### Strict Censorship in Dublin

over Despatches: Even News of

LONDON, March 17.—The reason for the rigid censorship imposed in Dublin yesterday preventing the use of the telegraph and telephone lines except for brief messages approved by the authorities, is not known here. ### PREMIER OWNERS BUY CLAIMS SALMON RIVER

Reaching out still further in its policy of acquiring as much of the great mineralized zone in the Salmon River section of the Portland Canal as it can, the Guggenheim interest, now in control of the Premier mine and other large properties, has purchased the Mineral Basin group of claims, says the Vancouver World. This property adjoins the Northern Light group, control of which is held by the B.C. Silver Corporation, backed by English capital. The Guggenheims hold a one-third interest in the B.C. Silver.

Bill McGraw and associates were the original owners of Mineral Basin. While the surface showings here are not especially attractive, it is said that the group lies on the main strike of the ore, therefore is attractive to the big company.

### Right of Canada to Act Alone in Canadian Affairs is Fought to Finish in Fisheries Treaty

OTTAWA, March 17.—Correspondence tabled in the House of commons indicates the Canadian government had difficulty in arranging that the halibut fisheries treaty between Canada and the United States should be signed by the Canadian minister of fisheries as the sole representative of the King, without the British ambassador subscribing to the treaty.

Three months ago Baron Byng cabled to London asking that full powers be conferred on Hon. Ernest Lapointe, minister of marine and fisheries. On February 28 another cable from

Baron Byng to the British Colonial secretary expressed surprise that British Ambassador Geddes at Washington had been instructed to sign on behalf of the King, considering the belief that Canada's signature was sufficient and the matter being solely one of concern to Canada. Baron Byng asked that Sir Auckland Geddes be instructed to stay out.

Four days later the treaty was signed at Washington by Mr. Lapointe alone.

### VICTIM OF SEA MASSETT INLET

Young Indian Boy Lost and Re-  
mains of George Doughty  
Discovered

MASSETT, Mar. 17.—The search for the body of a young Indian, named David Bell, of the Massett Band, has been carried on by his brother tribesmen, for over a week, without result. The man went across Massett inlet, in his launch, to obtain a number of logs. Later in the day his launch was seen floating with the tide. Some other Indians boarded the vessel and found the engine running, but Bell was missing and has not been heard of since the 3rd instant. His small boat was also missing and it is presumed that the wind and tide carried the man out to sea. Search parties covered the whole of the north coast of Graham Island, from Rose Spit to Langara Island. The only result of the search was to discover the remains of the late George Doughty, which were imbedded in the sand on the beach near the place where the remains of Mrs. Doughty were discovered, shortly after the wreck of their launch last summer.

Much Activity  
Buckley Bay, on Massett Inlet, was the scene of a great deal of activity during the past week. Two large motor-driven boats were loading lumber for the Los Angeles Products Limited, while a large schooner was also loaded with timber for Seattle. A number of logging camps were started, with the prospects of a busy season for all concerned.
