### FOUR LIVES LOST IN EDMONTON FIRE

Deficient Apparatus Causes Delay in Getting Blaze Under Control

EDMONTON, Nov. 9.—Four children lost their lives this week as a result of a fire in the Montross Apartments corner of 122nd Street and Athabaska Avenue, and property valued at \$60,000 was destroyed.

The building was constructed of wood and beaverboard with stucco facing and proved to be a veritable firetrap. Within a few minutes after the alarm was given the entire place was an inferno of flames out of which residents had difficulty in escaping clad in night clothes. The firemen worked well but there were delays on account of deficient apparatus and the fire was able to make headway before the water began to play on it.

### ARMISTICE DAY

Have we forgotten that day of joy  
When bells rang out and whistles blew!  
What a sweet home-coming to many a boy  
Who fought for his King and Country too.

O yes! We remember that day so well  
For our banners waved from roof and pole;  
For the cannon ceased to hurl the shell  
That killed the body and racked the soul.

And many a home was glad that day  
For their soldier lads they'd see again;  
And eyes were bright and hearts were gay  
That many nights had known but pain.

But many sleep in far-off lands  
And the turf grows green o'er many a breast;  
They fought the fight, and to our hands  
Their charge they gave—to do the rest!

The blood they shed, the lives they gave  
Are all in vain, if we do not hear  
Their voices calling from the grave  
To guard their gift of Freedom dear.

And while we bow our heads today  
In silent prayer to God on high,  
Let us swear to make the Peace they won  
Our one and only Battle-cry.

J. C. BRADY.

The assize jury yesterday found Louie guilty of killing his wife with a jack knife, but added a strong recommendation to mercy because the Indian was under the influence of liquor. ### Anyox Smelter will Reopen at Beginning of Week Following Short Shutdown Caused by Rain

(Special to Daily News)

ANYOX, Nov. 9.—Repairs to the six foot flow line which was carried away by a landslide on Saturday will be completed by the beginning of coming week and then work at the smelter will recommence. The mine will commence operations at once.

The measures taken by the company to take no risk as far as human life was concerned has been greatly appreciated by everyone here. While there was no reason to imagine that the new Eastwood multiple arch type dam would not withstand the water pressure for which it was designed, the management of the Granby Company took no chances and billeted all the families living at the flats with families at the mine and higher beach sections. This arrangement was effected in a couple of hours, and to the complete satisfaction of all concerned, and was a splendid demonstration of the safety first principle in actual practice. Apart from the inconvenience experienced by the people and the temporary shut-down of mine and smelter, the new dam had a test which it may never have to stand again, for once it is completed the spillway will take care of the excess water.

The manner in which the occupants of the bunk houses were catered to during the period between Sunday morning and the noon of Monday following, is worthy of mention. The Elks' hall and the Catholic Club premises were thrown open for the entertainment of all absent from their rooms for the time being, while the Community League kept open house in Recreation Hall all night, giving free use of billiard and pool tables to all who cared to while away the time, and on Sunday night a band and orchestra concert was rendered in the picture show hall, which was attended by a large crowd. The band, under Bandmaster J. Varney, was called together in a hurry and played many fine selections, while the orchestra, consisting of Messrs. Liddell, Hasslar, Waterman, Giffen and Armstrong, made a hit with orchestra numbers having the right appeal.

### BOY GETS OUT WITH SUSPENDED SENTENCE

VERNON, Nov. 9.—One of the most interesting trials ever held in British Columbia interior country came to an end with the release on suspended sentence of Eric Stanley, aged 17, who was found not-guilty of attempted murder but pleaded guilty of arson.

The boy came to Canada from England under the auspices of the Salvation Army, which holds itself responsible for his conduct during his minority.

Stanley was employed on a farm at Salmon Arm and the evidence showed that he accidentally wounded his employer's wife, Mrs. T. W. Hall, through the discharge of a shotgun.

Convinced that he had killed her, the boy in terror set fire to the ranch house. Mrs. Hall jumped from a window to safety and later recovered from the gunshot wound.

### PACHENA HAD TO TURN BACK

Staunch Motorboat Ran Into Heavy Southeast Wind and Terrific Seas Enroute to Islands

Running into a terrific south-east gale accompanied by towering seas which soon had all the passengers suffering from mal-de-mer and threatened to turn the craft over, motorboat Pachena, Capt. A. Swanson, bound from Prince Rupert to Buckley, gave up the voyage about half way across Healee Straits last evening and returned to port choosing to tack back against the storm instead of taking further chances on continuing the passage.

The big motorboat left here at 2:30 yesterday afternoon, turned back at 6:30 and was in port again at midnight all her passengers being intact although pretty badly shaken up. The boat had about twenty persons on board including Dr. J. A. Briggs, J. Chase, mill superintendent and M. M. Morgan, time-keeper, of Buckley Bay, and Capt. Tommy Watts and Capt.
