

Doctor Said "Keep on Using Zam-Buk"

"My little son was badly scalded by pulling a pan of boiling water over himself," writes Mrs. Albert Sawyer, of Midland, Ontario. "I called in a doctor, but his ointments failed to ease the child's intense pain. I therefore discontinued the treatment and began with Zam-Buk instead."

"The wonderful balm appeared to relieve pain almost immediately, but to make sure I was doing the right thing, I called in a second doctor. When I told him what I was using, he said—'That's right—just keep on with Zam-Buk, there's nothing so good for scalds and burns.'

"As I persevered with Zam-Buk all soreness and inflammation was drawn out of the injuries and new skin gradually formed. It was not long before the scalds—although so extensive and severe—were completely healed."

Zam-Buk obtainable of all chemists and stores, 50c. box, is equally splendid for the treatment of eczema, ulcers, ringworm, piles, varicose sores, poisoned wounds, chaps, cold sores, chilblains etc.

"SHEIK" IS VERY SPECTACULAR

Wonderful Scenes in Photoplay
to Be Seen Tonight at Westholme.

One of the most impressive features of "The Sheik," George Melford's latest production for Paramount, which comes to the Westholme Theatre tonight, are the many magnificent and spectacular settings in which the various scenes are enacted. These include:

A remarkable conception of a public section of the ancient city of Carthage under Roman rule; a birdseye shot of the city of Biskra, the Monte Carlo of the Algerian Sahara, taken from a minaret with an Arab praying in the foreground; fifteen actual shots about the city of Biskra, especially made for the picture by a representative from Paramount London studio; a picturesquely American oasis, especially constructed on a desert site near Hollywood; a complete Arabian village—the stronghold of the bandit chieftain Omair; and beautiful, exotic interiors, such as the interior of the Sheik's tent, and the desert palace of Omair.

In the Carthage episode, which is a vision in the picture, a very unusual effect is presented. Agnes Ayres, playing the principal feminine role, is shown as the haughty queen who rules the city under Roman domination. When the scene first opens it shows the proud English girl, later to be captured by the Sheik encamped at night among the ruins of Roman splendor in the ancient city. There are broken pillars and crumbling ruins.

Then the girl becomes a Carthaginian queen, the architecture is restored and scenes of splendor, peopled with the royal court, flower girls, harp girls, slaves, centurions and Roman soldiers follow. This vision establishes the haughty, dominant character of the girl, who insists upon taking a journey into the desert, despite her brother's objections.

FORMER RUPERT MAN TABLES REPORT ON ALBERTA TELEPHONES

Hon. V. W. Smith, Minister in the Farmer Government, Produces Document in Legislature.

EDMONTON, Feb. 24.—Alberta's publicly owned telephone system is credited with assets totaling \$22,898,223.33 in the annual report of the department tabled in the legislature by Hon. V. W. Smith, minister in charge. Against this there is a bonded debt of \$21,406,880.95, together with a replacement reserve of \$6,660,299.09, a sinking fund of \$459,767.25 and accrued surplus earning not yet transferred to reserve of \$129,744.

Nearly one thousand cities, towns, villages and hamlets are now linked up with the provincial system. The total subscriber's lines in operation are 49,517, of which 45,628 are in the northern and 34,489 in the southern division. Calgary has 15,669 subscribers, Lethbridge 1963 and Medicine Hat 1693. Some 6084 rural applicants are on file awaiting service. In the rural branch 2059 miles of poles were added during the year and 4449 new subscribers served. Long distance lines were extended by 182 miles of poles and 6524 miles of wire. The new automatic exchange at North Hill, Calgary, with 1150 subscribers was com-

pleted and the new automatic equipment installed in Lethbridge in the new building. The carrier system of telephone between Edmonton and Calgary is said to be a complete success, this being the first of its kind in Canada and the fifth in the world, making it possible to carry on three distinct telephone conversations over one pair of wires at the same time. Very little new work will be required on the long distance lines in 1922.

Prince George wants to play at home this year for the Northern B. C. baseball championship and the Self Shield. The Leader of that town, speaking of the matter says,

"Last season the local team journeyed to Prince Rupert to take part in the elimination series held there to decide the championship of the north, and succeeded in carrying off that honor. As champions of the north and possessors of the Self Shield (when it arrives) emblematic of the championship, the locals have the right of defending that shield on their home grounds against all who wish to wrest it from Prince George."
