DAILY EDITION

Difficult To Fight Big Interests.

It is always difficult to fight the big interests. The liquor poses of research it controls interests in the United States were very strong but they were several biological stations on the carried away by the prople in a wave of enthusiasm. Since that Atlantic Coast, and one on the fortune telling corner. time they have been working steadily and every effort is being Pacific Coast at Departure Bay. made to injure the prohibition measure, especially in the more Vancouver Island. Meetings of CANADIAN FREIGHTER thickly populated states of New York and New Jersey. thickly populated states of New York and New Jersey.

Prohibitionists light for all they are worth, but when the in Ottawa. victory is won, they lie back, thinking the war is over. In that It is understood that the intenthey are mistaken. Monied interests never stop fighting. They lion of the department is to enare never beaten and when victory over them seems most com- large the functions of the bioplete, that is the time to look for a come back.

It is not probable that prohibition will ever pass away as tain improvements and changes a national policy in the United States, but there is danger that in its present conduct. As a prethe matter of enforcement may become a dead letter in somelliminary step the oppointment of parts of the country.

Like To See Naval Vessels Here.

on the Pacific coast. They are small and of little value, perhaps, except as training vessels. Yet we are glad to see them. They represent a great power.

There is a difference of opinion as to the desirability of a Youngsters Started Blaze in Resi-Canadian navy. There is a section of the community that would like to contribute to the Imperial navy and leave all matters of defence in their hands. Perhaps that would be the effective way of doing things just as the most effective government is an absolute monarchy. Canadians as a rule, however, prefer to control their own expenditures and if they are to pay for de- Damage by fire to the extent of hemlock baby squares from fence, as they undoubtedly must do, they will prefer to have of \$500 or \$600 was done yester-up-river mills, 50,000 feet of airtheir own navy. It may not be a big one but, such as it is, it day afternoon at five o'clock to plane spruce from the Big Bay

The time may come when we shall be glad we have a navy. Avenue East owned by Mrs. C. shipped by Skeena River Japan-It may prove very useful. One British commander discussing T. Partington of Vancouver and ese and a further consignment of the question years ago said that until Canada learned what it until recently occupied by S. Twelve Mile Limit And Halibut Fisheries.

If the present three mile limit of territorial waters should be extended to twelve, as desired by the United States, it would very seriously affect the fishing industry. At present all vessels fish in Hecate Straits outside the three mile limit. With the extension of the territorial limit, Hecate Straits would become almost closed to foreign fishing vessels and then might become a Canadian halibut preserve.

The northern banks near Yakutat would be similarly af fected. Canadian vessels are fishing there today, but if the international law were changed practically all the banks there would be shut off from Canadians.

On the East coast there would be even greater changes, playing costumes and team were proceeding satisfactority. for all the best fishing banks are said to be within twelve miles equipment. Some 65 couples were President Dybhavn reported of the Canadian and Newfoundland shore. That would exclude in attendance and the object of that the association would be debted to the Estate are American vessels.

It might be arranged that halibut fishing should be open Music was furnished by Art address by Ex-Mayor Thomas Meto both nations everywhere as well as halibut marketing. That would solve the difficulty, for fishing rights are going to be difficulty in connection with any proposed extension of territorial control. It is doubtful even if United States and Britain have any right to make such a change without the full and complete consent of other nations interested.

Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's 1tch and Eczema are prevented or relieved.

A Range That Makes You Proud

LIIS appreciation of the tempting, beauti-I fully-baked things that come from the oven of the Kootenay adds not only to the good cook's satisfaction, but enhances the happiness of the home.

A man anticipates the good meals that he knows his wife will bake with a Kootenay Oven. And well he might, for the Kootenay co-operates with all its cooking ability; it is made of Armco Iron. Its oven heats quickly, evenly and holds its

heat with a small fire. Not just a stove-The Kootenay is a master cooking range.

Ask your husband to go with you to McClary's dealer when you wish to buy.

ENAMEL-CLAD FLUES

The flue construction the Kootenay is protected at every vital point with ough porcelain enamel, and resisting Armco-iron. This nique McClary's construction extends the life of the Kootenay by many years.

OVEN WHITE-NICKELED

The interior of the Armoo-iron oven is nickeled. Its clean white surfaces radiate heat quickly and evenly-a factor which taking qualities of Kootenay. This whitenickeled oven is washable. and, of course, resists rust.
