DYBHAVN BACK FROM NEW YORK

Ascertained at Ottawa That Close Season Treaty on Halibut Will be Effective This Year

SPRING IS LATE

Took Lively Interest in Eastern Fish Business—Received New York Rotary Flag

John Dybhavn, manager of the Royal Fish Co., returned on last night's train to the city after a business trip of several weeks to Eastern Canada and the United States. He visited New York, Boston, Montreal and Ottawa and other points of importance.

While in Ottawa, Mr. Dybhavn ascertained definitely that the treaty between the United States and Canada providing for a halibut close season will go into effect this fall. Further details under the treaty are to be negotiated this summer and a special commission of the House will be appointed to go into them.

At Ottawa, Mr. Dybhavn met Fred Stork, the local member. Speaking of conditions on the prairies, Mr. Dybhavn said that so far there were not many signs of spring. Seeding had commenced in Alberta and rain is now wanted but seeding had not yet started in Saskatchewan and Manitoba. On Monday last there was a snowstorm at Winnipeg worse than any storm Prince Rupert ever gets in winter. While it was rather cold that day, Mr. Dybhavn says that the weather for the most of the trip was comfortable just like that which is prevailing here now.

In Boston, Mr. Dybhavn took a lively interest in the carrying on of the fish business there. At the present time there is a lot of fish arriving at various Atlantic ports. It is principally cod, although there is also haddock, mackerel, halibut and other varieties. The mackerel is this year about a month behind time. Good prices are generally being paid.

A big day of halibut arrivals in Boston, Mr. Dybhavn says, is when 10,000 pounds is marketed. There is a big market which can be easily supplied with fresh halibut so prices are high, averaging around 25c for first class fish.

While in New York, Mr. Dybhavn attended an evening Rotary Club meeting in the McAlpine Hotel and received, on behalf of the local club, a large American flag which has been presented to it. It was presented by Charles Morris, of the New York Club, who sent his greetings to the farthest North American Club here. Mr. Dybhavn replied. The flag was too bulky for Mr. Dybhavn to bring in his suitcase so it is coming later by express.

Ruth Schultz, referred to frequently at recent police commission meetings as being an undesirable person, made her appearance on summons in the police court today to answer to a charge of vagrancy. Magistrate McClymont lectured accused and advised her to leave the city in order to save herself further trouble. The case was adjourned until Monday in order to give her the opportunity to take the advice.

Helen Carlson, appearing on a similar charge, was similarly dealt with.

Bessie Murren, colored, appearing also on a vagrancy charge, was lectured and dismissed.

There are thirteen new paper making machines being installed in Canadian paper mills this year. When erected and running full these machines will consume more than 350,000 additional cords of wood a year. There are a number of immense deposits of Glauber salts in the province of Saskatchewan, which are at the present time only in the initial stages of development, but it is anticipated that the next few years will see a considerable increase in production.

The Canadian Pacific steamship "Empress of Russia," upon her last sailing, carried a shipment of Canadian frogs for Japan. Cool space was reserved in the hold of the liner and the travellers were well packed in ice. On being taken ashore at Yokohama these frogs will be gradually warmed until they are ready to be let loose, when they will be liberated on the laws of Japanese importers, with the idea of giving the Japanese a new industry in the production of frogs legs.
