The great thing is to make the purchases early and in connection with this it is well to remember that Christmas is less than eight weeks away.

Infectious Diseases And Who Should Pay?

The city of Kamloops has sent on to the local city council professional guys," barbers a resolution suggesting that as the whole country is concerned sending in protests against in stopping the spread of infectious or contagious diseases, the proposed measure that calls for cost of isolation hospitals should be borne by the whole country. perts with doctors and other

It is well, perhaps, in considering this resolution to consider members of the learned profesthe opposite view. The cities are the breeding places of disease sions. The law, if it goes into and through the negligence of the cities many lives are lost. In effect would be stringent in callorder to encourage preventive measures it is well that the cost of freating outbreaks should fall on those places mostly responsible for disease. If drains are kept in good shape, sewers are constructed, premises are kept clean, the water supply kept pure, competition by barber "colleges." and the moral conditions looked after, there is not very much need for an isolation hospital. Disease breeds in filth and cities are usually filthy somewhere. They have hidden sores that are breeding places for disease: Cleanliness and healthful conditions in a city will obviate the need of asking the government to take his headquarters at the Sumcare of patients who have to be isolated.
