BRINGING UP FATHER

NEW OFFICERS WAR VETERANS

W. E. Denning is President—Secretary to be Selected by Executive Monday Evening

Election of officers of the Great War Veterans' Association for the ensuing half year took place at a well attended meeting of the members last night and resulted as follows:

Honorary President, Lt. Col. G. W. Peck, V.C., D.S.O.

Honorary Vice-President, Major John McGregor, V.C.

President, W. E. Denning.

First Vice-President, D. Green.

Second Vice-President, W. Mason.

Executive—Joe Hutchinson, C. L. Youngman, Stanley Smith, Jos. Fleming and W. Brass.

A. J. Bishop was appointed secretary pro-temp and the executive will meet Monday evening to name a permanent successor to Ald. Alex. Mackenzie, resigned.

LAUNDRY TENDERS ARE DISCUSSED BY THE HOSPITAL BOARD

At the meeting of the hospital board last night the question of laundry work was discussed at some length following the opening of tenders from the two local institutions. Last year the work was done by the Canadian Steam Laundry for \$85 a month for the flat work and \$5 each nurse. The laundry explained that it could not continue at those prices but offered to do the flat work for \$165 and the uniforms for \$8 a month for each nurse. The price offered by the Pioneer Laundry was \$150 for the flat work and \$9 for each nurse.

The chairman of the house committee said it worked out slightly cheaper for the Canadian Steam Laundry but he thought the people there must have known that the local amateur station had been communicating as a lot of publicity had been given to Mr. Barnsley's work.

D. G. Stewart said it had been tried before and found too expensive. The plant would cost too much. He suggested that one laundry be given the flat work and the other the uniforms.

After some discussion it was left with the house committee with power to act.

DR. GRANT ADDRESSES ST. ANDREW'S SOCIETY

Interesting Discourse on Early History of Canada up to Capture of Quebec

Dealing principally with the early history of Canada up to 1759, the date of the capture of Quebec by the English, Rev. Dr. H. R. Grant gave an interesting historical discourse to the members of the St. Andrew's Society last night as the first of a series of lectures which the society has arranged for the winter months.

Dr. Grant referred particularly to the struggle for supremacy in North America between the British and French and gave them reasons why the former had been victorious. He also dealt with the expulsion of the Acadians from Nova Scotia.

There were vocal solos by Mrs. J. J. Muldoon; Mrs. A. R. Hunter, and John E. Davy, and a violin solo by John Bremner. W. Vaughan Davies was accompanist of the evening.

President D. C. Stuart was in the chair.

CALGARY TRIES TO STEAL THUNDER FROM LOCAL WIRELESS MAN

Jack Barnsley's Work Attracts Much Attention Throughout This Continent

A recent Canadian Press dispatch from Calgary states that the message received in that city from the exploration ship Bowdoin a few days ago was the first that had been picked up by a Canadian station. Yet for weeks Jack Barnsley of this city had been in almost mighty communication with Donald Mix, the operator of the Bowdoin, Calgary seems to be trying to steal

Prince Rupert's thunder, for the people there must have known that the local amateur station had been communicating as a lot of publicity had been given to Mr. Barnsley's work.

Mr. Barnsley's splendid work in being the first to take and send messages from and to North America is attracting a great deal of attention throughout the continent.

India will be one of the competitors in the Olympic Games to take place in Paris in 1924 if plans inaugurated by Lord Lytton, governor of Bengal, are carried out. The governor has called a meeting for the purpose of forming a Bengal Olympic committee in connection with India's proposed representation. Governors of several other provinces are taking similar action. India's competition will be limited to the better known track and field events. The marathon race is not favored as a competition in which the Indian representa-

tive is a brother of Ald. J. Arthur Smith.

The September issue of the Municipal Review of Canada contains an article on the Alberta telephone system by Hon. Vernon W. Smith, minister of railways

lives should participate.

Between October 15 and 20 the annual national endurance ride for saddle horses will be held with Avon, New York, as the centre point of the contest. The races are designed to stimulate general interest in breeding and use of good saddle horses of a general utility type, possessed of stamina and hardiness, and at the same time having the necessary quality to render them suitable for use in the mounted service of the United States. The entrants will be required to make sixty miles per day for five days and the judging will be based on 60 per cent for condition and 40 per cent for time. The riders will be required to make a minimum of nine hours and a maximum of 11 hours for each day's ride.

Home runs have played an important part in World Series baseball games in the past but the 1923 series already stands unique in the fact that home runs have won the first three games. Babe Ruth scored two and Ward one for the Yankees on Thursday and they won 4 to 2. Casey Stengel's homer in the ninth inning of the opening game on Wednesday turned the trick for the Giants breaking a 4 to 4 tie. Then again the old outfielder turned in a circuit drive yesterday making the only tally of the game and giving the New York Nationals their second victory. By the by, this same old Stengel, who has been the hero of two games which he won, entered the big series just recovering from injuries sustained and up to the day before the opening John McGraw did not know whether or not he would be able to use him.
