## FISHERMEN'S HOME LEASE

### City Decides To Make Offer to Lutheran Church for Establishment of Institution Here

The city council last night unanimously decided to offer a site to the Lutheran Church for the fishermen's home which it is proposed to build here, at Ketchikan or at Petersburg. The terms will be in the nature of a twenty-year lease at \$1 a year with the option to purchase.

Ald. Stephens at first objected to such a procedure and felt that it would be best to offer a tax sale property for purchase at the upset price. He was also opposed to the principle of granting concessions to any particular denomination. He felt that it would lead to trouble.

Ald. Goharr and Ald. Macdonald felt that every inducement should be made to fishermen to remain in the city and make it their headquarters. They approved of the move to give the lease. The mayor took the same view.

Finally the decision was unanimously made to offer the lease.

## MILBURN'S Heart and Nerve Pills

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble.

Many people may be unaware of having anything wrong with their heart till some little excitement, over-work or worry starts it to palpitate and throb, skip beats, beat fast for a time and then so slow as to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers

work be done by day labor. He gave as his reason that too much would be left in the hands of the contractor if the report was adopted and the cost of making repairs would perhaps be double by such a method. Naturally, the contractor would prefer to use new lumber when he was paid for working with it and old lumber would not be used.

Ald. Munro and other members of the council pointed out that the city would be amply protected for the work would be done under the order and supervision of the city engineer. Repairs so far this year on the day labor plan had cost the city \$27 thousand. Now they had a bid averaging \$14.

Ald. Mackenzie, despite this explanation, voted against the adoption of the report.

The appeal of Alexander Howatt, ex-president of the United Mine Workers of America against the action of the inspector of immigration at McAdam Junction, N.B., in refusing to admit him to Canada has been dismissed by the department of immigration here.

Howatt was denied admission on the technical ground that he was liable to become a public charge.

## SEEDING IS GENERAL THROUGHOUT PRAIRIES

WINNIPEG, May 8.—Seeding is now general throughout the prairie provinces. It is about two weeks later than usual. While seeding conditions have been favorable, the lack of rain in some districts has caused anxiety to farmers. This was particularly true of Alberta, where the seed has gone in under the best conditions but the land was dry.

In the low lying lands seeding was delayed, especially in the districts affected by the spring floods.

## BUTEDALE

A. H. Gridge, chief engineer at the cold storage, left for the south on receipt of a wireless message that his mother was very ill in Vancouver.

R. R. Payne, outside superintendent for the Canadian Fishing Company, went south by way of Swanson Bay after having made a tour of inspection of the various plants of the company in Northern B.C.

## HEART PALPITATED and Was Short of Breath COMBINES BILL IS UNDER FIRE

### Criticism of Government Measure by Conservatives Led by Meighen and Stevens

OTTAWA, May 8.—The second reading of the Combines Bill brought some sharp debate in the House of Commons. The proposed legislation was explained by Premier Mackenzie King who said: "It does not seek in any way to restrict such combines or agreements between any business and industrial houses and firms, but it does seek to protect the public against the possible ill effects of these combines." It was directed, he said, against that combine which operated to the detriment of the public.

The Conservatives warmly criticized the bill. Mr. Meighen described the bill as a measure not to get concrete results but one to avoid them.

H. H. Stevens of Vancouver opposed it because it was "inquisitorial." It would harass business without serving any useful purpose.

Some criticism of the bill also came from the Liberal ranks.

## ATTORNEY GENERAL IN AUTO ACCIDENT

Hon. A. M. Manson Saves Boy But Runs Down Light Standard

In seeking to avoid colliding with a cyclist, who came around the corner so quickly as to run into his car, Attorney-General Manson, at 11:45 Thursday night, drove his motor over the curb on the right side of Yates Street, just at the intersection of Vancouver Street, and crashed into one of the iron light standards snapping it off short and badly wrecking the fore part of the car. The lad riding the cycle was thrown to the roadway, but beyond being slightly bruised, escaped without injury. Hon. Mr. Manson also escaped injury, though the heavy standard fell across the hood of the motor.
