BALDWIN SAYS FREE TRADE WITHIN EMPIRE

PREMIER JOHN OLIVER APPOINTS INDEPENDENT AUDITOR FOR THE P.G.E.

Free Trade Within the Empire Plan Outlined by Premier of Britain

MANGHESTER, Nov. 3.—Premier Baldwin in a speech here last night declared that drastic measures were necessary to solve England's problem of widespread unemployment. He had never been a doctrinaire economist and regarded the economic system as one of expediency rather than principle, "but the period of observation is past," he said. "I find myself here with my mind made up that if we are to attack the problem of unemployment, we must have recourse to radical and drastic action."

BARNACLES ARE TO BE REMOVED AT LOCAL DOCK

United States Lighthouse Tender Cedar Arriving Shortly For Overhaul

The United States lighthouse tender Cedar, Capt. Leadbetter, is coming here in about two weeks to enter the local dry dock for annual overhaul.

The Cedar has an extra lot of barnacles on her bottom this year. In fact, it is claimed by officers of the Cedar and northern marine men generally that the rapid growth of barnacles this year has been phenomenal. The extra dry weather this summer, it is believed, may have had something to do with it.

The Cedar returned to Ketchikan this week from the longest and most stormy cruise she ever made. The boat was out thirty days and visited among other points the Cape Spencer light which is in a very exposed situation and one that is difficult to approach.

MAN IS LOST OFF DOLPHIN

Anton Myren, Norwegian Fisherman, Lost His Life Yesterday Morning

Anton Myren, fisherman, aged 34, was lost off the Canadian halibut schooner Dolphin, Capt. Peter Byrne, yesterday morning at 7 o'clock while the boat was on its way to port from the fishing banks.

The accident occurred in Estevan Sound off the island of that name just south of here. Preparations were being made to put up the sail when the boat took a sudden lurch and Myren went overboard backwards. He sank almost immediately and, though a dory was launched immediately, he was not seen again. The boat waited in the vicinity for a time but without avail.

Myren was a native of Norway and is survived by a widow and three children resident in the Old Country. He was a member of the Deep Sea Fishermen's Union. He had been on the coast for some years fishing at first out of Seattle. He then went mining and only last June resumed fishing out of this port.

George A. McNicholl, C.N.R. general passenger agent at Vancouver is confined to his home suffering from a severe cold he contracted while on a trip to Montreal recently attending a meeting of the company's general passenger agents.

The ideal of Premier Baldwin is of one great Empire with free trade within its borders, so he declared in his speech. "We can reach that ideal," he said, "by binding the Empire together economically. By establishing preference throughout the Empire you are doing nothing against the principles of free trade but making free trade freer over a great area. That is what might be achieved by the commonwealth of British nations with their superior resources."

Developing the protectionist policy further, the Premier said the proposed putting a tax on manufactured goods, especially those imports causing the greatest amount of unemployment and to give a substantial preference to the Dominions but not to tax meat. He said he would never be satisfied until the Empire was absolutely independent of America in regard to cotton growing.

Tremendous Ovation to Lloyd George is Marred by Activity of Irish Republican Rioters

NEW YORK, Nov. 3.—Eight persons were arrested near the Metropolitan Theatre where Lloyd George was speaking last night when Irish republican sympathizers attempted to hold a mass meeting on the street. The police fought a hand to hand battle with a large group. Many carried signs bearing pictures of De Valera and phrases attacking Lloyd George.

Mounted police charged the crowd, driving them back, placing one group, including some women, under arrest. The police later thwarted further attempts of republicans to disturb Lloyd George after he had retired for the night. They threw a cordon about his hotel and dispersed a band attempting to march through the street and another band which attempted a demonstration near the hotel.

Making his last speech before sailing for home, the ex-premier was accorded a tremendous ovation by a huge crowd. Many were turned away but thousands listened to the address over the radio in their homes.

Lloyd George declared he had advocated ruthless prosecution of the war and he now urged ruthless prosecution of peace. He reiterated the support of the Hughes proposal for determining Germany's capacity to pay.
