

Doctor Said "Keep on Using Zam-Buk"

"My little son was badly scalded by pulling a pan of boiling water over himself," writes Mrs. Albert Sawyer, of Midland, Ontario. "I called in a doctor, but his ointments failed to ease the child's intense pain. I therefore discontinued the treatment and began with Zam-Buk instead."

"This wonderful balm appeared to relieve pain almost immediately, but to make sure I was doing the right thing, I called in a second doctor. When I told him what I was using, he said—'That's right—just keep on with Zam-Buk, there's nothing so good for scalds and burns.'"

"As I persevered with Zam-Buk all soreness and inflammation was drawn out of the injuries and new skin gradually formed. It was not long before the scalds—although so extensive and severe—were completely healed."

Zam-Buk obtainable of all chemists and stores. 50¢ box, is equally splendid for the treatment of eczema, ulcers, ringworm, piles, varicose veins, poisoned wounds, chaps, cold-sores, chilblains, etc.

SPEECH BY JOHN KYLE

Organizer Technical Education
B. C. Addresses Anyox
Polytechnic.

PLEASED WITH SCHOOL

ANYOX, Feb. 22.—"Following the system of Germany and Scotland, Canada will, in all probability soon have compulsory Continuation School education," said John Kyle, organizer of technical education for the Province of B. C. in addressing a Polytechnic dinner given at Anyox. "In Ontario, at the present time, if a pupil leaves school at 14, he is compelled to attend a continuing school. In British Columbia we are still trying the voluntary system, but it is not a success. In time we will fall in line with compulsory education and the large firms in the country will be called upon to allow their employees under a certain age, eight hours off per week, for the purpose of studying and gaining practical knowledge of the work they intend to fit themselves for. The present system is not satisfactory inasmuch as the students are mentally and bodily tired out with their day's work and are not in a position to thoroughly grasp the subjects as they would be in a day school, when they are feeling fresh and vigorous."

Survival of the Fittest.

"Never was it more important that every man be efficient. Competition is tremendous and the man that has the best mental equipment, both in practice and in theory, is the man that will win out. In other words it is the survival of the fittest, and it is up to British Columbia to frame and fit her own men to develop her own resources instead of having men come in from Ontario and the European countries. The technical schools now being established in the Province will train the young men in the line of work pertaining to the Province." Mr. Kyle pointed out "as the resources of a province differed, so should the education system in the technical schools, and the men of British Columbia should be educated and fitted to develop our resources, minerals and fishing."

Three Technical Schools.

"At present there are three other technical schools in the province, one in Vancouver with an attendance of 500 pupils, one in New Westminster and another in Victoria. The Government has authorized an appropriation of \$80,000 to build a technical high school at Trail; Trail being located in the centre of a mineral district. The students will be trained in the work necessary to develop these resources and it will then not be necessary to take in outsiders as is the case in Ocean Falls, where the men have to be obtained from Madison, Wis., where they are trained in a technical school in the art of pulp and paper making."

Magnanimous Spirit.

Mr. Kyle stated that he was impressed with the splendid opportunities that were available in Anyox and the Granby Company should be complimented on the magnanimous spirit shown in throwing open their plant, with the practical men ranking first in their special line of work in the country, who are willing to teach and help the students. No university or technical school anywhere can offer a better opportunity for a student to gain practical knowledge than in the Polytechnic, where there are practical men who are not theorists only.

WHIST GAMES WERE PLAYED LAST NIGHT

Valhalla Ladies and Gentlemen
Successful Over Pythians—
Last Ladies' Game.

The final game of the season in the Ladies' Whist League was played last evening when the Valhalla team defeated the Pythian Sisters by a score of 5 to 4, the game having been a closely contested one. The Valhalla is thus the champion team of the Ladies' League and the Royal Purple and Pythian Sisters are tied for second place. Following the completion of the men's games, the champion ladies and champion men will meet in a series of games to decide the winners of the Dybhavn Cup, emblematic of city whist championship.

There was also a game in the men's league last evening, the Valhalla defeating the Knights of Pythias in a postponed match by a score of 5 to 4.

Both games were played in the Metropole Hall and after they were finished the Valhalla ladies entertained their visitors. Refreshments were served and speeches were made by John Dybhavn, president of the Whist League; W. Gilchrist, chancellor commander of the Knights of Pythias, and L. O. Larsen.

The standings in the league to date are as follows:

Ladies' League.				
	P.	W.	L.	Pts.
Valhalla	10	9	1	9
Royal Purple	10	6	4	6
Pythian Sisters	10	6	4	6
D. of Eng.	10	3	7	3
Rebekahs	10	3	7	3
St. Andrew's	10	2	8	2

Men's League.				
	P.	W.	L.	Pts.
Valhalla	13	11	2	11
K. of P.	12	9	3	9
K. of P.	12	7	5	7
S. of C.	12	6	6	6
Odifellows	13	6	7	6
St. Andrews	13	5	8	5
S. of E.	12	5	7	5
Elks	11	2	9	2

Persistent advertising is absolutely necessary to success.

ONE OF COUNTRY'S LEADING WELTERWEIGHTS.

George Ward of Elizabeth, N. J., is one of the best welterweights in the country at the present time. Ward is undoubtedly the most scientific man in his class and has a style that is envied by all of his foes.

Sport Chat

Steps are being taken towards the formation of an intermediate football league in the city for the coming season. There are many players here who are beyond the junior class and still hardly consider themselves proficient enough for the senior league who would likely take part in Intermediate League games. It is for these, especially, that the idea of an intermediate class is being followed up. No one, no matter how old or how young, would be barred from such a league. Already a prominent local citizen has offered to put up a trophy if such a league is formed under the auspices of the Prince Rupert Football Association.

There would seem to be considerable possibilities for an intermediate football league in this city. In its lineup would likely be found some of the seniors of former years as well as some of the juniors who will have advanced somewhat beyond that class. The Grotto cigar store is already getting a team lined up and among the other organizations which might enter would be the Sons of Canada, Merchants, Knights of Columbus, Elks, Sons of England and Gallies. Even if there were only three teams in such a league it would be well worth the while both in interest and in the matter of keeping this class of players in trim.

It is expected that the junior league will be out in force at football again this season competing for the Rochester Shield which was put up last year by the mayor and which is now held by the Dry Dock Juniors. There will probably be more than the three teams this year for there will likely be increased football activity among the school boys who have taken such a prominent part in basketball during the winter. Since sport is being taken up more actively in the schools this year than

ever before, mainly on account of the efforts made by Superintendent Campbell and his assistants, with the backing of the school board, more competitions in all lines may be expected among the scholars. There were three teams in the junior league last year; Dry Docks, Merchants and Athletics.
