## MONEY MEANS SUCCESS NORTHERN MINING

### CANADA'S PRIME MINISTER PROVES REAL CANADIAN PATRIOT IN ENGLAND

#### Properties in Stewart Mining Field Prove up with Development Work

#### Permanency of Camp is Assured—Future of Alice Arm Bright—Showings at Kitsumkalum

There has been more money spent in mining development work this year in the Stewart district than ever before and the results have been better than ever declares G. A. Clothier, resident mining engineer for the provincial government, who is just back from his annual trip of inspection to the mining properties in that district. Wherever sufficient money is spent for development there seems to be no doubt of results. Mr. Clothier states. This has been proven in the Dunwell, Indian, Big Missouri, Outsider, B.C. Silver, and other properties. Wonderful progress has been made in both the Bear and Salmon River valleys. Mr. Clothier estimates that at least half a million dollars has been spent in development work on properties in the Stewart district. It is going to be a great mining country for many years to come.

#### FISHERMEN'S HOME LIKELY

Committees Having Project in Hand Make Good Progress With Negotiations

#### LUTHERAN SOCIETY WILL PROVIDE MAN

Erecting Building to Cost \$10,000 or \$12,000

Negotiations conducted by the fisheries committees of the city council and board of trade with a view to establishing a fishermen's home at this port have just about reached a point where all that will be required to make the project an actuality will be the financial support of the citizens. In view of the undisputed value that such an institution would be to the city, the committees feel no necessity for hesitating in putting forward their case. There was a meeting of the two fisheries committees on the matropolis in the office of Dybhavn & Hanson yesterday afternoon at which considerable progress on the project was reported. Attending this meeting were John Dybhavn, S. K. Campbell and W. E. Williams representing the board of trade and Ald. Macdonald and Ald. Smith of the city council.

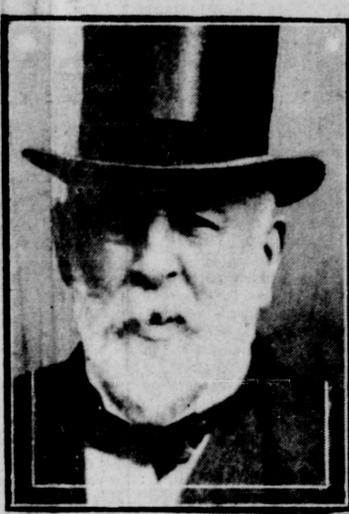

The Lutheran Young People's Association of North America has definitely undertaken to provide and pay the salary of a suitable man to manage the home if it is established. This man will be specially qualified in this line of work.

Plans are being prepared by the committees for a building and, when they are ready, the project will be submitted to the public with a view to putting on a subscription drive. It is intended to put up a good sized frame building, probably of two storeys, which will be comfortably equipped with reading, writing, sitting, billiard, pool and card rooms, shower baths, etc. It will probably cost in the neighborhood of \$10,000 or \$12,000.

Negotiations with the provincial government for two or three lots near the corner of First Avenue and McBride Street on which to erect the building, give promise of being successful.

Liners are now landing passengers at Halifax and are rushing them over the Canadian National Railway and Allied American lines to New York in order to beat out the liners going direct to that port. #### Premier King Pleads Before British Chamber of Commerce for Investment in Dominion

LONDON, Oct. 25.—Premier Mackenzie King of Canada renewed his plea last night for the investment of British capital in the Dominion.

Recently Canada had seen great growth of mining development, agricultural production, manufacturing and fisheries and forest wealth.
