

'FLU

The 'flu epidemic is slightly abating, and you can do much to reduce the risk of infection:

1. Avoid crowds as much as possible.
2. Be careful of your diet. Partake freely of fruit, vegetables and milk, which are alkaline in their re-action.
3. Avoid draughts, but see that fresh air is freely admitted to home or office.

Last and most important. Get a bottle of BUCKLEY'S MIXTURE and take a sip several times a day. BUCKLEY'S is a highly alkaline, germ-destroying mixture, that rids the system of cold-giving acids, invaluable as a preventive. If you should take 'flu, go to bed at once, and call your doctor. As likely as not he'll tell you to carry on with BUCKLEY'S. Many doctors do. But be sure it's BUCKLEY'S—the original, genuine, creamy WHITE MIXTURE.

The 'flu is too dangerous to experiment with unproven preparations and worthless imitations. BUCKLEY'S became famous during the 'flu epidemic of 1918 and has been famous ever since.

"Build B. C. Payrolls"

Pacific Was "Perfect" Before

Mrs. Elsa D. has lived on Vancouver Island for three years and during that time has tried "every kind of canned milk."

"I had found that Pacific Milk seemed to go further. It made much nicer cakes. The children could tell the difference when they got another brand on porridge. We thought Pacific was almost perfect, but your new vacuum packing has been a wonderful improvement."

We thank you Mrs. D.
