

## "I Had Terrible Backache From Kidney Disease"

Mrs. M. A. McNeill, Canaan Sta., N.B., writes: "I was troubled for years with terrible backache, resulting from kidney disease. At times in each month I remained in bed, the pain was more than I could stand, and to walk was almost impossible. I used about \$50.00 worth of other medicines, but with little results. Now I am completely better, after using only five boxes of Dr. Chase's Kidney-Liver Pills."

### Dr. Chase's Kidney-Liver Pills

One pill a dose, 25c. a box. All dealers, or Edmondson, Bates & Co., Ltd., Toronto

## THE DAILY NEWS

PRINCE RUPERT - BRITISH COLUMBIA

Published Every Afternoon, except Sunday, the Prince Rupert Daily News, Limited, Third Avenue.  
H. F. PULLEN, Managing Editor.

DAILY EDITION

Tuesday, Feb. 27, 1923.

### Capitalist System Justice and Equality.

A correspondent, whose letter is published elsewhere, wants to know the opinion of the Daily News editor in regard to the capitalist system and justice and equality. We hardly think it matters what is the opinion of the Daily News on so great a subject, but for the benefit of those who may be interested we suggest that justice is an ideal. So far no state has been found where the people get justice. In this country under a capitalist system justice is not one of the things on which we can pride ourselves and, according to the most authentic reports obtainable, the condition in Russia is far worse than it is here in that respect.

The capitalist system is very imperfect. No one doubts that for a moment. However, no other system has yet been proved workable that gives a larger measure of justice than is obtained here in Canada. Many people here have come from other countries and most of them will agree that here we have better conditions than in most countries.

Equality is one of those things we shall never obtain. There is nothing approaching equality in this country and surely no one would be so bold as to suggest that they have it in Russia, the country of the Soviet. People are not born equal. There is a handicap of the worst kind in nature and as long as there are such handicaps there will also be handicaps in human society. The world is imperfect, being only in course of construction. Human creatures are certainly very imperfect. We are just beginning to feel that we are somebody and there are possibilities ahead of us. The fact that Louis Forkrud is beginning to feel the injustices of life is a sign of better things ahead. It is a feeling which is becoming prevalent in the world today.

### Find A Cure For Present Conditions.

Nobody can fail to realize the conditions that exist throughout the world. Inequalities are very evident, but in our own country less than elsewhere. Here everyone has the opportunity to better himself, although it would be hardly correct to call it equality of opportunity. The young man who is left a large sum of money by his parents has nothing like as good an opportunity as his less favored fellows, because the lure of laziness and bright lights are too great for most young men, if they have the opportunity. The man with a big legacy is badly handicapped in the battle of life.

The difficulty is to find a cure for the body politic. Just as with the human body there is no such thing as a cure, so in the body politic cures do not exist. All a doctor can do is to adjust conditions that nature can work easily and unobstructedly. All the statesman or politician can do is to try to make conditions such that people may be able to rise to the greatest heights of health, efficiency and happiness.

It must be remembered here that the possession of money never brings happiness, efficiency, or health. Usually it brings the opposite in each case. On the other hand earning money often does bring all three and the spending of money well earned is a pleasure.

### No Equalities Or Justice In Nature.

Anyone who has made a study of natural history realizes immediately that there is no such thing as justice or equality in nature. It is the law of the jungle that the weak are consumed by the strong. No animal in its wild state dies what is generally known as a natural death. The end of all life there is tragedy. Nature handicaps some and they become food for the more healthy and efficient.

Among men an attempt is being made to change this. The difficulty is that we have not got very far. The blood of the jungle still courses in our veins and no matter what the political conditions, the jungle is bound to assert itself sometimes. There are reversions to type and the people with the jungle nature strong on them find endless opportunity to prey on their fellows.

It has been found that betterment changes cannot be brought about suddenly. There has to be education and training to fit us for changed conditions. In countries where people have made sudden changes they have found the conditions no better. Nature works slowly. We are evolving, and the speed of the evolutionary process is steadily increasing, but we have a long way yet to go. In bringing about better conditions we can all be factors.

## The Great Economy

Oxo provides rich soups and gravies in a few minutes, and good nourishing dishes from what was left over from yesterday.

Oxo provides the concentrated goodness of lean beef, which makes your food nourish you more.

Oxo means economy, better cooking, and improved health and well-being.

## SILVER WEDDING OF TERRACE PEOPLE IS PROPERLY CELEBRATED

TERRACE, Feb. 27. — Mr. and Mrs. Charles Giggsey celebrated the silver anniversary of their wedding on February 22. In honor of the occasion a number of their neighbors in the Lakelse Valley held a surprise party at their home and presented them with a very handsome Indian hand-engraved card tray and vase to match. A very jolly and happy evening which was thoroughly enjoyed by all present, was spent in music—instrumental and vocal.

Those present were Mesdames Cook and Martin, Mr. and Mrs. Allwood, Mr. and Mrs. Hipsley and little Archie Hipsley, Mr. and Mrs. Pearson, Miss Pearson and Messrs. Corlett, McDonald and Martin sr.

Mr. and Mrs. Giggsey were the recipients of many other handsome presents during the day but owing to the stormy weather the river was impassable to their many friends on the other side.

Mr. and Mrs. Giggsey were among the first settlers in the district, Mrs. Giggsey enjoying the honor of being the first woman to make her home in Terrace.

## DANCE AT TELKWA IS GREAT SUCCESS

Athletic Club Responsible For Event at Bulkley's Farming Centre

TELKWA, Feb. 27. — One of the best dances for many a long day was held in Telkwa on Friday night. It was under the direction of the Athletic Club, and those in charge spared no pains toward making it a success.

The hall was warm and comfortable and the floor was in very good condition. Under the capable direction of Clarence Goodacre the orchestra, comprising Miss Adella Hunsperger at the piano, J. Neve violinist, and Clarence at the drums kept everyone on the qui vive. The latest music and lots of it was evidently their idea and they excelled themselves until the early hours of the morning.

Smithers, Quick, Round Lake and Hubert were well represented and as the home waltz ended the visitors gave the Telkwa Athletic Club three rousing cheers.

## FORMER SKIPPER OF HAYSPORT NO. 2 HAS LABELLED SCHOONER

George Hamilton Ritchie, former master of the gasboat Haysport No. 2, which was sold here recently and taken to Vancouver to go whiskey running, has commenced action in the Admiralty Court at Vancouver for the recovery of \$515 claimed as wages due him from the former owners of the vessel when he commanded her last summer. The suit will not delay the Haysport from commencing in her new business immediately as a bond has been put up.

## TERRACE NOTES

Mr. and Mrs. Raven of Lakelse Lake are visiting Mr. and Mrs. H. S. Creelman this week.

Mrs. Creelman and Mrs. Raven spent Friday with A. Y. Wilson of Remo.

Dr. Grant made a brief visit to Terrace the latter part of the week.

## Ten Years Ago in Prince Rupert

Mayor Pattullo has issued an announcement to the public on the city's financial problems. He seeks the co-operation of the laborers and workmen but does not ask for the surrender of their right or principles.

An attempt was made this morning to burn down the Northern Laundry. An empty can of coal oil was discovered in an upper room but no clue leading to the identity of a possible culprit was left.

In order to make known to the world the advantages that Prince Rupert offers to the man of brains and money, the formation of a Boosters' Club to advertise the city is now being advocated.

## GRAHAM ISLAND FARMERS MEET

Business Followed by Dinner With Dance Afterwards

MASSETT, Feb. 26. — On Feb. 16, after the monthly meeting held in the School House at Massett, about fifty people adjourned to the Queen's Hotel for dinner at 7.30 p.m. The chair was taken by the Rev. Gillett and a splendid repast was served. The table was tastefully decorated and the service was excellent and great credit is due to the proprietors, Mr. and Mrs. Dunn. After dinner the party assembled in the Palmer building for a whist drive at which there were ten tables, the prize winners being:

First Ladies, Mrs. Ruffen. Hidden number, Mesdames Harrison and Giegerich tied and Mrs. Giegerich won by cutting the cards.

Consolation prize, Miss Ruby Smith.

First Gentleman's, N. Carpenter. Hidden number, J. Smith and W. Tunnah tied and the decision was again left to the cards. Mr. Smith being the winner.

Consolation prize was won by Mr. Giegerich.

At mid-night all present went to the Queen's Hotel and partook of a light lunch, which was thoroughly enjoyed, and then back to the hall for dancing until about 3 a.m. It is likely that more of these convivial evenings will be arranged, the idea of the directors being to encourage more production for a ready market and that sociability is good in that it tends to get the people together and work for the common good.

## PRACTICAL JOKER IS WRITER OF LETTERS

Sends in Two Applications, One of Which is Signed as Chinese

Some practical joker is sending in applications to the city for positions on the staff signing under different names. One of these is supposed to be from a Chinese and follows:

"I write for job, job I want clean Sity Hall, scrub floor, washie windies, will you pay me two and a half dollar week, you pay me that muchey, I work for Sity."

"Very Truly yours  
"LUM YET."  
Peroxis Blonde

Another, under a Terrace date line, apparently written by the same person is also an interesting document. It says:

"City Council,  
"Prince Rupert, B.C."

"I hereby make application for the position as Stenographer to the Mayor of your City. I notice by the Daily News that all positions in the City Hall are vacant, and this position I prefer to apply for as I have had considerable

experience in the office of Mayors. For twenty years I was stenographer to the Mayor in the City of New York, and also occupied a similar position in Frederick, Maryland.

"I am 6ft. 10 in. tall, a peroxide blonde, 57 years of age, and have very winning ways, and having been told some very flattering remarks about the Aldermen of your City, I feel I should be given this position.

"As to salary, I would be willing to accept a salary of \$175.00 as I have been told your City has a reputation of paying female employees the highest salary possible.

"At the present time I am living on a ranch at Terrace, and in case of being offered the position, please communicate with me here.

"HARRIET HARRIS."

## NATIVE CHARGED UNDER FORESTRY ACT FINED \$100

Peter Starr, native, charged under the Forest Act with unlawfully removing a tree bearing timber limit marks, was committed for trial by Stipendiary Magistrate McMillan yesterday afternoon and, on appearing before Judge Young, pleaded guilty and was fined \$100 with the option of six months imprisonment. Evidence was given by W. G. Henning, forest ranger at Swanson Bay, G. G. Armitage, Ocean Falls, L. W. Patmore, of Patmore & Fulton, prosecuted, and W. E. Collison, Indian Agent, appeared on behalf of the accused.

## In the Letter Box

HUMAN SOCIETY

Editor Daily News.  
In your valuable paper you have repeatedly urged your readers to study politics and sociology so that they may broaden their minds and cast their ballots intelligently in this connection and with your permission I propose to put before you and your readers a few suggestions pertinent and otherwise with the sole object in view of establishing facts and throw light on obscure subjects. One question each week will suffice and I reserve the right to make brief remarks if I consider the answers unsatisfactory. First, I ask you to look around you and note the condition of human society as it exists today in every land. Then I ask do
