# A worth-while Keputation

The head of one of this country's great manufacturing institutions says:

> "The Man who builds and the man who buys are both beneficiaries of reputation. To the one it is a continuous spur and incentive--to the other, the strongest of all guarantees that what he buys is worthy."

Patronize the manufacturer or merchant who has a reputation for honesty and fair dealing. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his customers. He must retain the good-will of the buying public. Without this, his business cannot succeed

Every time he advertises he puts his reputation in your hands. His products or the wares he has for sale must make good. His service must be as advertised.

That is why it pays to read advertisements, to deal with advertisers and to buy advertised goods.
