## Should a woman endure this?

Is it fair to ask a woman to bear more than a man-to submit to the heavy drudgery of washday and the unwise exposure to cold and chilling winds?

Certainly it is no longer necessary. For a very nominal charge - less than it would cost you at home when you count your own time-we will call for your bundle and do your entire washing, and any part or all of the ironing.

A phone call will bring our representative who will explain in detail our many washday helps.
