DAILY EDITION

Friday, March 16, 1923.

City Loses Valuable Citizen in Col. McMullin.

This morning Colonel J. H. McMullin left for Victoria to assume the position as head of the provincial police. While the Daily News is glad to know that Prince Rupert can supply the province with such able men as has been demonstrated on more than one occasion, it is to be regretted that the city has to be the loser thereby. Colonel McMullin has served the city and district well and has served the government of the province well. His services have been recognized by those whose duty it is to recognize efficient services. However, the regret of the people of the city at losing him is perhaps the truest gauge of his value as a citizen.

Register At Once Before Forgetting.

It is very important to this district that the names of all eligible people should be placed on the list of voters. When redistribution is brought about the present condition of the lists in conjunction with the recent census will guide the legislators in cutting up the constituencies. Prince Rupert should register every man and woman who is a Canadian citizen. In that way better consideration will be obtained for the claims of the district to better representation. What applies to this city applies also to the whole district. During the two weeks now left in which to undertake the work it should be seen that every name is on the list.

Cutting Up This Large Constituency.

Prince Rupert constituency is a large one and will have to be divided. It is much too large for one man to look after efficiently. Hon. T. D. Pattullo has done excellent work in keeping in touch with the various sections, but it costs too much to get around to all points regularly in addition to visiting them at election times. A man needs to be a millionaire with a big private yacht to go around to all the points and do justice to them all. The only way to do with a district so large is to cut it in two. Size as well as population should count in the apportionment of the ridings. The prospects for increase in population should also be a factor in deciding the dividing lines of the constituencies. Everyone will agree that Prince Rupert is likely to have a very large increase in population in the near future.

Delegates Away To Storm Ottawa Ramparts.

Prince Rupert's five delegates left last night bound for Ottawa to try to batter down some of the opposition to this port. They will place the claims of Prince Rupert and district before the government in the most able manner possible. The report of the address of Hon. T. D. Pattullo published herewith indicates the line of attack he will make and the others will have something to say. When joined by Fred Stork and F. G. Dawson they will constitute a strong group and they should be able to make an impression on the people back east.

Improvement For All Industries.

There is every indication that the industries of the province will be having a more prosperous time this year than heretofore. They need it. In many cases it will take some time to make up losses which they have sustained. That is the way with business. Sometimes they make money and sometimes they lose. The general average has to be taken spread over a series of years, in calculating the success or failure of any business. The large number of failures indicates that carrying on a business or industry is a difficult matter. If they now get a little encouragement no one will begrudge them the opportunity.

"There Were Many Things Which I Could Not Eat"

Mrs. H. Robert Wells, English Harbour, Trinity Bay,
Nfld., writes:

"I was troubled with nervous dyspepsia—so much so that there were a great many things I could not eat at all on account of the distressed feeling afterwards. I used many different remedies, but they did me little good. Finally I tried Dr. Chase's Nerve Food and Kidney-Liver Pills, and was surprised at the relief this combined treatment gave me in such a short time."

MAY BE STRIKE CITY EMPLOYEES

If Council Fails to Entertain
Conciliation Board Reor-
ganization Dispute

If the present efforts of the Civic Employees' union fail in their object of obtaining a Board of Conciliation to deal with the council's recent reorganization measures, there will likely be a strike in the municipal service. This is the opinion of members of the Union in a position to know. Many of the employees are now willing to go out, it is said.

In response to its appeal to Ottawa for a Conciliation Board, the Union was notified yesterday that such could not be authorized unless the council acceded as the second party in the dispute. The council has already signified its attitude in the matter by rejecting the overtures of the Union by vote. A petition is now being circulated by the union asking the council to reconsider its attitude. This petition, it is stated, is being favorably received and has so far met with few refusals to sign.

ST. PATRICK'S TEA BY BAPTIST LADIES

Pretty Affair Yesterday After-
noon at Home of Mrs. Linzey
Was Entirely Successful

A St. Patrick's tea and sale of home cooking was held yesterday afternoon under the auspices of the Baptist Ladies' Aid at the home of Mrs. P. H. Linzey, Rand Block, Fulton Street. Considering the inclemency of the day, the affair was well patronized and the satisfactory sum of \$20 was realized.

The sale of home cooking was in charge of Mrs. George Hibbard and Mrs. George Johnstone. Mrs. Linzey received and Mrs. E. J. Robinson poured, assisted by Mrs. R. E. Walker, Mrs. R. M. Newell and Mrs. S. Hamblin.

Solos were rendered in the course of the afternoon by Mrs. Algie Hunter and Mrs. Tupper. Mrs. R. E. Walker accompanying Miss Mary Muse and Miss Irene Morrison rendered a piano duet.

The apartment was tastefully decorated with hyacinths and green shamrocks and the ladies were attired in Irish costumes, the whole effect being daintily in keeping with the season.

Ten Years Ago in Prince Rupert

March 16, 1913.

The city's pipe line across Shawatlans Passage is now about complete and all that remains to be done is the re-caulking of the joints which will necessitate the services of a diver. Mayor Pattullo, Ald. McCaffery, Ald. Bullock-Webster, Ald. Leek, Ald. Sutherland and Ald. Naden paid a visit to the work yesterday afternoon going out on the launch "Dixie."

Countess Zanardi-Landi, wife of a former member of the G.T.P. engineering staff, is about to publish in Europe an autobiography entitled "The Secrets of an Empress, Revealed by Her Daughter." The book, it is said, will cause a sensation in European royal circles.

There is a public dispute on in the city in regard to the value of boasting. Some people say the city needs more and more publicity while others maintain that such is not necessary to its progress.

The Man in the Moon SAYS:--

A GOOD command of language should always be accompanied by control of the tongue.

AN optimist is a baldheaded man looking in the glass morning after morning to see if the hair growing after using hair restorer.

IT'S easy enough for a girl to know how to twist up her long hair but real art comes in stowing half grown bobs in an artistic manner.

IF anyone wishes to know how to save money, let him buy a ticket for Vancouver and he will save two dollars over what he would have paid yesterday. The more tickets he buys, the more he saves.

THEY say mummies are becoming quite common in Egypt and they even have one in Vancouver. Thank the fates there are none here, or at any rate we hope there are not.

AS long as a politician is a public servant it is all right but the moment he thinks he is public opinion he is lost.

WHEN a man does not believe anything he is a skeptic; when he shows that he does not believe anything he is a dyspeptic.

THE worst of having St. Patrick's Day on Saturday night is that it is so difficult getting up in time for Church on Sunday morning.

IN some cities where they have Irish editors, the reporters are instructed not to call at the

police court for the news the morning of March 18.

THE only sham I don't hate is the shamrock.

THE art of borrowing is a gift. So lending is often a gift.

THE next thing I expect is that this city will be insulted by being given an invitation to join the Automobile Association of British Columbia.

WILL BRING PLANE TO RUPERT VERY SOON

Len Bell, head of the company which owns and operates the airplane Hazelton, says that they will fly to the coast just as soon as there is open water in the river so that they can take off. They will come here and do some work while the interior thaw is going on.

They did not use the machine during the winter even though the skis were all ready. The man who was to have prepared a camp in the interior did not do so and they would not risk going in unless assured that they had an objective. There must be a headquarters there for any winter flying.

Canada's Standard Smoke

BRIER

a national resource

Canada without Macdonald's BRIER would be Canada without a product as closely identified with things Canadian as wheat or gold.

Macdonald's BRIER has assumed a place among the natural resources—

Thus to become a national resource—

A resource in times when the desire for a Good Smoke must be satisfied—

A solace in the moment when the smoker's demand is for the inner satisfaction that only good, sweet BRIER produces.
