Prince Rupert In Public Eye.

Prince Rupert is very much in the public eye these days. The place was often mentioned in the provincial legislature and now already the Dominion parliament is hearing of the existence of the port. All this is good for the town, for we have to let people know that we are on earth and that we are a factor in the life of the Dominion. There undoubtedly is an important future for us. Few places even today offer greater opportunities for a young man than does this city. There will be no sudden access of riches but the man who grows up with the city, works diligently and is always an optimist will eventually land on top. Brainsy men are needed here as much as anywhere.

Looking To Others Instead Of Ourselves.

We are a helpless lot, we people in the world today. We are always looking to someone else to help us instead of helping ourselves. Here in Prince Rupert we are just as bad as the people elsewhere. We are always looking to the outside.

Emil Goue is in the United States trying to show the people of this continent the value of self help. He is meeting with some success but the many look to him as a saviour and want him to heal them. Then he tells them what was told to men and women two thousand years ago, that what they must do is help themselves. The word picture given in the news columns today of the halt, the lame and blind crowding around the French teacher at Chicago clamoring to be cured, carries the mind to the other word pictures we have read of similar scenes enacted by the Sea of Galilee.

Help yourself, is the motto of today. Exert your individuality instead of leaning on your neighbor for support. Nothing is so despicable as a young man or woman who will not earn a living and possibly the time will come when we shall consider nothing so despicable as a man or woman who refuses to cure himself or herself.

Fascisti Period Of World History.

Advancement in the history of the world goes by waves. For many years there was growing up in the world a social movement which tended toward a better condition but that often got going in the wrong direction owing to too great haste. People thought they saw the millennium ahead and they hurried toward it to find it was only like the pot of gold at the foot of the rainbow. It was not there when they reached for it.

Now we are passing through a period of backwash. The Fascisti in Italy have taken in hand the affairs of the country, wresting them from the socialists who were moving too fast in one direction. We are told there is a similar movement in Mexico, in Russia and also in other countries. In the United States the same tendency is shown as well as in Canada. There is a steady up influence which is in danger of sweeping us backward half a century just as the waves recede the farthest after the big breaker that comes highest up the beach.

In spite of all reactions, the world is moving steadily ahead, with a momentum that cannot be stopped. Changes will come little by little. There will be advancement step by step, but the revolutionary little whirlwinds will have to be swept away in order to allow the steady surge forward toward a better condition.

Splendid Work Of Public Library.

The public library is doing splendid work. Even in the little Old Red Cross hut it proved that it could be a vital force in the community, filling a need in this rather isolated district. Miss Grant is to be congratulated on the manner in which she has commenced the work. There is a general extension of interest going on all the time and if it continues to grow it will be difficult for one person to manage. Already the work is heavy.

BARRIE LOSES HIS RIGHT ARM

Was Amputated at Hazelton Hospital Yesterday Following Accident at Terrace Mill on Tuesday

Bud Barrie had his right arm amputated above the elbow at the Hazelton Hospital yesterday morning following the accident in the Terrace sawmill on Tuesday afternoon. A telegram from Dr. H. C. Wynch, superintendent of the Hazelton Hospital, giving this information and stating that the patient was doing well was received last evening by Bert Morgan, manager of the Grotto Cigar Store.

Further details of the accident reaching here last night indicate that Barrie fell against the circular saw in the mill and had his arm hopelessly shattered at the elbow. The arm which has been amputated was the one which Barrie had badly injured in war service and which had given him trouble ever since.

Witnessed Accident
Harry Gawthorne, who was an eye-witness of the accident, returned to the city last night from Terrace. He reports that the accident occurred in Little & Giggoy's sawmill 3 1/2 miles back from Terrace where ties are being cut for the railway. Timbers were being brought along the conveyor from the band saw to the circular trim saw. Barrie was assisting in showing them along when an unusually heavy one had to be handled. He was thrown against the circular saw and his elbow was practically severed. Only his own weight caused him to pass the saw without being dragged into it altogether.

Immediately after the accident occurred, a tourniquet was applied to his arm and he was taken to town where Dr. Bleeker gave first aid attention before he was put on the train for the Hazelton hospital accompanied by his friend, Joe Dean. Although suffering great pain, the young man bore up under it well and did not collapse until he reached the hospital.

A telegram received at the Grotto Cigar store this morning says that Barrie had a bad night last night.

MEMORIAL TO MISSIONARY

New Building at Gitlakdamix to House Printing Presses of Late J. B. McCullagh

GITLAKDAMIX, Naas River, Feb. 8.—Except for some slight inside finishings a new McCullagh Memorial Press Building has been completed here in which the printing presses left by the late missionary are housed. The building is not a very large one but it has been made by the hands of those who feel that the civilization they have is largely due to the untiring labors of the veteran Irish clergyman who gave up everything to go to this peaceful valley and teach the natives the arts of modern life and the religion which he professed.

At his death his printing presses and other gear were scattered, but shortly before Christmas through the energy and zeal of Anthony Adams, who called the boys to the work, a new building was erected and the presses are there and have published an edition of "The Trail Cruiser," the missionary leaflet which Mr. McCullagh issued from time to time.

Church Army Hall
The Church Army is now working on the erection of a new hall at the village and hope to have it completed shortly. Most of the men in the village are giving their services to the work and the women are preparing the meals in Victory Hall for the workers.

The January number of "The Trail Cruiser" is a very well printed and interesting record of the religious happenings of the place. It gives a picture of the president of the church council, Andrew N. Mercer. Other members of the council are vice-president, Andrew K. Naas; secretary, Charlie W. Brown; treasurer, Jonathan Mercer; lay readers, Charlie Morven and Jonathan Mercer; members, Robert Pearl, Luke Grandison, Dennis Woods, John Davis, Amos Gosnal, Peter Adams, James Smyth, Michael I. Bright, and Alfred Johnson.

These members were chosen by former managers of the Ocean Falls plant, are visiting there this week and will be returning to Vancouver on the Prince George tomorrow. Both Mr. Burden and Mr. Martin are now located in the south in senior positions in the company service.

TERRACE NOTES

Mrs. E. T. Kenney who was visiting in Prince Rupert returned home Tuesday night.

Geo. Little's mill, which has been shut down for almost two months, is working again. The sound of the whistle is very welcome to the community.

Rev. Rural Dean Marsh made a visit to Usk this week.

Rev. W. J. Parsons held a service on Sunday in the Lakelse Community hall.

At the Welfare League on Tuesday Charades formed the main program. There was a good attendance and a very amusing evening was spent.

Among those who attended the Danhauser funeral were Mrs. Wiesmuller and Mr. Wilders of Usk, and Mrs. Dobbie and Miss Stewart of Copper River.

Among those registered at the Terrace Hotel this week are M. W. Brooking, T. Johnston, Bird Bannie, Miss Gole, A. Good-enough, E. R. Tabrum, F. Dobbie, Bud Barrie, C. A. Smith, A. W. Laird, Victoria, J. A. Latimer, Vancouver; C. W. Parker, Prince Rupert; H. O'Neill, Prince Rupert; O. Nesberg, Usk; Oscar Oslander, Kalum Lake; Charles Newnham, Rosswood; T. P. Fisher, Vancouver; J. Dean Prince Rupert; G. Hawthorn, Prince Rupert; W. C. Edgar, T. Harrison, Usk; Paul Brodin, Rosswood.

NEW MANAGER HAS ARRIVED AT MILL

D. G. Stenstrum Takes up His Duties as Manager of Pacific Mills This Week

D. G. Stenstrum, who is succeeding J. W. Mulkley as manager of the Pacific Mills at Ocean Falls, arrived at Ocean Falls this week on the Prince George from Vancouver. Mr. Mulkley is going to Portland in the service of the company.

"I Had Terrible Backache From Kidney Disease"
Mrs. M. A. McNeill, Caanan Sta., N.B., writes:
"I was troubled for years with terrible backache, resulting from kidney disease. At times in each month I remained in bed, the pain was more than I could stand, and to walk was almost impossible. I used about \$50.00 worth of other medicines, but with little results. Now I am completely better, after using only five boxes of Dr. Chase's Kidney-Liver Pills."
Dr. Chase's Kidney-Liver Pills
One pill a dose, 25c. a box. All dealers, or Edmansson, Bates & Co., Ltd., Toronto
