POLITICAL CONTROVERSY ON IN ENGLAND

CHAMBERLAIN ASKS CONTINUANCE OF COALITION AGAINST LABOR MENACE

Austen Chamberlain is out for Continuance of British Coalition Govt.

BIRMINGHAM, Oct. 13.—Austen Chamberlain, government leader, addressing the Midland Conservatives here yesterday declared it would be criminal to break up the present coalition in view of the labor menace.

"I do not pretend to say when an election will occur. It is undoubtedly right that the Premier should choose," he said.

Another point made by Mr. Chamberlain in his speech was, "I worked with Lloyd George in perfect harmony. He has told me he did not know when the election would come."

Mr. Chamberlain's speech had been eagerly awaited here in the hope that it would indicate what would be the premier's political stand in the event of a general election and how far the Conservatives, of whom Mr. Chamberlain is the leader, would support Lloyd George.

Mr. Chamberlain's declaration is believed to mean that the Premier would fight for the coalition and that Austen Chamberlain would give him support.

POLITICS IN ENGLAND IS MUCH ALIVE

Conservatives Are Demanding That Chamberlain Cut Away From Coalition

LONDON, Oct. 13.—Discussion of the political crisis again fills columns of the newspapers this morning. The outstanding feature of the situation is the increased hardening of the Conservative opposition to Austen Chamberlain's continuance as leader of the Unionist party unless he cuts loose from Lloyd George and the coalition. That he will do this seems likely in the best informed circles.

AGRICULTURAL ASSOCIATION HEARS REPORT

Meeting Last Night Prior to President Leaving For East

A meeting of the board of the N. B. Agricultural and Industrial Association was held in the City Hall last night.

Those present were F. G. Dawson, president; W. E. Thompson, vice-president; J. McRae, secretary; Alderton Silversides and Kelly, representing the city council; R. E. Benson, W. J. Kirkpatrick, C. C. Mills, director; and J. Venables, manager.

The meeting was called in view of the departure of F. G. Dawson, president, for the east tonight.

The accounts of the association have not yet been completed sufficiently to give a final financial statement of exhibition affairs but it is felt that the result of the past exhibition financially will be very satisfactory in view of the expenditure made on permanent fixture work this year.

The amount of permanent work done this year has been considerable and includes the home cooking section, portable shelving for the mineral exhibit, which can be moved to any part of the hall, the dog house has been built permanently, also the old chicken house was turned out entirely and put in such shape that no more money will need to be spent on it for some time to come. Three new booths were built on the carnival grounds, and the cattle kraal was put into good condition.

Upwards of \$1,000 was spent on a new sewer which had to be run from the exhibition building to a point near the Summit Apartments to connect with the main. The ladies' rest room in the basement was completed with toilet basins, etc. This room will have to be improved next year in the way of furniture. The fixtures for the school exhibit were put in condition and can be used in future without any additional expense. The stands for the district exhibits, which were made this year, will be suitable for use for forthcoming exhibitions.

Annual Trophies

Four annual trophies were purchased this year. The agricultural district exhibit cup, value \$100, the district fruit cup, the district mineral exhibit cup and the rock drilling shield. These trophies have to be won twice in succession, or any three times, so that these will not need to be replaced for some time.

In addition to these expenses there was the additional expense of getting the district exhibits here in the way of freight and transportation.

Important Work

With the permanent work already completed there remains one more important thing to be done. The exhibition building is badly in need of paint on the exterior, and the present cave troughs which are perished will need to be replaced. The roof also needs urgent attention in places. With these repairs made the building will be in first class condition.

PRINCE JOHN HERE FROM THE ISLANDS

People Coming and Going From Queen Charlotte Islands

The steamer Prince John Capt. Nodden, arrived in port at 7:30 last night from the Queen Charlotte Islands on her way from Vancouver.

On board were Mr. and Mrs. Schommer of Alford Bay. Mr. Schommer has just completed a season's work with the cannery at that point, and is returning south.

Alf. Moore, in charge of logging operations on the Queen Charlotte Islands for the Whalen Pulp & Paper Co. of Ocean Falls, came up as far as Sedrick Bay from Vancouver.

McKay Smith, of the McKay Smith, Blair Co., of Vancouver, came north on the Prince John as far as Prince Rupert and is registered at the Central Hotel.

A. B. Robson, parser, said that quite a deal of work was going on around Massett, a number of men being employed in erecting fences. He thought that the timber cutting operations around Buckley Bay would be commenced in about a month's time, at least that was the general opinion on the Islands.

The Prince John will leave on her return trip for the Queen Charlotte Islands tomorrow at 8 p.m. While in port her smokestacks are to be repainted.

DAWSON AND H. H. STEVENS

New Railway Director Telegraphs Vancouver Sun His Reply to Charges.

In reply to a request from the Vancouver Sun asking for a statement to reply to H. H. Stevens' charges, F. G. Dawson last evening sent the following telegram:

"Your wire received. It has never been my policy to allow myself to become embroiled in political controversies but you have requested me to make a statement and out of courtesy to you will say that the statements alleged to have been made by Hon. H. H. Stevens regarding my bringing in quantities of beer illicitly are so utterly ridiculous that they do not merit consideration.

"It has been my pleasure to manage a good many political campaigns but have never had the honor of managing one for Hon. A. M. Manson nor have I had the privilege of even voting for him in the past ten years but I hold him in the highest personal esteem and am very sorry that such unfounded statements should be made about a man whom I believe and I think the public in general believe is conscientiously trying to administer a difficult act. Such petty political slush as Hon. Mr. Stevens emitted is only the frothings of the brainstorm type of politician and will be accepted as such."

Seventy-Six Passengers and Two Hundred of Crew Rescued from City of Honolulu which Still Burns

SAN FRANCISCO, Oct. 13.—Passengers from the steamer City of Honolulu, which was burned at sea, were transferred to the United States army transport Thomas from the rescue ship West Farolan at dawn today. The Thomas is due in San Francisco tomorrow but it is expected she will be a day late.

The passengers on the City of Honolulu numbered 76, and the crew 200, all of whom were saved. When rescued by the West Farolan the passengers and crew were in lifeboats on a smooth sea. That was late yesterday afternoon.

The Honolulu continued to burn throughout the night, but it is likely the hull will be towed to some port on the coast unless she sinks. The flames appeared to break out suddenly and spread rapidly. The steamer is believed to have burned beyond repair and it will be at least two days before any ship will be able to approach the hull on account of the intense heat.

The transfer of passengers occurred without incident.

Officials here express the opinion that the injunction applied for will be granted in the United States courts.

The conference adopted a recommendation that divorce be discouraged by means of courts for the arbitration of domestic disputes in an effort to patch up trouble before the divorce courts hear of them.

Dr. Salem Island vigorously opposed the proposal and said that divorce was sometimes only common justice and should be made available to all instead of to the rich as at present.
