Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:-"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about, I also

used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine. (Mr. J. W. Sentiment Of U.S. To Britain.

There was a time when there was a good deal of dislike of the British in the United States and to some extent it was justified. Memories of the war remained and there were other factors that kept alive a bad spirit. To a large extent that has now disappeared and there is no more anti-British feeling in the United States than there is anti-Yankee by the westerner, or anti-Negro, or anti-Klan, or anti-Catholic, or anti-Protestant, or anti-prohibition, or anti-anything else.

Lloyd George is a representative Britisher and he is getting the biggest reception ever given a foreigner in the United States. He is representative of the mass of the British people and the ovations which have been given him, while largely out of respect to his personal greatness, are accentuated by the fact that he is British and that the British are the first cousins of th Americans.

National Fish

Day This Month. The date has been set for National Fish Day. It is the last day of this month and should be celebrated as becomes the occasion in this city. We are the fish city par excellence in the Dominion of Canada. We largely exist today because of the fact that fish is shipped from this port. Fishing will for many years be our biggest industry. In view of this fact the event occupied by a dry room, wash should be an important one.

It seems a pity that in celebrating the national fish day more fishermen cannot take part. At the luncheons in the past room. The second floor will cononly a very few fishermen have been present.
