#### WHAT IS NEXT STEP?

The ports of Montreal and Churchill are closed for the remainder of the grain shipping season. Ordinarily the shipments would now be made through United States ports but as a result of the Empire Conference it is less profitable than formerly to ship through the U.S.

This is the time when Prince Rupert should benefit, but the action of the lessees of the local elevator in using it for storage purposes only instead of as a terminal ship- ficulty was eventually composed. ping elevator makes it difficult for Prince Rupert to get the benefits which ought to accrue from contact with one of the big grain shipping agencies.

The contract with the Wheat Pool ends next August and it would seem to be the best policy for Prince Rupert to ask for the cancelling of the lease to the Wheat Pool or the insertion of a clause making it obligatory to ship a reasonable amount of grain through the elevator each year.
