BRINGING UP FATHER

Prince Rupert; Medal for Rupert Lady

ANYOX, Sept. 22 .- At the regular meeting of the Community League council, held Wednesday night, considerable business was transacted. The secretary's report stated that George Williscroft, who managed the ball team that represented Anyox at the Prince Rupert Fair, had turned in a statement covering the trip. This showed an expense account of \$386, leaving a small balance of \$20. The secretary asked the council to fender the manager and members of the team a vote of thanks for the successful representation of Anyox.

The ladies of the hospital auxiliary asked for a change in the date originally asked for on which to hold their dance. They now wanted the evening of Monday, October 29. The secretary of the tennis club asked for the use the library reading room for Sat urday night, September 22 in order to entertain the visiting ten his players from Stewart. Thi organization also asked that th annual tennis dance be held of the evening of October 15, and that the Community League provide, as in former years, cups for the ladder games. The matter of an election was also mentioned by the secretary. Drawings of medals which the league will pre sent to the Prince Rupert lady who was first in the Norther Polytechnic class in dressmak ing, had been received. The mat ter of new books for the librar and several additional papers and periodicals for the reading roo was also suggested.

Everything Granted The council moved a vote thanks to Manager Williscrof and the ball team that visited Prince Rupert. The request of the ladies of the hospital auxili lary was granted. The use of the reading room for a dance of Saturday night was given to th tennis club as requested. The annual dance of that organization will take place on the date asked for, and the council will furnish the necessary trophies, ten in all for the winners of tennis ladde games. It was decided by the council that an election would not take place until February, when certain changes in the constitution would be recommended.

AN INTERVIEW WITH PROMINENT THEATRICAL MAN

W. J. MALCOMB Famous Character Man of the Old School.

JO-TO COMPANY:

Under God, Jo-To saved my life. Why, man, I had suffered tortures from stomach trouble for thirty years. I had five X-Ray examinations made of my stomach and three doctors told me I had ulcers there that would finish me. For two years and eight months I never did a tap of work and what I suffered no one will ever know. During this period my wife and I lived on \$350 and the generous assistance given us by the Elks, of which lodge I am a member. I fell away in weight from 263 pounds to 130. Just think of that for a man of more than average height. Why, man, I was dying, and was in a condition that I did not care how soon it happened.

Then I happened to try Jo-To. I was in such agony that I would have taken anything, and you can fancy how happy I was when I found that Jo-To relieved me. I took the first box and as I continued to improve Why, the benefit to my nerves was wonderful. It used to be that would feel like screaming if I heard a scratching sound, but when you came in, do you know what I was doing? I was filing a thin piece of steel to make a key, and the rasping did not bother me a bit. Let me tell you something else. My head is now so clear and I feel so active that my earning capacity is wonderfully increased. In addition to my regular work here I carry out little plans on the side that have added materially to my income. In short, instead dying I am alive in every sense of the word.

Go ahead and tell the world about Jo-To. Tell them I have so much faith I would stake my life on its or come and see me, and I will convince them that it is the truth. The better it will be for mankind.

Heating Gymnasium

The matter of the gymnasium was fully discussed, the questions of heating and seating being the most important subjects connected with it. It was finally deeided that the management of the Granby Company be asked to have their engineers submit an esti-sented to the student making mate of costs for galleries in the highest mark in the year in Enggymnasium and a pipe line from lish for foreigners. the fuel tank to the present fire!
