TWO MEN LOSE LIVES FROM FISHING BOAT

MANY STEAMERS TO DOCK HERE IN NEXT WEEK OR TWO FOR OVERHAUL

Two Fishermen Swept Overboard from Lincoln off Coronation Island

Ernest Bakken, aged 37, and married with one child, and Ole Bru, aged 35 and single, fishermen of Seattle, were swept overboard and lost off the Seattle fishing schooner Lincoln ten miles to the westward of Hazy Island last Sunday evening. The Lincoln arrived in port this morning with 10,000 pounds of halibut. Members of the crew of the Lincoln telling the story of the tragedy this morning to the Daily News said that on Sunday evening they were running for shelter from the fishing schooner off Coronation Island a heavy southeasterly wind was blowing and it was raining hard. The men were standing on the look-out for land, when a heavy sea broke over the schooner sweeping both overboard together with a large amount of gear. Two hundred fathoms of line gear became entangled in the propeller and the boat became crippled as a result. The roughness of the sea made the launching of a dory impossible and all that the crew remaining on the schooner could do was to helplessly, listening to the howling shouts of their comrades.

Four Steammers to Dock and Overhaul Within Short Time. Four Canadian Government Merchant Marine freighters are due here within the next ten days to enter the local dry dock for inspection and overhaul. The Canadian Importer and Canadian Rover are due next Monday. The former is coming direct from Cuba. The latter is in the coastwise service between Ocean Falls, the Columbia River and California. Early in March the Canadian Britisher and Canadian Inventor are coming. Both are direct from across the Pacific, it is understood, the former from Australia and the latter from the Orient.

THREW KEGS OVER. Kegs were thrown overboard in the direction of the unfortunate men but apparently they failed to get hold of these. The Lincoln drifted about for a while but the men were dressed heavily in oilskins and it is thought that they would remain on the surface but for a short time. Finally, a sail was put up and with what little gear could be obtained from the damaged propeller, the schooner made for Port Conclusion which was reached on Monday morning. Yesterday the Lincoln reached Ketchikan where news of the tragedy was transmitted to the relatives in Seattle, Prince Rupert and was reached this morning and the catch was sold preparatory to leaving for the halibut banks again.

ATTACK MADE DUBLIN OFFICE. Irregular Killed and Three are Captured by Soldiers. DUBLIN, Feb. 21.—An organized attack was made this morning on various government offices here and an attempt was made to set the income tax office afire. National troops guarding the government board were fired on and killed one irregular and captured three.

BRITISH GOVERNMENT CHANGES DISCUSSED. Nothing to Base Rumors Upon So May Be Speculative Gossip. LONDON, Feb. 21.—Rumors of possible cabinet changes were discussed this morning by the newspapers but nowhere is there definite confirmation or intimation much to suggest it is more than speculative gossip. In some quarters it is asserted that any reconstruction of the Government in the near future is quite unlikely.

NANAIMO ANXIOUS GRAIN ELEVATORS

Board of Trade Busy Trying to Induce Government to Make City Shipping Port

NANAIMO, Feb. 21.—At the monthly meeting of the board of trade, Tuesday evening, Alderman Harrison, as a special committee from the city council, addressed the board on the question of wheat elevators and the use of Nanaimo Harbor in connection with a terminal point for the Canadian National Railway. He illustrated his address by maps, showing the grain routes as now in general use and the Western route as proposed to a Pacific port. He also dealt at length with the question of Nanaimo Harbor and the way in which it could be utilized as a terminal point. At the conclusion of his address, an open discussion took place as to the most appropriate way of bringing to attention of the proper authorities the matter under discussion. It was suggested that Mr. Harrison submit a draft resolution covering the salient features of the whole scheme for the use of the whole, which was done.

It was moved by Mr. J. F. Doyle, seconded by Capt. Bradford: Whereas wheat from the prairie provinces can be shipped to Europe via a Pacific coast port. And where as it appears that a port of shipment can be used to advantage for the purpose on Vancouver Island. And whereas Nanaimo Harbor is situated 37 miles from Vancouver city and is the most available shipping point on this island and can be made very suitable, at small expense, for railway trackage and wheat elevators and has the advantage of being able to supply coal in large quantities. Be it therefore resolved that the attention of the proper authorities be drawn to the natural advantage of Nanaimo Harbor as a terminal point for the Canadian National Railway and a shipping port for wheat on the island. Be it further resolved that a copy of this resolution of the board of trade be sent to the Right Hon. Mackenzie King, The Hon. J. H. King, M.D.C.M., and the local member for the Federal riding.

The above motion on being put to the meeting carried unanimously. G. E. Foster, 31,000 pounds, at 12.6c and 8c, to the Canadian Fish & Cold Storage Co. Hippo, 8,000 pounds, and W. & F., 2,000 pounds, at 12.7c and 8c, to the Canadian Fish & Cold Storage Co.

France is Expelling Germans who do not Obey French Orders

Struggle Continues after 6 Weeks. DUSSELDORF, Feb. 21.—The conclusion of the sixth week of the Ruhr occupation finds France resorting almost exclusively to expulsions in its efforts to impress upon the Germans that the orders of General DeGoutle are to be obeyed. The Germans on their part are adopting the general policy of protest strikes throughout the region with a view to hampering the French operations and prevent their reaping any benefit from the occupation. Germans are consoled by the fact that it is costing the French an immense lot of money to carry on and that they are getting little to repay them for the outlay. The French on the other hand do not see how the Germans can possibly carry on with factories and mines closed. A climax will have to be reached sooner or later and who will come out of the struggle victorious is not clear. The Germans are encouraged by the sympathy they are receiving from Britain and other countries and from the general attitude of labor toward their cause.

LOGS HIGHER PUGET SOUND

Advance in Price of Fir Will Affect all Other Grades Say Lumbermen

EVERETT, Wash., Feb. 21.—The Puget Sound district loggers have raised the prices for logs from fourteen, nineteen and twenty-six dollars respectively for the respective grades, to fifteen, twenty-one and twenty-eight.

Local lumbermen say that the quotation given in the despatch is for fir lumber grades 3, 2 and 1 respectively. Spruce would run about a dollar higher. The advance in price of logs on Puget Sound will have an effect everywhere.

TRADE TREATY WITH FRANCE IS APPROVED

OTTAWA, Feb. 21.—The House of Commons yesterday adopted a resolution approving the new trade treaty with France, and gave the first reading to a bill to ratify it. Opposition to the treaty was based largely on a claim that Canada was giving greater concessions than she was receiving.

NO EXPERIMENTAL FARM INTERIOR THIS YEAR

Motherwell Says He Regrets Inability to Carry Out Work This Season. OTTAWA, Feb. 21.—Debating the estimates for agriculture, Hon. Motherwell said he regretted that the government was unable this year to proceed with the establishment of an additional experimental farm along the line of the Canadian National between the Rockies and Prince Rupert.

Turns Down Big Order Because no Permit to Export Logs from North, to its Great Detriment

J. R. Morgan Co., loggers, have to refuse to fill an order for eighteen million feet of spruce, cedar and hemlock logs because they are not allowed to export them. A telegram just received asks them to supply that amount but they are unable to do so although their camp is quite capable of turning out the logs and they could easily handle the order if they were allowed to do so.
