ADVANCE IN EGG MARKET

Glut of Moricetown Potatoes Causes Sharp Decline in Local Prices

The local fresh egg market has advanced sharply during the past week or so. Receipts are at the lowest point of the year and it is possible prices have reached the peak. The best value in eggs shown locally today is April storage eggs at 45c a dozen. Their size is good and they have an excellent appearance. They were bought when egg prices were low and when the quality was best.

Flooded with up country stocks chiefly from Moricetown which do not grade out as well as those from Terrace and other good producing sections, the local potato market has declined. When the present supply is cleaned out, prices will surely advance for producers are losing money at today's quotations.

This week marks the passing of corn on the cob, outdoor tomatoes and green pickling tomatoes.

Local cranberries of equal quality to those imported from Washington are now showing. The price is lower and they are better graded.

Present retail prices prevailing in the city are as follows:

SIDE OF AVENUE ON WHICH SIDEWALK IS BUILT PAYS FOR IT

Robert Baird, inspector of municipalities, has written to the city council endorsing the opinion of City Solicitor E. F. Jones that a sidewalk laid on a graded street must be paid for by the property owners on whose side of the street the sidewalk is built. The question came up in connection with the Fifth Avenue East grading program. The council has been planning to lay a sidewalk on one side of that avenue to serve the requirement of both sides and had intended assessing both sides of the street.

Ald. Munro felt that the question should be taken up again and urged that no stone be left unturned with a view to having both sides assessed since it would be giving equal service to both. It is proposed to build the sidewalk on the north or hospital side of Fifth Avenue.

The third reading of the bylaw providing for the sidewalk was deferred for one week as was also the third reading of the bylaw providing for the pavement of Hays Cove Circle and Sixth Avenue East which is a continuation of the Fifth Avenue program.

WOULD HAVE FEES FOR STREETS USED MOVING BUILDINGS

Stating that the city streets had been abused this year through being blocked up by moving buildings, Ald. Perry suggested at last night's council meeting that the city solicitor be instructed to draw up a bylaw seting out fees for a moving permit and daily charges during the moving. His suggestion was that $20 be charged for a permit, $15 a day while the building was on the streets during a specified period and $30 a day thereafter. The city solicitor is acting accordingly.
