He did not time he defied his opponents in Mexico and also the government think this could be refused. of the United States, and when Pershing went out to pursue him he made that noted general look anything but dignified.

Villa is a type of a passing age, a man who could only the Government might well be spring to prominence under conditions such as have existed in proud, the speaker asked why Mexico for a number of years past. He has gone the way of most they should suggest it be cut Mexican leaders.

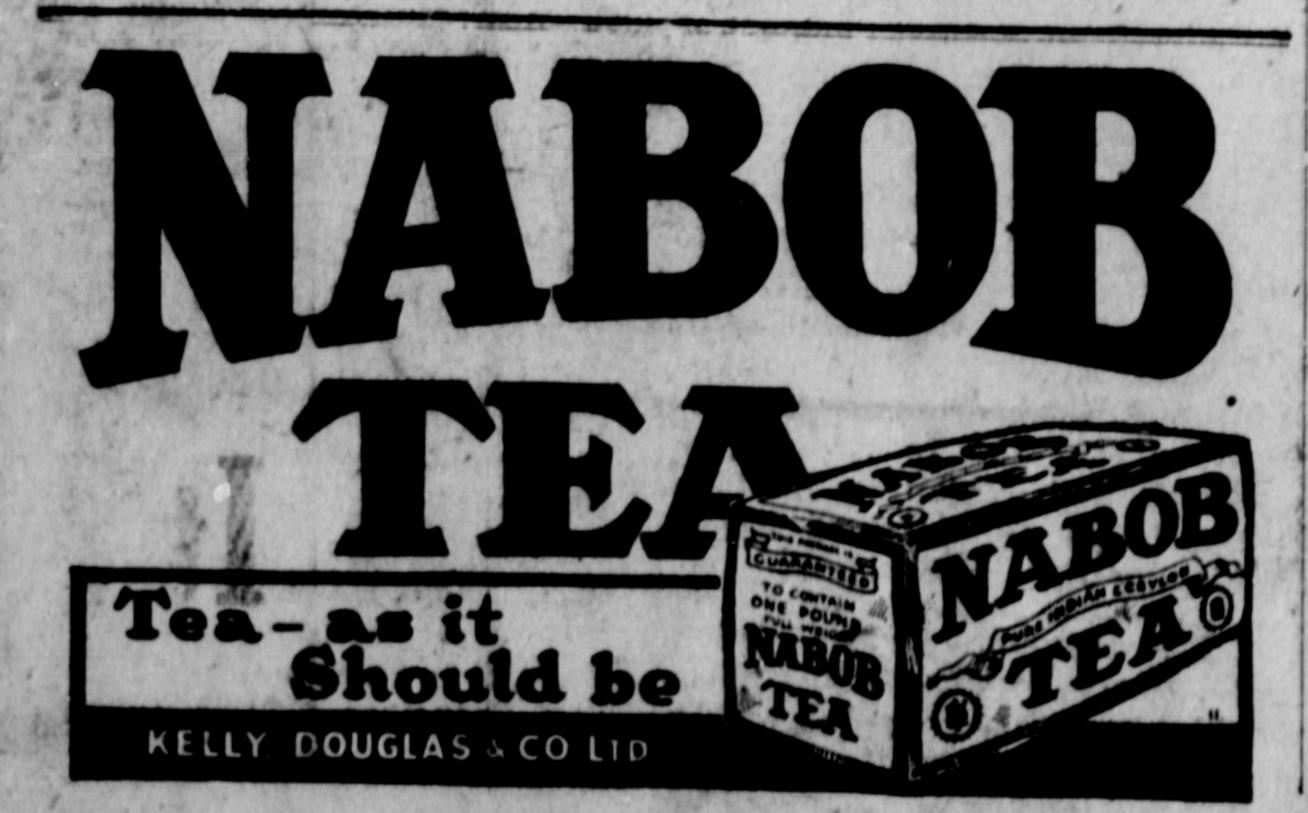

#### General McRae Seems Sincere.

Whatever may be said against General McRae, leader of well to take care of their own the provincial party, he at any rate seems sincere. The diffi- responsibilities. culty is that he is trying to reconcile two opposite lines of policy. On the one hand he is out for ruthlessly cutting down | The General then dealt with expenditures, and on the other hand he would offer inducements the liquor traffic and the stateto capitalists to come in and start pulp and paper industries, ment of the Attorney General would encourage prospectors, would remove the tax from that he was going to get the exmining until the capital invested had been returned, and would port liquor houses. It was surgive Northern British Columbia larger appropriations. Just how prise to him that he had not got he would do all this he does not tell.

He says there are three men to one job in the government liquor warehouses in the interior service. It might be well to ask the civil servants here if that of the province which paid a is true. Complaints have come to us that the staffs in some license of \$19,000 to the prodepartments here are overworked and that instead of cutting vince and exported the liquor in down there should be increases in the staff in order to cope Cadillac cars. No proper check, with the work. There are also complaints from time to time he claimed was made to see that pulp reserves in North America. that the men and women in the service are underpaid. Yet the liquor got out of the country, Mr. Pattullo said they had been

AN INTERVIEW WITH PROMINENT THEATRICAL MAN

W. J. MALCOMB Famous Character Man of the Old School.

## JO-TO COMPANY:

Under God, Jo-To saved my life. Why, man, I had suffered tortures from stomach trouble for thirty years. I had five X-Ray examinations made of my stomach and three doctors told me I had ulcers there that would finish me. For two years and eight months I never did a tap of work and what I suffered no one will ever know. During this period my wife and I lived on \$350 and the generous assistance given us by the Elks, of which lodge I am a member. I fell away in weight from 263 pounds to 130. Just think of that

care how soon it happened. how happy I was when I found that Jo-To relieved me. I took the first box and as I continued to improve I took four more before I was back to the normal. Now look at me! weigh 180 pounds and feel like a boy. Why, the benefit to my nerves was wonderful. It used to be that would feel like screaming if I heard a scratching sound, but when you came in, do you know what I was doing? I was filing a thin piece of steel to make a key, and the rasping did not bother me a bit. Let me tell you something else. My head is now so clear and I feel so active that my earning capacity is wonderfully increased. In addition to my regular work here I carry out little plans on the side that have added materially to my income. In short, instead of dying I am alive in every sense of

Go ahead and tell the world about Jo-To. Tell them I have so much faith I would stake my life on its efficacy, for Jo-To saved my life as that doubts this can only write me or come and see me, and I will convince them that it is the truth. The farther you can spread the story the better it will be for mankind.

try, the speaker spoke of complaints made regarding taxation. Minerals in the hills were of no value. It was only when they were dug that they had value.

The money was spent in supplies and machinery. The miner should be allowed to get his capital back before the Government went after him for income tax. He would also encourage the prospector. What, he asked. would become of the province if they did not encourage the prospector to go into the hills. Development of the industries would provide a market for the produce of the farms.

There was a feeling in the north that Vancouver was not concerned about them. The people of Vancouver were deeply concerned, however, at the financial burden to be borne. For increased development they were looking to the interior of British Columbia. Lack of information in regard to that part of the province was due, he claimed, to the failure of the members. While they boosted the district they did not tell about the problems of marketing, roads and other difficulties.

### Restricted Viewpoint

General Stewart then 'slated the people of Prince Rupert as being restricted in their viewpoint. In Vancouver they were educated to the fact that their success was due to the success for a man of more than average of agriculture. The district from height. Why, man, I was dying, and here to Prince George belonged was in a condition that I did not to Prince Rupert and he asked Then I happened to try Jo-To. I how much time they had given was in such agony that I would have to developing it. Active support taken anything, and you can fancy | was necessary to help them work out their problems. - He thought the north was much neglected. Ministers were making good fellows of themselves in the south and losing out at home. There were at present two ministers in Prince Rupert but the Provincial Party would not promise them that many. The question of expenditure in the north should be settled. He thought southern B.C. would support any reasonable policy. He intended to state in Vancouver what he had said here. If the present members had not the nerve, he
