DAILY EDITION

Thursday, Sept. 7, 1922.

Great Disappointment In Local Circles.

There is great disappointment in certain circles in this city and in other similar centres over the fact that times are improving and there is likely to be no great unemployment problem to cope with during the coming winter.

The disappointment is among those who have been confidently expecting the social structure of the world to disrupt, throwing those with brains and money sky high through the roof of the universe and leaving in charge the men who have neither brain or brawn but simply an over supply of ability to talk.

Those who have been looking forward to a social upheaval are likely to be feeling blue during the next few years. Not but what there is need of a change, but not a change of the eruptive kind such as they expect. The men with brains, energy and ability to do things will remain at the top under any reconstruction that takes place.

Self Help Is Only Salvation.

As long as Canadians try to help themselves they will succeed. Once they begin to look to governments to do everything for them they are on the down grade and can expect to make no further progress. That seems to be the opinion of the labor minister, Hon. James Murdock. It is no new philosophy. Every man has to work out his own salvation. The moment he begins to depend on others, all prospects of success vanish.

Government Service Without Stimulus.

The government service seems to be without stimulus. That is a very general opinion and it is probably true in the long run. In all lines of endeavor people do not seem to work as well for the government as they do for private individuals or corporations.

Before the war the Civil Service employed 283,000 people at a cost of \$29,500,000. Now it employs 325,000 at a cost of \$67,400,000. Civil servants, it is stated, usually start work in London at 10 o'clock in the morning, take three-quarters of an hour for lunch and knock off promptly at five o'clock except on Saturdays, when they quit at 1:30.

The committee sees no reason why the hours of civil servants should not be the same as those of ordinary clerks in civil employment, nor why they should get more than two or three weeks vacation, as is customary in business houses.

That is clear, the committee says, that if the hours of work were increased to a moderate extent it would be possible to reduce the staffs and so effect a reduction in the cost of the service.

That is obvious, but no government has succeeded in doing it yet and meanwhile the staffs of the various government departments are not worrying over the prospect of having to work longer hours and getting shorter holidays.

WITH 63 BABIES ON LIST ENTRIES WERE CLOSED YESTERDAY

Examining Officials Will be Busy For Next Five Days Examining Children in Better Babies Contest

With 63 babies entered, the management of the Fair Association found it necessary yesterday afternoon to close the entries for the Better Babies Contest, much to the disappointment of many proud parents who had intended entering their children but who, unfortunately, left it until too late. It was necessary to discontinue the receiving of entries for it will be impossible for the doctors to examine any more babies in the time at their disposal.

SMITHERS COUPLE HERE ON HONEYMOON

Miss Fotherby and H. H. Oleson Were Married Early Yesterday Morning in Railway Town

Mr. and Mrs. H. H. Oleson arrived last night from Smithers on the first lap of their honeymoon which will be continued tonight when they sail for Seattle on the steamer Prince Rupert.

Miss Fotherby, daughter of Mr. and Mrs. Hudson Fotherby, Smithers, was married to Mr. Oleson at 7 o'clock yesterday morning just before the westbound passenger train left Smithers. Both being popular residents of the interior railway centre, a great send-off was given them as they left Smithers. The groom is a freight train conductor of the Canadian National Railways. They will return later to make their home in Smithers.

MUNICIPALITIES WILL HAVE TO PAY FOR THE ENFORCEMENT OF LAW

Where Local Authorities Do Not Act and Provincial Officers Undertake Work, Bill Must Be Paid.

VICTORIA, Sept. 5.—All cities and municipalities which fail to enforce the British Columbia liquor laws will have to pay the cost when the Liquor Control Board agents undertake the work according to an announcement made here by Attorney General Manson. Addressing himself particularly to the city of Victoria he said:

"If Victoria cannot clean up its own troubles it will have to pay the expense of the provincial authorities in doing that work for it. There will be no non-sense about this and there is no excuse for the municipal authorities failing to enforce the law. They have had plenty of warning in this connection, and it has

The Rupert Table Supply Co. Phones 211 and 212

been known for a long time that the law was not being enforced properly. Now that the provincial authorities have started to enforce the law the municipalities in which such action is taken will have to pay the bill.

Mr. Manson added that the expenses which cities would have to bear in this connection would not be excessive. "We are doing the work very cheaply," he said. "In fact, I was surprised when I learned how economically it is being conducted."

EXHIBITION OFFICE HIVE OF INDUSTRY

Entries Are Pouring In — Jack Woods Assisting Manager Venables — W. S. Fisher In Charge Tickets

Jack Woods is acting as assistant to Jack Venables, fair manager, for the rush days of the Exhibition which have already commenced. The office in the City Hall is now a hive of industry from early morning till late at night and the entry lists are veritably pouring in.

W. S. Fisher has been appointed to take charge of the ticket selling, admission and gate for all departments of the Fair including the hydroplane flights.

GAMBLING ON BOY TO INHERIT FORTUNE

Forty Million Waits Son Should He Be Born to Princess.

PARIS, Sept. 6.—Princess Xenia of Greece, niece of King Constantine and wife of King Leeds, Jr., is at present in Paris with her husband, expecting an addition to the family. If a boy is born to the Princess, he will inherit the entire \$40,000,000 fortune of the late William Leeds, the American tinplate king. The Leeds' will provides that if there is no male issue, the whole sum shall go to the New York Lying-In Hospital.

The \$40,000,000 is now in the form of a trust fund, the interest on which is drawn by Princess Christopher (formerly Mrs. William Leeds). Upon the death of the American Princess the interest will revert to her son, husband of Princess Xenia. In

the event of his death or that of his wife, the fortune will go to a male heir, if there be one, as the American law provides that a trust fund shall cease with the third generation.

Ten Years Ago in Prince Rupert

September 7, 1912.

The provincial government is building a wharf at Granby Bay and the work of clearing the new townsite there for the company is proceeding apace.

The Board of Trade is taking up a charge made by the Northern Steamship Co. that the provincial government is levying the same wharfage fees at the government wharf as charged with the Grand Trunk Pacific Co. which, with an additional tonnage, makes the rates higher than imposed by the railway.

The Board of Trade is devoting much effort towards advertising Prince Rupert. A special pamphlet is to be published and space is to be taken in "Canada Illustrated" and the "Sunset Magazine."

COD AND HALIBUT

Eighty Vessels Visit Seattle During Month of August.

SEATTLE, Sept. 7.—Eighty schooners of Seattle's fishing fleet arrived in port during August, bringing a total of 1,189,500 pounds of fresh halibut and mixed cod, according to figures compiled by representatives of the Fishing Vessel Owners' Association, Inc. The catches consisted of 529,700 pounds of medium sized halibut, 422,500 pounds of halibut rated as chickens and large and 246,300 pounds of mixed cod. The catch of halibut shows a decrease of 708,200 pounds compared with August 1921, when a total of 85 fishing schooners arrived from the banks. The falling off in the catch of halibut during August is attributed by the fishermen to the scarcity of bait. The catches of mixed cod during August show an increase of 41,000 pounds compared with the same month last year.
