Has Found It Impossible For British Columbia to Compete With Low Prices Set For Softwoods By Producers of Northern Europe

LONDON, Nov. 30.—The delegation representing British Columbia timber interests, which had sought an increased market in the United Kingdom for British Columbia softwoods, announced yesterday that its negotiations had broken down. In a statement, the delegation said that, while some progress had been made in the way of extending sales, competition from timber producers of Northern Europe had set such a low level for prices in Great Britain that, unless some change was made in existing conditions, it would be impossible to expect any material increase in shipments of British Columbia timber to this country.

French Views

PARIS, Nov. 30.—A number of members of the French Chamber of Deputies yesterday expressed the belief that it was impossible for European nations to make payments on war debts due to the United States next month owing to the fact that the question of war debts is linked up with that of disarmament which is yet to be settled.

Premier Eduard Herriot is endeavoring to stave off debate in the Chamber at this time on the question of war debts and it was believed possible last night that he might seek a vote of confidence on Thursday in which case his cabinet would stand or fall on the policies it has adopted on the debt issue. The confidence vote would be on a government motion to adjourn the Chamber, the cabinet falling if the Chamber refused to adopt the motion.

A resolution calling for flat repeal of the Eighteenth Amendment with ratification through the state legislatures was personally presented to the chairman of the committee on Monday by Speaker John N. Garner. Meantime, rumblings of a bolt in both parties on the question of repeal or modification are being heard. Many members are in favor of modification of the Volstead Act who will not countenance repeal of the Eighteenth Amendment. Senator Norris, chairman of the judicial committee of the Senate, announces that he will support modification of the Volstead Act to legalize the sale of beer and light wines but that he is not in favor of repeal of the Eighteenth Amendment which would permit sale of liquor outright.
