CITY CLERK IS REAL PIONEER

Ernest A. Woods Today Completes Sixteenth Year of Residence in Prince Rupert

Today City Clerk Ernest A. Woods completes his sixteenth year of residence in Prince Rupert.

He first arrived here on January 6, 1907, when the town was nothing more than a group of tents in the tall timber, to take up his duties as private secretary to J. H. Bacon, the harbor engineer. He was with Mr. Bacon until 1909 when he was transferred to a similar capacity under the late David H. Hays, agent for the G. T. P. Development Co. He attended the original sale of the railway company's lots and negotiations for \$1,000,000 worth of property passed through his hands. After a trip to the Old Country, Mr. Woods started to work for the city and he has been with the corporation ever since.

Today is also the birthday of Mr. Woods' mother who resides in the Old Country.

In the Letter Box

CAN'T WEAR SILK HAT

Editor, Daily News.

I see by tonight's paper that you are not going to take sides in the election for mayor and aldermen. There you are. That's what's wrong with most of the people in this town. They are afraid to call their souls their own. They've let the idea get around that Newton is the only man that can't be beaten when it's Montgomery that is, stronger than any one of the bunch and is going to head the polls on Thursday, no matter who else is running.

Smart Tooknot

Their chief complaint I hear about Montgomery is that he can't wear a silk hat and he's not much good at playing whist. Now what I should like to know from you Mr. Editor, is what has playing whist or wearing a smart topknot to do with conducting the affairs of this town. Let me just tell you a thing or two. This town is skidding along the road to bankruptcy unless somebody stops it and I don't know anybody better able to put on the brakes than that same Montgomery.

Now see! Montgomery is the man that has always stood up for the fishermen through thick and thin. He has never let a chance slip to put in a word for the men that makes the money for the editors and the butchers and the other people. Tell me, now, what did Sam Newton ever do for fishermen? Tell me one little peep of a thing and then I'll vote for him and sell my soul to the devil. You may think this is rough but it's so all right. Maybe you won't print it that way. If you can't do it any other way just spell it d---!

Has the Sense

Montgomery has given more time and energy and done more good work on the council than any other man. That ought to entitle him to the job as mayor. Well, Mr. Editor, see that he gets it. Do your little part this time and support a real man, a rough diamond, that may not have all the polish but has the sense. I hear said, that some of the businessmen are coming round to see that he's your man and ought to be elected. We don't want a man that's going to cut wages but we do want a man who'll get a fair day's work done for a fair day's pay, and that man is the same Montgomery.

Montgomery's been beaten before and so has Newton. Well, this is Monty's turn. What did Newton do when he was in? Nothing. Then give Monty a chance. Let him see what he can do. It won't do no hurt to the town to have a labor mayor.

GOSSARD Brassieres, like Gossard Corsets, are un-gerringly designed for the needs of the nine figure types. The new Longeryne models are priceless to the woman who heretofore has been unable to find brassieres with special shaping to support and flatten the diaphragm and with extra length to prevent them from slipping up over the lower tops of the modern corsets.
