HEADS That Ache and Pain

It is hard to drag along with a head that aches and pains all the time.

In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels, but no matter which organ is to blame the cause must be removed before permanent relief can be obtained.

BURDOCK BLOOD BITTERS

which has been on the market for the past forty-five years, removes the cause of the headache by starting the organs of elimination acting freely, and when the impurities are carried off from the system, purified blood circulates in the brain cells, and the aches and pains vanish.

Miss Clara Murphy, Centre Dummer, Ont., writes:—"My system was greatly run down and my blood out of order. I suffered a great deal from severe pains in my head which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health. I took another bottle and it has done me an enormous amount of good. I have recommended it to some of my friends who were in a similar condition and they all say it is a wonderful remedy."
