# A worth-while Keputation

The head of one of this country's great manufacturing institutions says:

"The Man who builds and the man who buys are both beneficiaries of reputation. To the one it is a continuous spur and incentive--to the other, the strongest of all guarantees that what he buys is worthy." .

Patronize the manufacturer or merchant who has a reputation for honesty and fair dealing. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his customers. He must retain the good-will of the buying public. Without this, his business cannot succeed

Every time he advertises he puts his reputation in your hands. His products or the wares he has for sale must make good. His service must be as advertised.

That is why it pays to read advertisements, to deal with advertisers and to buy advertised goods.

> Yes, it is worth your while to Read The Advertisements

The city council last night gave permission to the Board of Trade to erect its grizzly bear totem pole at the intersection of Second Avenue and Second Street to serve instead of a silent policeman. In granting the request, the council provided that the pole shall be erected to the satisfaction of the city engineer and that the Board of Trade shall be responsible for its maintenance. The pole, it was reported, is to be erected on a conjerete block with steel reinforce-
