FREE STATE ELECTIONS IN IRELAND MONDAY

FIRE DOES MUCH DAMAGE IN GOVERNMENT LIQUOR STORE AT VICTORIA

EDITORIAL

EMBARGO ON PAPER

The chief embargo on the Canadian paper industry is that of railway rates, according to an authority who was in the city recently. The railways give a low classification on carrying of the raw material from Canada to the United States market but when it comes to carrying the finished product the classification is high and the freight rate on it correspondingly high. Paper costs a great deal more to export than does either timber or pulp.

If the railways would give the same rate on paper that they give on the raw material, it would pay the manufacturers to locate in Canada because of the wonderful water powers which are found almost everywhere in this country. The advantage would be with Canada. At present, however, it is cheaper to manufacture in the United States than in Canada because the railway rate on the finished product is higher than on the raw material.

MAY BE CRASH CENTRAL EUROPE

Situation Said to be Disquieting, According to Washington Officials

WASHINGTON, Aug. 25.—The international situation in Germany, notwithstanding recent indications of some improvement, is regarded in Washington with grave apprehension. Most American officials refrain from publicly discussing the matter but many members of the House, the Senate and others who have studied the European situation at first hand agree privately that the outlook is disquieting. In diplomatic circles also there is a pronounced and almost general note of discouragement. Some representatives of countries concerned directly with German reparations regard a crash in central Europe as inevitable.

Irish Election Monday Creates Great Interest; Platform of Republicans

DUBLIN, Aug. 25.—All parties, apparently, are equally confident of victory as polling day approaches. The election campaign has been conducted with daily increasing energy but with an almost complete absence of disorders.

Republicans publish an election program promising, in event of victory, fair treatment to all and no vindictiveness toward opponents. It says England will be offered "not allegiance but peace based on sovereignty and integrity."

DUBLIN, Aug. 25.—The first general election held by the Free State, which takes place Monday, will mark the close of a political contest that has been unexpectedly quiet and peaceful, the only exciting feature being the arrest of De Valera who sought to overthrow the treaty with Britain by which the Free State was called into being.

LONDON, Aug. 25.—The morning papers carry long special dispatches from Dublin reviewing the election prospects. Correspondents record the general belief that the success of the Government party is assured but admit the existence of sufficient unknown qualities to leave some doubt on this point.

The opinion seems to be virtually unanimous that however the Government party fares the new Dail will contain a considerable majority in favor of the treaty and the Free State constitution.

FOUND WEAK SPOT IN DEMPSEY'S DEFENSE

Jack Burke Said to Have Had Best of Two Rounds With Champion

SARATOGA SPRINGS, Aug. 25.—Jack Burke, the hard hitting Pittsburg light heavyweight, uncovered a weakness in Jack Dempsey's defense yesterday which the champion will have to correct before he faces Louis Firpo on September 1. Burke found Dempsey an easy target for right hand blows, the most effective punch in Firpo's collection. He nailed the champion with solid smashes with such speed that Dempsey was fighting mad at the finish of their two stinging rounds.

Observers agreed that Burke clearly had the better of the title holder.

SECOND CLASS PRICE HIGHER

Anomaly Occurred at Fish Exchange This Morning—Seventeen Boats Sold Catches

It is not often that a second-class article gets a higher price than a first-class but that anomaly occurred at the Fish Exchange this morning when the Canadian Fish & Cold Storage Co. bid in the fare of the Canadian halibut boat Dorreen paying 11.3c for the second class fish and 11.3c for the first. In many other cases today the second class price was almost as high as the first. The price was down for the first class commodity but the second-class bidding was stiff. There were seventeen boats in altogether with catches totalling 170,500 pounds. Seven American boats had 90,500 pounds and ten Canadians, 80,000 pounds.

VALERA MADE PEACE OFFER

So Says Correspondent of London Newspaper: Was After the Cash

LONDON, Aug. 25.—That Eamon de Valera, a fortnight before his arrest made a secret peace offer to the Irish Free State officials, is asserted by the Daily Express correspondent. The substance of the offer was that if the government would put in de Valera's possession all republican funds in the United States, amounting to half a million, he would undertake to use them for a purely constitutional agitation in Ireland and terminate military activities.

The government turned down the offer, declaring that they would make no terms whatever.

NOME, Aug. 25.—A strike of natives at Kelzebue, Alaska, has interfered with the plans of the Noice expedition to Wrangell Island to secure a number of Eskimos and their families to colonize the island according to information received here today. Several of the families deserted the exploration ship Donaldson after they had signed on at Kelzebue and, when the vessel sailed on August 6, only one family remained on board. Capt. Hansen, master of the Donaldson, also resigned from the expedition as a result of differences with Noice, its director, over its conduct.

According to Kelzebue advices, the Noice expedition, which left Nome on August 3 to go to the relief of Allan Crawford of Toronto and other members of the Stefansson expedition to Wrangell Island in 1920 and who have been marooned there for the past two years, last reported off Point Hope 400 miles north of Nome and within striking distance of Wrangell Island. This was on August 9.
