## Here and There

In order to handle the grain this fall the Fort William, Ont. force of 360 elevator men will be increased to 700. From 120 to 150 grain trimmers will be employed.

For the five months to August, 1923, Canadian newsprint exports were valued at \$35,303,043 against \$27,257,382 for the same period in 1922. Pulp exports in the same period were valued at \$20,008,461 against \$16,075,533.

Grain loading on Canadian Pacific lines during the month of September totalled 26,376 cars or 38,245,200 bushels. This at the beginning of the loading season which was two weeks late this year on account of the retarded harvest.

This has been the greatest season for automobile tourists Montreal has ever experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an unusual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly \$10,000,000 increase in the total trade of Canada for the first five months of the current fiscal year, according to a return made by the Department of Customs and Excise. The total trade of the Dominion, according to the return, for the five months ending with August, was \$785,000,000, as against \$626,000,000 during the same period a year ago. Imports during the period were about \$333,000,000, as against \$303,000,000 a year ago, while exports of Canadian produce rose from \$316,000,000 approximately to \$386,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being \$40 and \$45 a month, whereas a year ago the schedule was down to \$26 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 5,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 50,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,883 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

E. F. Duby sailed for Vancouver on the Prince George last night enroute to Seattle.
