

FUNERAL OF MR. KINGHAM

Father of Mrs. Sidney Johnston Buried at Victoria Yesterday

VICTORIA, Sept. 7.—The funeral took place here yesterday of Joshua Kingham, one of Victoria's prominent citizens who passed away on Friday last following the failure of a surgical operation at the Mayo Brothers clinic at Rochester, a few months ago.

Mr. Kingham has always taken a keen interest in public life. He has been president of the Board of Trade and has always been prominent in political and business affairs. For nearly 30 years he was engaged in the coal business in the capital but his business interests went far beyond that and he was always willing to take a chance where the development of the city seemed likely to follow.

As a politician he was not tied hard and fast to any party. At one time he was president of the Liberal Association and took part in many a campaign but during the war he forsook his party allegiance, believing it to be in the interests of the country and of the Empire and backed Dr. Tolmie, along with most of the Liberals of Victoria. He was a prominent member of the Rotary Club.

Mr. Kingham was the first elected mayor of the Elks in Victoria. He backed the professional baseball team, took a keen interest in all kinds of sports and of late had taken up golf. He is survived by a widow, a son and two daughters, one of whom is Mrs. Sidney Johnston of Prince Rupert.

ANOTHER ATTEMPT FURNULATE TREATY IN REGARD TO FISH

Washington Authorities to Meet Canadians at Vancouver Next Week.

SEATTLE, Sept. 7.—Invitation to join them in a conference to discuss the British Columbia fish situation and the unratified salmon treaty between the United States and Canada has been extended to fisheries officials of Washington and the State Fisheries Board by a commission recently appointed by the Canadian Parliament. The meeting will be held in Vancouver, B. C., September 14.

Two previous conferences have been held between Washington fisheries representatives and Canadian commissions with a view of eliminating the features in the salmon treaty drawn up about six years ago with former Secretary Redfield as chief representative of the United States.

SUFFERED YEARS WITH ECZEMA

"Fruit-a-tives" Cleared Her Skin

POINTE St. PIERRE, P.Q. "I suffered for three years with terrible eczema. I consulted several doctors and they did not do me any good. Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return. I think it is marvellous because no other medicine did me any good until I used 'Sootha-Salva' and 'Fruit-a-tives', the wonderful medicine made from fruit."

but without results. It was because of the protests of the state officials that the treaty was not ratified by the Senate when it was first presented to that body.

Use of Seines Barred. One particular feature of the treaty that the Washingtonians objected to most strenuously, E. P. Blake, chairman of the State Fisheries Board, said yesterday, was the provision that all fishing for sockeye salmon be done with gill nets, eliminating the use of seines and fish traps.

Another phase of the treaty, which, it is said, heretofore has prevented a complete agreement between the Americans and Canadians, is that affecting the conservation of salmon.

Rejected by Canadians. To build up salmon fishing in British Columbia and Washington waters to a point where canneries would be assured an adequate run each year, it was proposed by the Washington representatives at the last meeting of the two fishing bodies that salmon fishing be stopped for a period of five years. This proposal, however, was rejected by the Canadians, Mr. Blake said.

Washington's representatives at the Vancouver conference September 14 will consist of the three members of the State Fisheries Board, Edward P. Blake, Seattle chairman; Capt. H. Ramwell, Everett; and E. A. Simms, Port Townsend, and Ernest Seaborg, state supervisor of fisheries. The party will leave Seattle September 13 and will motor to Vancouver.
