WRITER WAS VICTIM GROSS SUPERSTITION

Country People Shot Semenov Because They Said He Had Evil Eye

NEW YORK, Feb. 27.—Sergey P. Semenov, Russian national writer and close friend of the late Count Leo Tolstoy, has been murdered by fellow villagers who believed him responsible for their misfortunes, according to a letter received by Herman Bernstein, author and journalist.

Semenov's neighbors were suspicious of him for some time, the letter said. They would say: "He is forever writing. But what is the use of his writings? If he is an educated man let him go to the city. He may bring misfortune upon us."

Then, whatever misfortune befell the villagers, whether in the fields or their home life, was ascribed to the "accursed black magic of Semenov." He got the name of "Sorcerer."

The letter continues: "If a cow died suddenly or a wagon broke down, the whole village would start whispering: 'That is the sorcerer's evil eye.' "One day recently Semenov was on his way to the neighboring village of Butzevo. He was carrying a manuscript to the local teacher who would copy it for him. Gregory Malutin, his son Nicholas and his daughter Vera,

Suffered from PIMPLES & BLOTCHES for Fifteen Years

When the blood becomes impure it is only natural that pimples, blotches, boils or some other blood trouble will manifest itself by breaking out of the system.

There is only one way to get rid of these obnoxious skin troubles, and that is by giving the impure blood a thorough cleansing by the use of a good blood purifier such as

Burdock Blood Bitters

This remarkable remedy has been on the market for over forty years; is the best obtainable, and will do all we claim for it as a blood cleanser.

Mr. Albert R. de Witte, Lake Valley, Sask., writes: "I have suffered very much from pimples and unsightly blotches for the past fifteen years, and was so bad I hated to go out anywhere. I tried many different medicines, but none seemed to help. A friend told me to use Burdock Blood Bitters. I have used three and a half bottles, and now I have a clear, rosy complexion."

B. B. B. is manufactured only by The T. Mulburn Co., Limited, Toronto, Ont.

Semenov's fellow villagers, were hiding in a clump of bushes at the bridge approach.

Admitted Murder

"Where are you going?" shouted Malutin to Semenov.

"To the teacher, with a manuscript," he answered.

"Well, this is your last manuscript."

"Two shots were fired. Semenov fell dead."

"At the investigation the Malutins declared calmly:

"Yes, we killed the sorcerer."

Is that a sin? He brought harm to our cattle. He brought illness to the village with his evil eye. The drought was due to him. He was to blame for the famine."

"It was like the voice of the middle ages at the trial of witches. Poor Russia."

Semenov, although he had attained fame as a writer, never would leave his village, preferring to remain there and to till the soil as well as write. He was recognized years ago by Count Tolstoy, who wrote an introduction to some of Semenov's works. The book that had gained him his widest popularity was his autobiography entitled: "Twenty-five Years in a Village."

COLORED CIGARETTES FOR LADY SMOKERS

NEW YORK, Feb. 27.—The dainty female smoker now must select her cigarettes with regard to color with as much care as she does her evening gowns, if she would be fashionable.

Lavender, blue, red, mauve, lilac—all shades—to match gowns and moods and surroundings are the latest styles. And with the new fad comes a new source of revenue for the dressmaker—that of a tobaccoist.

The idea originated in the mind of a Madison Avenue dressmaker, who provided her models with varicolored cigarettes to match the gowns they were wearing. It is said to be attaining a vogue rapidly.

WORLD'S LARGEST AERODROME OPENED ISLAND OF MALTA

MALTA, Feb. 27.—Considerable importance is attached to the opening here of the largest aerodrome in the world by the British and hopes are high that Malta will become a hub from which many air services will radiate. The innovation marks an important step in the all-air route from Great Britain and India.

1600 HORSE POWER ENGINE FOR PLANE

LONDON, Feb. 27.—The new twelve-cylinder 1600 horse-power engine will be the largest single power plant designed for fitting into an aeroplane. This is being constructed by a well-known armament firm in an attempt to produce a practical air engine which will burn crude oil as its fuel instead of high grade gasoline, which is costly. The work of the firm with a 750 horse-power oil-burning engine was so satisfactory that the efforts of the technical staff were turned upon this larger engine. From a commercial point of view—"air expresses" to carry from 30 to 50 passengers now being in design—the production of a giant oil engine of 1,600 horse-power, burning a fuel so much less costly than aviation petrol, will be a development of supreme importance.
