Know A Man Out Of Office Hours.

Dr. Grant often says that if you would know a man you must take part in some game with him. Play is a great factor in making people know each other better and with knowledge comes appreciation of the fine points in a person's character.

To take part in a baseball game, to go fishing with a man, to meet him in the gymnasium or in any form of sport or recreation when he is off duty and produces his inner self for inspection is a test that shows exactly what a man is.

Gambling With Fate On Prairie Crops.

Farmers on the prairies are watching nervously for every change of weather and every indication of possible hail or frost. Their livelihood during the coming year is dependent on escape from these dread evils. Planting a crop there seems like gambling with fate for until the grain is cut the farmer never knows whether he is to have enough money to pay his debts and carry on next year, or if everything will be lost in a few minutes through the agency of the weather.

Those who live in Prince Rupert, where people mostly play the safe game, cannot quite understand the anxiety of the farmer, the nervous strain and the final dejection when loss comes. To be a farmer's wife under these conditions is even worse than being a farmer, because the life of the woman is more monotonous and a good crop means so much to her.

Diplomacy Is Not Yet Very Honest.

The diplomatic war which has been going on between France and Germany does not indicate that the world is advancing far in the direction of direct diplomacy. All sorts of subterfuge is indulged in on both sides. False reports are sent out as to conditions, just as was done during the war. Both sides are bluffing. While everyone would like to see a settlement of the difficulty, it does not look as if either side was yet ready to give way sufficiently to enable them to get together.

Why Worry About Climate?

Why worry about the climate of this part of the world? Sometimes we think it not perfect, but then we hear about other places and we pat ourselves on the back and console ourselves that it is better than most places.

Give us the business and the consequent prosperity and the climate will take care of itself. We cannot control the weather but, to a certain extent, we can control the business conditions. By our optimism and energy we can make things a lot better. The conditions are pretty good now and very soon they will be much better. Get into the frame of mind where we expect something and we are likely to get it.

Saving and Investing

"Investing" your money is a serious matter—not to be done in a hurry.

Think twice and ask advice before investing. Be guided by experience—preferably your banker's.

Successful investors always keep in close touch with their bank.

"Double your Savings; It CAN be Done."

QUICK RECOVERY FROM BIG FIRE

Everything Will be Running Smoothly at Anyox Within Few Days

(Special to Daily News) ANYOX, July 20.—Anyox is making a quick recovery from the effects of the fire on Sunday evening last; and within a few days everything will be running as smoothly as for months past. The most serious damage done by the fire, which for several hours entirely surrounded the town, was to the high level railway, over which the ore is hauled from the Mine to the Smelter, necessitating the shutting down of both these units for a short period. The tops of the trestles of this line burned in several places. Gangs of men are now busily engaged in putting this road in shape. The Union Church and parsonage were destroyed completely; and it was only through what appeared to be almost superhuman efforts on the part of the fire-fighters that the fire was prevented from spreading into other parts of the town. From the General Manager down, all who were in Anyox stayed with the work until the fire was under control. To make matters worse, a strong wind kept blowing until early Monday morning. An electrical storm occurring about seven o'clock, which precipitated welcome showers of rain, and gave the weary shifts a chance to rest.

PROVINCIAL JAIL HERE

Mayor Asks Police Commission to Make Application for Such

Mayor Newton would have a provincial jail established in this city to serve all of this portion of British Columbia. He suggested yesterday afternoon at the regular monthly meeting of the police commission that the commission pass a resolution applying for such. The commissioners, however, desired to have further information before making such an application.

The matter came up in the course of a discussion of the heavy expense involved in sending prisoners to Okalla Prison Farm. The mayor suggested that prisoners sentenced here might serve their jail terms in the city jail instead of at Okalla. They could be put to work for the city and there would be a saving all around.

City Solicitor Jones stated that he would look into the matter to ascertain if it would be possible to have sentences passed providing for the serving of terms here instead of at Okalla. He had already sent for further information on the matter.

Chief Vickers said that no prisoners were sent to Okalla other than those who were sentenced to six months or more. The local jail could accommodate eight or ten prisoners but a larger number would be impracticable.

Here or Smithers

The suggestion then came up of having a provincial jail established here. Chief Vickers said there was a movement on foot to establish such a jail for this district at Smithers. The mayor felt that Prince Rupert would be a more central location in view of the many important centres on the coast which would contribute to it. The commission felt that more information might be obtained as to whether or not prisoners could serve their time in the local jail instead of being sent to the provincial jail before taking definite action on the mayor's suggestion.

Women and Houses

The old question of disorderly women and houses of ill-fame was also brought up at the meeting. It was decided that the two worst women in the city had been satisfactorily disposed of—one having moved away and the other now living a quiet life. The chief was asked to keep watch over certain houses of ill repute in the down town section.

The chief brought up the matter of his staff being shorthanded and was empowered to engage special constables when such became necessary. The officers are now having annual holidays.

DR. MCPHEE TELLS OF ROTARY CONVENTION

British National Anthem Sung There Following Star Spangled Banner

In his address to the Rotary Club yesterday Dr. T. J. McPhee, president of the Nanaimo Rotary Club, told the local members that he had lived in Prince Rupert three years, 1908 to 1911, and he looked back to the many happy hours he had spent here and valued the friendships formed. There were still here some of the old pals he had met then. Hardly had he stepped off the train before he began to meet them.

Mentioning the Rotary convention at St. Louis which he attended, he told of the popularity there of Consul E. A. Wakefield. It was a spectacular event. The opening ceremony took place in the presence of 25,000 people. There were choirs and other music, floral decorations and everything most wonderful. Interesting was the appearance of 28 boy scouts each bearing the flag of one of the nations in which Rotary was established. This was followed by 28 maidens carrying the flower of the nations and with them decorating the flags.

There were some splendid addresses and the singing of the Star Spangled Banner and God Save the King were not least among the events.

The most popular part of the program was the address in verse of Eddie Guest on "Boys." He was encored six times. Right Hon. Arthur Meighen, former premier of Canada was one of the speakers.

In concluding his address Dr. McPhee invited all to visit Nanaimo where they would receive a hearty welcome.

TERRACE NOTES

Mrs. Sutherland and her son went down to Rupert on Sunday.

Mrs. Andy Long and Mrs. Harry Mist spent the week end at Usk.

Miss Kelsey who has been spending her holidays at Hill Farm has returned to Rupert.

Bob Henwood, Ted Johnson and J. Orville spent the week end at Usk.

R. A. Harlow was in town on Tuesday.

Miss Mary Temple of Vancouver who spent a year at Pacific is a guest this week of Mrs. T. J. Marsh.

The annual school meeting was held Saturday night in the school house. Mr. A. McLaren was elected trustee in Mr. Dan McKinnon's place.

AN INTELLIGENT TEST

"One of these newfangled games costs \$10 and \$50 a set," remarked Mrs. Cornfossel.

"It means nothin' to me," answered the farmer. "If I was foolish enough to pay that much for it, I wouldn't expect to have sense enough to earn it."—Washington Star.
