## MINISTER OF AGRICULTURE VISITING NORTH CHURCH UNION IS STRONGLY RECOMMENDED AT PRESBYTERIAN ASSEMBLY

### Marketing Bulkley Beef Discussed with Minister Board of Trade Council

That the department of agriculture appreciates the interest being taken in the farmers of the interior in connection with the marketing of their beef by the Prince Rupert Board of Trade, was the message conveyed to the council of the board at a meeting yesterday afternoon by E. D. Barrow, minister of agriculture. "Such interest is a great incentive to the Provincial Government to aid," he said. "The department of agriculture is realizing that in order to encourage settlement they must see that the new settlers have market facilities as well as land."

### SHOT ALLEGED CHINK BURGLAR

Lumber Dealer Fired Four Shots  
at Man He Found in House

ALDERGROVE, B.C., June 7.—A. A. Berrie, the well known lumber dealer, was aroused early last night by someone trying to get into his house through the window. He found a Chinaman outside who ran to the rear of the house. When Berrie got to the back, the Chinaman had entered the back door and Berrie heard his wife scream. He seized a revolver and finding the Chink there drove him to the street, firing four shots en route. The fourth killed the Chinaman who is now identified.

### SURVEY IRON ORE BODIES

Dr. G. A. Young in Victoria Confer-  
ring With Minister of  
Mines Regard to Work

VICTORIA, June 7.—Dr. G. A. Young of the Canadian Geological Survey is here conferring with Hon. William Sloan regarding the survey of the iron ores of the province to ascertain what quantity of iron ore is available. Young's investigations have been conducted under the geological survey and the provincial department of mines. He will examine all the ore deposits to determine what ores are available to support an iron and steel industry.

### MANUFACTURE OLEOMARGARINE IN CANADA IS DECIDED

OTTAWA, June 7.—Continuation of the manufacture of oleomargarine in Canada will not be permitted, it was decided by the House of Commons after a lengthy debate on a motion favoring continuation of manufacture which was permitted under the wartime law. The motion was brought down by W. F. Carroll of Nova Scotia, seconded strongly by Simon Fraser Tolmie of Victoria. An amendment by W. F. Kay, one of the Ontario members, was carried 125 to 54, leaving the whole question open to fresh legislation.

Mrs. Jesse Longfield, who sang at the Westholme Theatre here for three years ago, was the medalist at the Vancouver annual festival.

**BETTER TERM'S IN  
GERMANY'S NOTE**  
LONDON, June 7.—The new German note, which the German ambassador presents to Lord Curzon this afternoon, is considered as offering distinct advantages over the previous note but it is expected that it will be disappointing to the French, as it is understood not to mention the specific amount of reparations.

### CONDOVER WINS CORONATION CUP

Favorite Comes in First at Epsom  
Today—Craigangower and  
Sobriquet Follow

LONDON, June 7.—The Coronation gold cup and the thousand sovereigns in specie, added to the sweepstakes of twenty sovereigns each, over a mile and a half course at Epsom was won by the favorite Conover. Craigangower came in second and Sobriquet third.

### TRAIN LEFT RAILS CAUSING FIVE DEATHS

Accident to Special on Canadian  
National in State of Michigan

DURAND, Mich., June 7.—A special train conveying members of the Knight Templar order was derailed near here Tuesday and the engineer, fireman, news agent and one passenger were killed instantly and another passenger has since died. A number of people were injured.

### DIRIGIBLE BURNED STRUCK BY LIGHTNING

DAYTON, Ohio, June 7.—One of the biggest dirigibles on the continent, the T.C.L., was burned yesterday when it was struck by lightning.

### SIX KILLED FOOD RIOTS

Leipzig Scene of Clash Between  
Police and Demonstrators Over Cost  
of Living

LEIPSIG, June 7.—Six people were killed and a score injured in a clash between the police and a crowd of socialists and trade unionists demonstrating against the high cost of living. The crowd fired on the police who replied with a volley. The crowd flying from the police looted food shops as they went.

with a view to getting in touch with the problems affecting the farmers. It was his custom to visit every farming district each year with a view to helping the farmers to work out their problems and where necessary to base legislation on the conditions as they existed. On this trip he would visit all important points in the interior and return to Victoria by way of Prince George and Quesnel going down the river by launch.

Colonel Latta of the Land Settlement Board accompanied Mr. Barrow and together they left on last evening's train for Terrace.

### Time Here when Church Must Move or be Left Behind, Pidgeon Says

PORT ARTHUR, June 7.—The long awaited debate on the question of Church Union was precipitated this afternoon in the Presbyterian General Assembly when Rev. Dr. G. G. Pidgeon, of Toronto, chairman of the committee on union, submitted the committee's report. In the course of his address, Dr. Pidgeon said that the resolution herewith presented recommended the General Assembly to proceed forthwith to the consummation of Church Union. He said that the discussion of policies during the last twenty years had created conditions that could not continue. Since 1912 the church had been practising conciliation with the hope of reaching unanimity. In the judgment of the majority of the committee members this could not be continued and the minority should not ask for it. The condition of union and operating charges throughout the country would not permit it.

The hour for decisive action had come, Dr. Pidgeon said, and further postponement would only expose the church to the charge of expensive and irresolute trifling with problems of vast importance. There must be a parting in deference to the charge that friends of union were now dividing their own church for the sake of uniting others. Dr. Pidgeon said that a far more disastrous division would be precipitated if union were blocked than if it were consummated. They must either leave behind those who could not follow this policy to its inevitable conclusion or be left behind by all elements of progress in the communion. "As between the two alternatives, there is only one choice left open to the unionists," Dr. Pidgeon concluded.

### J. F. Duthie, on way to Smithers to Spend Month, says big Mine to be Shipping in Ninety Day's Time

Quantity shipments of ore will not be made from the Duthie Mines, on Hudson Bay Mountain near Smithers, for three months yet, according to J. F. Duthie, head of the concern, who passed through the city yesterday afternoon bound from Seattle to Smithers. The new power plant, Mr. Duthie expected, would be furnished by July 1, but it would take some two months after that to prepare for shipping on a large scale.

Mr. Duthie said everything was looking very promising at the mine. The government was putting in a new road which will facilitate shipping.

On the way north, Mr. Duthie stopped off at Victoria where he met Hon. A. M. Manson, member for Onimene, and Hon. William Sloan, minister of mines. In the course of a conversation with Mr. Duthie complimented Mr. Manson on the good work he was doing for his district and its development. "He is a real live wire and is surely on the job," said Mr. Duthie in telling of the reception he had been given at Victoria by Mr. Manson and Mr. Sloan. Mr. Manson's detailed knowledge of Onimene district was surprising, Mr. Duthie stated.

Mr. Duthie will be at Smithers for the remainder of the month of June. Next week he will be back in the city to meet Mrs. Duthie who is coming up from Seattle to spend a few weeks at Smithers.

Speaking about shipments from the mine, Mr. Duthie said that eight carloads of ore had been sent to Trail since January 1. Where the ore in future will go for treatment or how it will be transported Mr. Duthie was not prepared to announce at this time.

### Dr. George Hanson Arrives to Spend Summer in this District Completing Geological Survey

Dr. George Hanson, associate geologist of the federal Department of Mines and head of the reconnaissance party sent out by that department to investigate the mineral resources of the district between Stewart and Terrace, arrived yesterday afternoon from the south to resume the investigations which he has been carrying on for the past three years and which, as far as this district is concerned, it is expected, will be completed this year. Tomorrow Dr. Hanson will sail by the Venture en route to Aiyansh on the Naas River where other members of his party have already arrived.

Speaking to a Daily News representative, Dr. Hanson said that this season's program of investigation work will start at Aiyansh and an overland trip be made from there into the Kitsumkalum valley and Terrace. After that the party will go to Alice Arm for a brief time and Anyox will also be visited. Then Stewart will be visited and about September the party will go to Hazelton and perhaps also into the Bulkley Valley. The belt to be traversed is approximately 150 miles long and 20 miles wide.

**Objects of Work**  
Explaining the objects of his work, Dr. Hanson said the idea was to get as much geological information about the mines and the district as possible. Their maps and memoirs are to be prepared which will aid prospectors and operators and provide information useful to the mining industry generally. One of the special objects was to investigate all arsenic deposits in an endeavor to locate a workable supply of arsenic of which there is at present not a large enough supply in North America. Some arsenic deposits near Hazelton, Dr. Hanson said, would be investigated this summer by his party. Another work of the survey is to collect ores from successful mines representative of the districts for the federal geological museum at Ottawa.

Dr. Hanson has as his assistants this year two young men, R. H. B. Jones and H. C. Gunning, both bachelors of science with special geological training who graduated from the University of B.C. this spring. Mr. Jones and Mr. Gunning are already up the Naas and by this time, it is thought, will have completed an overland trip over the Naas divide into the Alice Arm valleys. In all, the party this year will consist of six members, the other three being employed at local points.

**Steel Investigation**  
In the course of his conversation, Dr. Hanson stated that Dr. George A. Young, heading a large investigation party for the provincial government, will visit the Queen Charlotte Islands this year to make a survey of iron resources in connection with the proposed establishment of the steel industry in this province by the Coast Range Steel Co. Dr. Young's party is a very large one and includes four University men. His investigations this year are being confined to Vancouver and Queen Charlotte Islands.

As far as his own work was concerned, Dr. Hanson said that, though the investigations in this district would be probably finished this year, he hoped next year that something along a similar line would be done in the Bulkley Valley and east.

**Interest in District**  
Dr. Hanson evinced a great interest in mining prospects and developments of the Prince Rupert district and spoke optimistically of the future from the standpoint of mining both in the Stewart and Bulkley Valley districts.

### MINISTERS TO VISIT RUPERT

Two Expect to Meet Sir Henry  
Thornton When He Visits  
City: Premier Later

Special to Daily News  
VICTORIA, June 7.—Hon. T. D. Pattullo and Hon. Alex. Manson both expect to be in Prince Rupert at the time of the visit of Sir Henry Thornton, head of the Canadian National Railways. Mr. Manson is anxious to point out to the president the claims of the Onimene constituency for railway service and extensions and Mr. Pattullo will again urge that the former promises to Prince Rupert and the contracts with that city be carried out.

### LARGE TIMBER DEAL PENDING

American Capitalists Are Negoti-  
ating for Purchase of Block  
75, Cowichan District

VICTORIA, June 7.—American capitalists are negotiating for the purchase of the largest single block of timber left in the Cowichan Lake belt which is said to be the most heavily forested timber district on the coast. This is Block 75, situated on Gordon River now held by the British-American Timber Co. Seattle men have been in the region making a personal examination of the tract. They are E. H. Elendahl, William Edris, C. P. Nutler and H. G. Seaborne.

### BRITISH PREPARE TO PAY DEBT INSTALMENT

NEW YORK, June 7.—The British Government has purchased Liberty bonds and established dollar credits sufficient to meet the next instalment of \$80,000,000 on the war debt soon due.
