REWELL DANCE FOR A. A. CONNON WHO IS LEAVING BURNS LAKE

Gathering at Lakes Centre to Honor Secretary of Citizens' Association

BURNS LAKE, Oct. 2.—On Friday evening an immense crowd from the town and district was in attendance at the dance given by the Burns Lake Citizens' Association in honor of A. A. Connors, former executive member and secretary of the association, who is leaving Burns Lake to take charge of the store at Hazelton. The Burns Melody Orchestra supplied the music for the dance and the ladies of the district helped to supply the refreshments.

After supper S. Godwin, on behalf of the association and of the residents of town and district, expressed the sincere wish of all for the future success and happiness of Mr. and Mrs. Connors and reviewed the splendid public spirit which Mr. Connors had always shown since residing here, pointing out that Mr. Connors held no less than nine public offices, all of an honorary nature, which constituted a tremendous drain upon his time and energy.

Mr. Connors replied in a speech which moved all present. He expressed severing his ties in Burns Lake where he had made a large circle of the best of friends. At the same time he was looking forward to renewing his friendships in Hazelton where he spent several years prior to residing in Burns Lake.

At the conclusion of the speech a ring was formed with Mr. and Mrs. Connors in the centre while the present sang "They are Jolly Good Fellows." Even at his farewell dance Mr. Connors was unable to forget public interests and his last public act was to use sufficient funds to pay a debt on the public piano. At 3.30 in the dance came to a conclusion with all present joining in a circle and singing "Auld Lang Syne" then giving three hearty cheers, and a tiger for Mr. and Mrs. Connors.

PRINCE ALBERT IS TAKEN OVER

C.N.R. Steamer Will Not Again Return to This Port Following Purchase

The C.N.R. steamer Prince Albert, sale of which to the Western Freighters Limited of Vancouver, was announced yesterday, will not again return to this port. On her arrival at Vancouver today from the present northern voyage she will be turned over to her new owners by whom she will soon be commissioned in her new service south of Vancouver.

The officers of the Prince Albert will leave the ship and will be distributed among the other steamers of the C.N.R. and C.G. M.M. coast services.

The service to Prince Rupert and the Queen Charlotte Islands will be maintained by the steamer Prince John on a fortnightly basis for the winter. It is expected the Prince Albert will be replaced by a new vessel by spring.

Nat Bell, well known prairie liquor dealer, is said to be one of the directors of the Western Freighters Limited.

OPPORTUNITY TO DINE WITH LLOYD GEORGE AT BANQUET IN CHICAGO

Editor of Daily News Has Invitation to Attend Gathering of Greatest Newspapermen on Continent

The editor of the Daily News has an invitation to attend a dinner on October 18, given by the leading publishers of this continent as represented by the Audit Bureau of Circulations at which Right Hon. David Lloyd George, Britain's greatest Premier, will be the guest of-honor and at which he will make his first important speech on this continent. The dinner is to be held at the Hotel La Salle, Chicago.

All the most important news-papers on the continent are members of the Bureau and the circulation of these papers is given a thorough audit at least once a year and sometimes twice which is a complete guarantee that the circulation statement of the paper is absolutely correct.

It places the paper in the national class and the fact that the great British statesman has honored that body by consenting to be its guest is an indication that it is looked upon as the representative newspaper body of the continent.

COUNCIL DISCUSSES THE SEPTIC TANKS

Application of Ridley Home to Install One in Lane to Rear of Buildings is Granted

Septic tanks in the city came in for general discussion at last night's council meeting in connection with a report from the board of works recommending that permission be given the Ridley Home to install one in the lane to the rear of its buildings at the corner of Conrad Street and Eleventh Avenue. The report, which provided that the tank should be built to the satisfaction of the city engineer and solicitor, was adopted.

Ald. Collart felt that care should be observed that this tank did not prove an inconvenience or nuisance to neighbors as others in the city had done.

Ald. Munro stated that the committee had gone into the septic tank problem thoroughly with the result that better tanks were now being built in the city.

Ald. Stephens asked if these tanks were inspected during or after their construction. Ald. Munro reported that they were built under the supervision of the city engineer and must be satisfactory to him. They must be built according to how many houses or persons they were to serve.

Ald. Collart felt that some septic tanks in the city were overloaded and were not functioning satisfactorily, constituting a menace to the health of the citizens.

Ald. Stephens said it was not the use but the abuse of septic tanks that he objected to.

A worth-while Reputation

The head of one of this country's great manufacturing institutions says:

"The Man who builds and the man who buys are both beneficiaries of reputation. To the one it is a continuous spur and incentive--to the other, the strongest of all guarantees that what he buys is worthy."

Patronize the manufacturer or merchant who has a reputation for honesty and fair dealing. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his customers. He must retain the good-will of the buying public. Without this, his business cannot succeed

Every time he advertises he puts his reputation in your hands. His products or the wares he has for sale must make good. His service must be as advertised.

That is why it pays to read advertisements, to deal with advertisers and to buy advertised goods.

Mrs. George F. Motion, president of the Rebekah Assembly of British Columbia, I.O.O.F., arrived from the south on the steamer Prince Rupert yesterday afternoon and tonight will pay an official visit to the local Rebekah Lodge. From here she will leave tomorrow night for Smithers and Prince George returning south to her home in Nelson by way of Jasper Park. She is accompanied on her trip by Mr. Motion who is engaged in the transfer business at Nelson.

MASSETT

Two large vessels of the Los Angeles Products Company were at the mill of the Massett Timber Company, Buckley Bay, last week. The large sawmill is running night and day, while the logging camps on the shores of the inlet, are all in operation employing a large number of men.

The whaling stations at Rose Harbor and Naden Harbor are credited with catching and dealing with over two hundred whales during the season.

W. J. E. Pamplin, accompanied by Mrs. Pamplin, arrived at Massett on the last trip of the steamer Prince Albert. Mr. Pamplin will take charge of the Massett school and will also attend to missionary work among the Indians, on Massett Reserve.
