

Some Day you will own a Victrola

When that day comes, you will realize why there is no other instrument which brings so much pleasure to so many people at so little cost.

Victrolas are manufactured complete in one factory, the largest plant in the world devoted to the manufacture of a musical instrument.

The Victrola represents more than twenty years successful research and experience. The New Gramophone Model as here illustrated—at from \$35.00 upwards—is one of the finest achievements of the 20th century. Write or ask for a complete catalogue describing in detail the entire line. Her Three Children HAD Whooping Cough

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but it is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

DR. WOOD'S NORWAY PINE SYRUP is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the clogged-up air passages of the mucous and phlegm that has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. H. W. Mahar, Kentville, N. S., writes: "My three children had whooping cough. I tried every medicine I could think of until an old gentleman told me to try Dr. Wood's Norway Pine Syrup. Before they had one bottle taken the cough seemed better, and after two bottles they were almost well. It loosened the cough and relieved them of that hard, distressing and strangling feeling that goes with it."

"Dr. Wood's" is 35c and 60c a bottle. Put up only by The T. Milburn Co., Limited, Toronto, Ont.
