatives and Peace or War is in the Balance

LONDON, Oct. 10.—The question of peace in the near east now rests with the Turkish Nationalist assembly at Angora, which has before it the armistice conditions laid down by the allied powers. Meanwhile the Mudania conference has been adjourned and the allied generals have returned to their headquarters in Constantinople to await the decision.

The allied terms include the withdrawal of Turkish troops from the neutral zones around the Dardanelles and Bosphorus. A limitation will be made in the number of Turk gendarmes to be allowed in eastern Thrace and the non-occupation of that province by Turks until after the peace treaty is signed.

MUDANIA, Oct. 10.—The allied generals drew up their final armistice convention here last night and submitted it to Ismet Pasha, the Turkish Nationalist representative. The Angora government is given until five p.m. today to accept or reject it.

CONSTANTINOPLE, Oct. 10.—Lieut.-Gen. Harrington arrived here from Mudania early this morning and will return at three this afternoon. He said: "The convention we submitted to the Nationalists last night is in its final form. It now rests with Angora whether the world shall have peace or war."

"We have gone to the extremity of our concessions. The revised armistice convention is a gratifying manifestation of allied solidarity in war or peace. It is our earnest hope that the Turks will appreciate the liberality of our terms. If they reject them we prepare for all eventualities."

CHINESE AND PUBLIC SCHOOL

Separate Schools in Victoria to be Closed Until End of Term

BOYCOTT BY ORIENTALS

VICTORIA, Oct. 10.—Picketing of separate Chinese schools and other schools to prevent the attendance of Chinese pupils yesterday brought the Chinese school situation to a crisis and announcement made at the school-board offices that the separate Chinese schools would be closed for the remainder of the term in accordance with the ultimatum issued by the board last week.

Five Chinese, the first to attend any school since the separate school policy was inaugurated, presented themselves yesterday and were received in spite of efforts of the Chinese pickets to prevent them.

LANDOWNERS GIVEN A JAR

Lord Bledsloe Says Many of Them Nothing But Rent Receivers.

LONDON, Oct. 10.—The big landowners of England have been told in substance, that as a class they have made a bad mess of the land business and that if they did not do better in the future the country would take the land from them and turn them adrift.

The speaker was Lord Bledsloe, himself a big landowner who, during the war, helped the government manage the food supply of the country. The occasion was an address before the British Association. "The British agricultural landowner today is on his trial," Lord Bledsloe asserted. "Unless he justifies himself as such, the nationalization of the land is inevitable. Public opinion will demand his extinction, and parliament will endorse the demand."

Not Producers. "Many landowners have been for two generations nothing more than rent receivers, and they have possessed neither the knowledge nor the inclination personally to administer their own estates, still less to cultivate them on commercial lines or their own and the nation's benefit."

"So far as they have been organized as a class of the community, they have been organized, not as producers of wealth, but as defenders of property, and as such their organization has, in a highly democratic country, afforded them but a small and steadily decreasing measure of security. They have thus lost their political power because they had no economic basis. They have, not wholly without justification, been stigmatized as ignorant, reactionary and despotic."

NEW FERRY FOR VANCOUVER ISD.

C.P.R. to Build a Large One Following Experimental Work of Last Season

VICTORIA, Oct. 10.—Victoria is to have another ferry connection with the mainland. Early last summer a car ferry was opened between Anacortes and Vancouver Island with a landing at Sidney about twenty miles from Victoria. This was such a success that the Anacortes concern decided to build a new car ferry to go on the run next year.

The action of the independent company has stirred up the C.P.R. which is now calling for tenders for the building of a fifty car ferry which is to operate between some point and Victoria, probably Bellingham. As Bellingham is farther south than Anacortes it is expected that the C.P.R. will get the bulk of the business.

Until last year the only method of reaching the Island was by the C.P.R. steamers or by the little steamer plying between Port Angeles and Victoria.

Large Travel

Immense numbers of American cars have this year visited Victoria and toured the Island as far as Campbell River and Alberni. Next year it is expected the number will be increased very considerably. The chamber of commerce is advertising the route extensively and keeps a man at Seattle during the season advising people to cross to the Island.

CHINESE BOOM IS EXPECTED

President of Associated Press Leaves on Visit to Orient to Organize News Service

VICTORIA, Oct. 10.—Frank B. Noyes, president of the Associated Press and editor of the Washington Evening Star, left here on the Empress of Asia to reorganize the press service from the Far East, particularly China to anticipate the great trans-Pacific commerce expansion which is dawning.

So extensive are his plans, that his work in China will take him several months.

Doubtful News.

News received from China since the early days of the World War has been for the most part, of a doubtful character. This has been particularly true when matters of government were being outlined. Not only has the Associated Press found it difficult to get at the real facts underlying much that has taken place in that country, but in metropolitan centres daily newspapers have also been unable to do so. A good many of them, from time to time, have sent their own representatives to China, at enormous expense, and in that way have been able to keep a part of the United States and Canada reliably informed. The Associated Press, also at great expense, has had its special agents in that field, with equally satisfactory results.

Must Know China Better.

It is now desired to build up in that country a permanent local staff that will supply the people of United States and Canada with information that will be reliable and not lean toward any one of the hostile factions into which China is divided.

In order that such a result may be attained, it is necessary for Mr. Noyes to make the present trip. The Chinese people know he is coming, and will give him all possible assistance, for they realize that the future of their country depends largely upon the attitude of the people of the two countries on this side of the Pacific assume toward it.

Intimate Relations

Back of the move, which this great news association is now preparing to make, is the thought that in the coming years relations with China will be more intimate than ever before, with a corresponding profit to countries on both sides of the ocean.

"It is necessary that we know more about China than that she supplies us with tea and a considerable portion of silk," Mr. Noyes says.

BULKLEY BEEF IS WELL KILLED SAYS A BULKLEY FARMER

Quality of Meat is Too Good for Local Consumption He Suggests.

One of the Bulkley Valley farmers called at the Daily News office this morning and stated that most of the beef raised in the Bulkley Valley was as well killed as any that comes into Prince Rupert and the chief objection to the beef locally is that it is too good. He said that the quality was so much better than that brought from the prairies that the local butchers did not want it. It was all of the best quality, well conditioned and tender. The difficulty was that what was required was inferior quality beef whereas their's was first quality.

The farmer admitted that there might be a few farmers who did not kill their beef well but most of them did.
