Home Bank Losses To Depositors Small.

The tosses to depositors owing to the failure of the Home towards idealism, and should try Bank should not be very large. Outside of the losses to share- to show that the only policy holders, the report received yesterday stated that the shortage workable was practical stateswould be slightly over two and a half millions. As there is a manship, in the old sense of the double liability for shareholders and there was a paid up capital word. It was to be regretted of nearly two millfons, it looks as if this amount would be avail-that the British government had able to reduce the tosses to depositors. This would seem to not an idealist like ex-President mean that they will get practically all their money.

Bank Officers Must Be Liable.

If the president of a bank signs a false statement he must the Paris Conference in 1919 for earlier, say, in 1946, the war ALASKA has to get on the be held liable for the result. That seems only right. He pro-|six months that England and bably may not know the actual condition of the finances but it Europe have been landed in this ened by probably two years. As hires a Grand Jury to put her is his duty to do so. If he does not know he should not sign, terrible mess. It was precisely they did not decide to come in there. If he signs without knowing, he must be held responsible for because we believed in Woodrow until 1917, I am inclined to think what his signature indicates.

It is unfortunate that just at a time when the financial ther, believed that the American condition of the country is improving, some of the financial in- people shared his idealism, that president at Paris at the earliest If I had had a victory bond stitutions should find themselves crippled and unable to take we allowed the first precious six moment. Had they done so, we should not have had time to readvantage of the change. It is also unfortunate that so many months at the Paris Conference should never have gone in build- fund it. small investors who had their all in the bank should lose even a to be devoted to the construction ing a house upon the sands, at small amount of what they deposited there.

When a persons puts his money into oil stocks he expects to lose, but when he puts it into the bank with its conservative interest returns, he should feel that he is perfectly safe. Pos-levery hour, was of invaluable sibly the rush for Dominion government bonds might have been moment in striking whilst the influenced to some extent by the feeling of insecurity caused iron was not, and rearranging the by the bank failure.

Follow Footsteps Of Australia.

For several years Australia has been benefiting by the to President Wilson to work out and so have avoided the occupaunrest following the war and has secured a large number of his theory of self-determination, tion of the Ruhr, an example new settlers which have filled up her vacant lands and brought which was founded on no experi- which has undoubtedly led to even race between the new prosperity to the country.
